

DEPARTMENT OF THE NAVY
NAVAL BASE VENTURA COUNTY
311 MAIN ROAD, SUITE 1
POINT MUGU, CA 93042-5033

IN REPLY REFER TO:

5090

Ser N45VCS/0150

FEB 12 2009

Mr. Keith Duval
Manager Compliance Division
Ventura County
Air Pollution Control District
669 County Square Drive
Ventura, CA 93003

Dear Mr. Duval:

Enclosures (1) through (3) are the Compliance Certification documents for the Title V Federal Operating Permit (Part 70 Permit) Numbers 0997, 1006, and 1207 issued to Naval Base Ventura County. The Compliance Certification covers the period January 1, 2008 through December 31, 2008.

The enclosed documents fulfill the requirement stated in Condition 15, Section 10 of our Part 70 Permit.

If you have any comments or questions, please contact Mr. Hasan Jafar, (805) 989-3210, DSN 351-3210, e-mail hasan.jafar@navy.mil.

Sincerely,

C. B. CONNERS
Captain, U.S. Navy
Commanding Officer

- Enclosures:
1. Compliance Certification Document for Title V Permit 0997
 2. Compliance Certification Document for Title V Permit 1006
 3. Compliance Certification Document for Title V Permit 1207

COMPLIANCE CERTIFICATION PERMIT FORM
Applicable Requirement or Part 70 Permit Condition Attachment
Form TVPF46/12-24-98 (Modified to fit on one page)

Applicable Requirement or Part 70 Permit Condition

Citation, Including Attachment Number and/or Permit Condition Number: Attachment 70N3a, Condition No. 1	Description: General requirements of Rule 70, including requirements for pressure/vacuum relief valves at vent pipes, requirements for bulk transfers, and good operating practices, as applicable to fueling facility at Building 631
---	---

Attach to this form any information specifically required to be submitted with the compliance certification in the applicable requirement or Part 70 permit condition.

1. Please indicate the method(s) that you use for determining compliance. Indicate the frequency of monitoring and indicate the source test reference method, if applicable.

All vent pipes are equipped with the appropriate pressure/vacuum relief valve and connected per Condition No.1. Proper operation of valves is verified annually at the time of the static pressure performance test. All bulk transfers utilized the vapor recovery system associated with the permitted loading rack. Good operating practices are ensured by periodic monitoring by the NBVC field operations team.

2. Yes No Are you currently in compliance as indicated by the most recent monitoring measurement or observation as described above?

3. Please indicate if this compliance determination method is continuous or intermittent:

Intermittent - As indicated by non-continuous periodic monitoring

4. Yes No During the time period covered by this compliance certification, does the monitoring data indicate any excursions, if applicable?

An **excursion** is defined as "a departure from an indicator or surrogate parameter range established for monitoring under the applicable requirement or Part 70 permit condition, consistent with any averaging period specified for averaging the results of the monitoring."

5. Yes No During the time period covered by this compliance certification, does the monitoring data indicate any exceedances, if applicable?

An **exceedance** is defined as "a condition that is detected by monitoring that provides data in terms of an emission limitation or standard and that indicates that emissions (or opacity) are greater than the applicable emission limitation or standard (or less than the applicable standard in the case of percent reduction requirement) consistent with any averaging period specified for averaging the results of the monitoring."

6. Yes No During the time period covered by this compliance certification, do you have any other information or data that indicates that you are not in compliance?

Time Period Covered by Compliance Certification:

January 1, 2008 through December 31, 2008

Ventura County Air Pollution Control District
COMPLIANCE CERTIFICATION PERMIT FORM
Applicable Requirement or Part 70 Permit Condition Attachment
Form TVPF46/12-24-98 (Modified to fit on one page)

Applicable Requirement or Part 70 Permit Condition

Citation, Including Attachment Number and/or Permit Condition Number: Attachment 70N3a, Condition No. 2	Description: Phase I vapor recovery requirements as applicable to the fueling facility at Building 631
---	---

Attach to this form any information specifically required to be submitted with the compliance certification in the applicable requirement or Part 70 permit condition.

1. Please indicate the method(s) that you use for determining compliance. Indicate the frequency of monitoring and indicate the source test reference method, if applicable.

Presence of submerged fill pipe in the form of a bottom-fed tank inlet (2.1) is verified at the time of annual inspections. Lack of leaks (2.1 and 2.3) is ensured by annual static pressure performance tests. Presence of CARB-certified Phase I VRS (2.2 and 2.5) and poppetted dry breaks (2.6) are verified at the time of the annual inspection. Phase I VRS is operated during all product deliveries.

2. Yes No Are you currently in compliance as indicated by the most recent monitoring measurement or observation as described above?

3. Please indicate if this compliance determination method is continuous or intermittent:

Intermittent - As indicated by non-continuous periodic monitoring

4. Yes No During the time period covered by this compliance certification, does the monitoring data indicate any excursions, if applicable?

An **excursion** is defined as "a departure from an indicator or surrogate parameter range established for monitoring under the applicable requirement or Part 70 permit condition, consistent with any averaging period specified for averaging the results of the monitoring."

5. Yes No During the time period covered by this compliance certification, does the monitoring data indicate any exceedances, if applicable?

An **exceedance** is defined as "a condition that is detected by monitoring that provides data in terms of an emission limitation or standard and that indicates that emissions (or opacity) are greater than the applicable emission limitation or standard (or less than the applicable standard in the case of percent reduction requirement) consistent with any averaging period specified for averaging the results of the monitoring."

6. Yes No During the time period covered by this compliance certification, do you have any other information or data that indicates that you are not in compliance?

Time Period Covered by Compliance Certification:

January 1, 2008 through December 31, 2008

Ventura County Air Pollution Control District
COMPLIANCE CERTIFICATION PERMIT FORM
Applicable Requirement or Part 70 Permit Condition Attachment
Form TVPF46/12-24-98 (Modified to fit on one page)

Applicable Requirement or Part 70 Permit Condition

Citation, Including Attachment Number and/or Permit Condition Number: Attachment 70N3a, Condition No. 3	Description: Phase II vapor recovery requirements as applicable to the fueling facility at Building 631
---	--

Attach to this form any information specifically required to be submitted with the compliance certification in the applicable requirement or Part 70 permit condition.

1. Please indicate the method(s) that you use for determining compliance. Indicate the frequency of monitoring and indicate the source test reference method, if applicable.

CARB-certified Phase II systems are installed, maintained, and operated at Bldg. 631 Fueling Facility in accordance with CARB Exec. Order G-70-175. All equipment is clearly identified, maintained in good working order, absent of leaks, and installed in compliance with permit conditions 3.1 - 3.8.

2. Yes No Are you currently in compliance as indicated by the most recent monitoring measurement or observation as described above?

3. Please indicate if this compliance determination method is continuous or intermittent:

Intermittent - As indicated by non-continuous periodic monitoring

4. Yes No During the time period covered by this compliance certification, does the monitoring data indicate any excursions, if applicable?

An **excursion** is defined as "a departure from an indicator or surrogate parameter range established for monitoring under the applicable requirement or Part 70 permit condition, consistent with any averaging period specified for averaging the results of the monitoring."

5. Yes No During the time period covered by this compliance certification, does the monitoring data indicate any exceedances, if applicable?

An **exceedance** is defined as "a condition that is detected by monitoring that provides data in terms of an emission limitation or standard and that indicates that emissions (or opacity) are greater than the applicable emission limitation or standard (or less than the applicable standard in the case of percent reduction requirement) consistent with any averaging period specified for averaging the results of the monitoring."

6. Yes No During the time period covered by this compliance certification, do you have any other information or data that indicates that you are not in compliance?

Time Period Covered by Compliance Certification:

Ventura County Air Pollution Control District
COMPLIANCE CERTIFICATION PERMIT FORM
Applicable Requirement or Part 70 Permit Condition Attachment
Form TVPF46/12-24-98 (Modified to fit on one page)

Applicable Requirement or Part 70 Permit Condition

Citation, Including Attachment Number and/or Permit Condition Number: Attachment 70N3a, Condition No. 4	Description: Requirement that Phase II vapor recovery systems at Building 631 Fueling Facility be operated with none of the defects listed in California Code of Regulations Section 94006, Subchapter 8, Chapter 1, Part III, of Title 17, and that defective equipment be tagged "out of order" and not operated per Condition 4.2
---	---

Attach to this form any information specifically required to be submitted with the compliance certification in the applicable requirement or Part 70 permit condition.

1. Please indicate the method(s) that you use for determining compliance. Indicate the frequency of monitoring and indicate the source test reference method, if applicable.

Proper ongoing maintenance of the Building 631 Fuelling Facility is ensured by the NBVC Supply Department, Fuel Branch. Periodic checks for proper station maintenance are conducted by the NBVC Air Quality Program. Proper maintenance is also verified at the time of the annual compliance inspection.

2. Yes Are you currently in compliance as indicated by the most recent monitoring measurement or observation as described above?
 No

3. Please indicate if this compliance determination method is continuous or intermittent:

Intermittent - As indicated by non-continuous periodic monitoring

4. Yes
 No During the time period covered by this compliance certification, does the monitoring data indicate any excursions, if applicable?

An **excursion** is defined as "a departure from an indicator or surrogate parameter range established for monitoring under the applicable requirement or Part 70 permit condition, consistent with any averaging period specified for averaging the results of the monitoring."

5. Yes
 No During the time period covered by this compliance certification, does the monitoring data indicate any exceedances, if applicable?

An **exceedance** is defined as "a condition that is detected by monitoring that provides data in terms of an emission limitation or standard and that indicates that emissions (or opacity) are greater than the applicable emission limitation or standard (or less than the applicable standard in the case of percent reduction requirement) consistent with any averaging period specified for averaging the results of the monitoring."

6. Yes
 No During the time period covered by this compliance certification, do you have any other information or data that indicates that you are not in compliance?

Time Period Covered by Compliance Certification:

January 1, 2008 through December 31, 2008

Ventura County Air Pollution Control District

Applicable Requirement or Part 70 Permit Condition

Citation, Including Attachment Number and/or Permit Condition Number: Attachment 70N3a, Condition No. 5	Description: Requirement that proper signs be posted at Building 631 Fueling Facility as listed in Conditions 5.1 through 5.5
---	--

Attach to this form any information specifically required to be submitted with the compliance certification in the applicable requirement or Part 70 permit condition.

- Please indicate the method(s) that you use for determining compliance. Indicate the frequency of monitoring and indicate the source test reference method, if applicable.

Proper ongoing maintenance of the Building 631 Fueling Facility is ensured by the NBVC Supply Department, Fuel Branch. Periodic checks for proper signage are conducted by the NBVC Air Quality Program. Proper signage is also verified at the time of the annual compliance inspection. Condition 5.5 is not applicable as all dispensers are used for motor vehicles.

- Yes Are you currently in compliance as indicated by the most recent monitoring measurement or observation as described above?
 No

- Please indicate if this compliance determination method is continuous or intermittent:

Intermittent - As indicated by non-continuous periodic monitoring

- Yes
 No During the time period covered by this compliance certification, does the monitoring data indicate any excursions, if applicable?

An **excursion** is defined as "a departure from an indicator or surrogate parameter range established for monitoring under the applicable requirement or Part 70 permit condition, consistent with any averaging period specified for averaging the results of the monitoring."

- Yes
 No During the time period covered by this compliance certification, does the monitoring data indicate any exceedances, if applicable?

An **exceedance** is defined as "a condition that is detected by monitoring that provides data in terms of an emission limitation or standard and that indicates that emissions (or opacity) are greater than the applicable emission limitation or standard (or less than the applicable standard in the case of percent reduction requirement) consistent with any averaging period specified for averaging the results of the monitoring."

January 1, 2008 through December 31, 2008

COMPLIANCE CERTIFICATION PERMIT FORM
Applicable Requirement or Part 70 Permit Condition Attachment
Form TVPF46/12-24-98 (Modified to fit on one page)

Applicable Requirement or Part 70 Permit Condition

Citation, Including Attachment Number and/or Permit Condition Number: Attachment 70N3b, Condition No. 1	Description: General requirements of Rule 70, including requirements for pressure/vacuum relief valves at vent pipes, minimization of solar gain, bulk transfers, and good operating practices, as applicable to Navy Exchange Gas Station
---	---

Attach to this form any information specifically required to be submitted with the compliance certification in the applicable requirement or Part 70 permit condition.

1. Please indicate the method(s) that you use for determining compliance. Indicate the frequency of monitoring and indicate the source test reference method, if applicable.

All vent pipes are equipped with the appropriate pressure/vacuum relief valve and connected per Condition No.1. Proper operation of valves is verified annually at the time of the static pressure performance test. All vent piping and manholes are maintained in a color which minimizes solar gain. All bulk transfers utilized a properly operating CARB-certified vapor recovery system. Good operating practices are ensured by periodic monitoring by the NBVC field operations team.

2. Yes Are you currently in compliance as indicated by the most recent monitoring measurement or observation as described above?
 No

3. Please indicate if this compliance determination method is continuous or intermittent:

Intermittent - As indicated by non-continuous periodic monitoring

4. Yes During the time period covered by this compliance certification, does the monitoring data indicate any excursions, if applicable?
 No

An **excursion** is defined as "a departure from an indicator or surrogate parameter range established for monitoring under the applicable requirement or Part 70 permit condition, consistent with any averaging period specified for averaging the results of the monitoring."

5. Yes During the time period covered by this compliance certification, does the monitoring data indicate any exceedances, if applicable?
 No

An **exceedance** is defined as "a condition that is detected by monitoring that provides data in terms of an emission limitation or standard and that indicates that emissions (or opacity) are greater than the applicable emission limitation or standard (or less than the applicable standard in the case of percent reduction requirement) consistent with any averaging period specified for averaging the results of the monitoring."

6. Yes During the time period covered by this compliance certification, do you have any other information or data that indicates that you are not in compliance?
 No

Time Period Covered by Compliance Certification:

January 1, 2008 through December 31, 2008

Ventura County Air Pollution Control District
COMPLIANCE CERTIFICATION PERMIT FORM
Applicable Requirement or Part 70 Permit Condition Attachment
Form TVPF46/12-24-98 (Modified to fit on one page)

Applicable Requirement or Part 70 Permit Condition

Citation, Including Attachment Number and/or Permit Condition Number: Attachment 70N3b, Condition No. 2	Description: Phase I vapor recovery requirements as applicable to the Navy Exchange (NEX) Gas Station
---	--

Attach to this form any information specifically required to be submitted with the compliance certification in the applicable requirement or Part 70 permit condition.

1. Please indicate the method(s) that you use for determining compliance. Indicate the frequency of monitoring and indicate the source test reference method, if applicable.

Presence and length of submerged fill pipe (2.1) are verified at the time of annual inspections. Lack of leaks (2.1 and 2.3) is ensured by annual static pressure performance tests and Phase I EVR testing every three years. Presence of CARB-certified Phase I VRS (2.2) and poppetted dry breaks (2.5) are verified at the time of the annual inspection. Phase I VRS is operated during all product deliveries as required by CARB Executive Order G-70-191(2.4).

2. Yes Are you currently in compliance as indicated by the most recent monitoring measurement or observation as described above?
 No

3. Please indicate if this compliance determination method is continuous or intermittent:

Intermittent - As indicated by non-continuous periodic monitoring

4. Yes
 No During the time period covered by this compliance certification, does the monitoring data indicate any excursions, if applicable?

An **excursion** is defined as "a departure from an indicator or surrogate parameter range established for monitoring under the applicable requirement or Part 70 permit condition, consistent with any averaging period specified for averaging the results of the monitoring."

5. Yes
 No During the time period covered by this compliance certification, does the monitoring data indicate any exceedances, if applicable?

An **exceedance** is defined as "a condition that is detected by monitoring that provides data in terms of an emission limitation or standard and that indicates that emissions (or opacity) are greater than the applicable emission limitation or standard (or less than the applicable standard in the case of percent reduction requirement) consistent with any averaging period specified for averaging the results of the monitoring."

6. Yes
 No During the time period covered by this compliance certification, do you have any other information or data that indicates that you are not in compliance?

Please see following page for additional details

Applicable Requirement or Part 70 Permit Condition

Citation, Including Attachment Number and/or Permit Condition Number: Attachment 70N3b, Condition Nos. 3.1 through 3.9 and 3.11	Description: Phase II vapor recovery requirements as applicable to the Navy Exchange (NEX) Gas Station
--	---

Attach to this form any information specifically required to be submitted with the compliance certification in the applicable requirement or Part 70 permit condition.

1. Please indicate the method(s) that you use for determining compliance. Indicate the frequency of monitoring and indicate the source test reference method, if applicable.

CARB-certified Phase II systems are installed, maintained, and operated at the NEX Gas Station in accordance with CARB Exec. Order G-70-191-AA. All equipment is clearly identified, maintained in good working order, absent of leaks, and installed in compliance with permit conditions 3.1 - 3.9. A dynamic pressure test was performed and passed on 4/2/2008 (3.11).

2. Yes Are you currently in compliance as indicated by the most recent monitoring measurement or observation as described above?
 No
3. Please indicate if this compliance determination method is continuous or intermittent:

Intermittent - As indicated by non-continuous periodic monitoring

4. Yes
 No During the time period covered by this compliance certification, does the monitoring data indicate any excursions, if applicable?

An **excursion** is defined as "a departure from an indicator or surrogate parameter range established for monitoring under the applicable requirement or Part 70 permit condition, consistent with any averaging period specified for averaging the results of the monitoring."

5. Yes
 No During the time period covered by this compliance certification, does the monitoring data indicate any exceedances, if applicable?

An **exceedance** is defined as "a condition that is detected by monitoring that provides data in terms of an emission limitation or standard and that indicates that emissions (or opacity) are greater than the applicable emission limitation or standard (or less than the applicable standard in the case of percent reduction requirement) consistent with any averaging period specified for averaging the results of the monitoring."

6. Yes
 No During the time period covered by this compliance certification, do you have any other information or data that indicates that you are not in compliance?

Time Period Covered by Compliance Certification:

January 1, 2008 through December 31, 2008

Ventura County Air Pollution Control District
COMPLIANCE CERTIFICATION PERMIT FORM
Applicable Requirement or Part 70 Permit Condition Attachment
Form TVPF46/12-24-98 (Modified to fit on one page)

Applicable Requirement or Part 70 Permit Condition

Citation, Including Attachment Number and/or Permit Condition Number: Attachment 70N3b, Condition No. 3.10	Description: Requirement that the Navy Exchange (NEX) Gas Station Healy ORVR Phase II vapor recovery system have a high power level control, a low power level control, and undergo testing to verify proper operation of the Healy VP1000 pump.
--	---

Attach to this form any information specifically required to be submitted with the compliance certification in the applicable requirement or Part 70 permit condition.

1. Please indicate the method(s) that you use for determining compliance. Indicate the frequency of monitoring and indicate the source test reference method, if applicable.

The NEX gas station is equipped with the required high and low power level controls. An A/L test performed on 4/2/2008 confirmed that the Healy VP1000 pump is operating correctly.

2. Yes No Are you currently in compliance as indicated by the most recent monitoring measurement or observation as described above?

3. Please indicate if this compliance determination method is continuous or intermittent:

Continuous - As indicated by the presence of permanently installed monitoring equipment

4. Yes No During the time period covered by this compliance certification, does the monitoring data indicate any excursions, if applicable?

An **excursion** is defined as "a departure from an indicator or surrogate parameter range established for monitoring under the applicable requirement or Part 70 permit condition, consistent with any averaging period specified for averaging the results of the monitoring."

5. Yes No During the time period covered by this compliance certification, does the monitoring data indicate any exceedances, if applicable?

An **exceedance** is defined as "a condition that is detected by monitoring that provides data in terms of an emission limitation or standard and that indicates that emissions (or opacity) are greater than the applicable emission limitation or standard (or less than the applicable standard in the case of percent reduction requirement) consistent with any averaging period specified for averaging the results of the monitoring."

6. Yes No During the time period covered by this compliance certification, do you have any other information or data that indicates that you are not in compliance?

Time Period Covered by Compliance Certification:

January 1, 2008 through December 31, 2008

Ventura County Air Pollution Control District
COMPLIANCE CERTIFICATION PERMIT FORM
 Applicable Requirement or Part 70 Permit Condition Attachment
 Form TVPF46/12-24-98 (Modified to fit on one page)

Applicable Requirement or Part 70 Permit Condition

Citation, Including Attachment Number and/or Permit Condition Number: Attachment 70N3b, Condition Nos. 4.1 and 4.2	Description: Requirement that Phase II vapor recovery systems at NEX Gas Station be operated with none of the defects listed in California Code of Regulations Section 94006, Subchapter 8, Chapter 1, Part III, of Title 17, and that defective equipment be tagged "out of order" and not operated per Condition 4.2
---	---

Attach to this form any information specifically required to be submitted with the compliance certification in the applicable requirement or Part 70 permit condition.

1. Please indicate the method(s) that you use for determining compliance. Indicate the frequency of monitoring and indicate the source test reference method, if applicable.

Proper ongoing maintenance of the Navy Exchange Gas Station is ensured by the station manager. Periodic checks for proper station maintenance are conducted by the NBVC Air Quality Program. Proper maintenance is also verified at the time of the annual compliance inspection.

2. Yes No Are you currently in compliance as indicated by the most recent monitoring measurement or observation as described above?

3. Please indicate if this compliance determination method is continuous or intermittent:

Intermittent - As indicated by non-continuous periodic monitoring

4. Yes No During the time period covered by this compliance certification, does the monitoring data indicate any excursions, if applicable?

An **excursion** is defined as "a departure from an indicator or surrogate parameter range established for monitoring under the applicable requirement or Part 70 permit condition, consistent with any averaging period specified for averaging the results of the monitoring."

5. Yes No During the time period covered by this compliance certification, does the monitoring data indicate any exceedances, if applicable?

An **exceedance** is defined as "a condition that is detected by monitoring that provides data in terms of an emission limitation or standard and that indicates that emissions (or opacity) are greater than the applicable emission limitation or standard (or less than the applicable standard in the case of percent reduction requirement) consistent with any averaging period specified for averaging the results of the monitoring."

6. Yes No During the time period covered by this compliance certification, do you have any other information or data that indicates that you are not in compliance?

Time Period Covered by Compliance Certification:

January 1, 2008 through December 31, 2008

Ventura County Air Pollution Control District
COMPLIANCE CERTIFICATION PERMIT FORM
 Applicable Requirement or Part 70 Permit Condition Attachment
 Form TVPF46/12-24-98 (Modified to fit on one page)

Applicable Requirement or Part 70 Permit Condition

Citation, Including Attachment Number and/or Permit Condition Number: Attachment 70N3b, Condition No. 5	Description: Requirement that proper signs be posted at the Navy Exchange Gas Station as listed in Conditions 5.1 through 5.5
---	--

Attach to this form any information specifically required to be submitted with the compliance certification in the applicable requirement or Part 70 permit condition.

- Please indicate the method(s) that you use for determining compliance. Indicate the frequency of monitoring and indicate the source test reference method, if applicable.

Proper ongoing maintenance of the Navy Exchange Gas Station is ensured by the station manager. Periodic checks for proper signage are conducted by the NBVC Air Quality Program. Proper signage is also verified at the time of the annual compliance inspection. Condition 5.5 is not applicable as all dispensers are used for motor vehicles.

- Yes
 No
 Are you currently in compliance as indicated by the most recent monitoring measurement or observation as described above?

- Please indicate if this compliance determination method is continuous or intermittent:

Intermittent - As indicated by non-continuous periodic monitoring

- Yes
 No
 During the time period covered by this compliance certification, does the monitoring data indicate any excursions, if applicable?

An **excursion** is defined as "a departure from an indicator or surrogate parameter range established for monitoring under the applicable requirement or Part 70 permit condition, consistent with any averaging period specified for averaging the results of the monitoring."

- Yes
 No
 During the time period covered by this compliance certification, does the monitoring data indicate any exceedances, if applicable?

An **exceedance** is defined as "a condition that is detected by monitoring that provides data in terms of an emission limitation or standard and that indicates that emissions (or opacity) are greater than the applicable emission limitation or standard (or less than the applicable standard in the case of percent reduction requirement) consistent with any averaging period specified for averaging the results of the monitoring."

- Yes
 No
 During the time period covered by this compliance certification, do you have any other information or data that indicates that you are not in compliance?

Time Period Covered by Compliance Certification:

January 1, 2008 through December 31, 2008

Ventura County Air Pollution Control District
COMPLIANCE CERTIFICATION PERMIT FORM
Applicable Requirement or Part 70 Permit Condition Attachment
Form TVPF46/12-24-98 (Modified to fit on one page)

Applicable Requirement or Part 70 Permit Condition

Citation, Including Attachment Number and/or Permit Condition Number: Attachment 70N3b, Condition No. 6.1	Description: Requirement to perform and pass "Static Pressure Integrity Test" every 12 months at the Navy Exchange Gas Station per CARB Executive Order G-70-191
---	---

Attach to this form any information specifically required to be submitted with the compliance certification in the applicable requirement or Part 70 permit condition.

1. Please indicate the method(s) that you use for determining compliance. Indicate the frequency of monitoring and indicate the source test reference method, if applicable.

The most recent static pressure performance test using CARB Test Procedure TP-201.3 at the Navy Exchange Gas Station was performed on 4/2/2008. The Facility was found to be in compliance.

2. Yes Are you currently in compliance as indicated by the most recent monitoring measurement or observation as described above?
 No

3. Please indicate if this compliance determination method is continuous or intermittent:

Intermittent - As indicated by non-continuous periodic monitoring

4. Yes During the time period covered by this compliance certification, does the monitoring data indicate any excursions, if applicable?
 No

An **excursion** is defined as "a departure from an indicator or surrogate parameter range established for monitoring under the applicable requirement or Part 70 permit condition, consistent with any averaging period specified for averaging the results of the monitoring."

5. Yes During the time period covered by this compliance certification, does the monitoring data indicate any exceedances, if applicable?
 No

An **exceedance** is defined as "a condition that is detected by monitoring that provides data in terms of an emission limitation or standard and that indicates that emissions (or opacity) are greater than the applicable emission limitation or standard (or less than the applicable standard in the case of percent reduction requirement) consistent with any averaging period specified for averaging the results of the monitoring."

6. Yes During the time period covered by this compliance certification, do you have any other information or data that indicates that you are not in compliance?
 No

Time Period Covered by Compliance Certification:

January 1, 2008 through December 31, 2008

Ventura County Air Pollution Control District
COMPLIANCE CERTIFICATION PERMIT FORM

 Applicable Requirement or Part 70 Permit Condition Attachment
 Form TVPF46/12-24-98 (Modified to fit on one page)

Applicable Requirement or Part 70 Permit Condition

Citation, Including Attachment Number and/or Permit Condition Number: Attachment 70N3b, Condition No. 6.4	Description: Requirement to perform the following tests every three years at the Navy Exchange Gas Station: TP-201.3, Static Pressure Performance Test, TP-201.1B, Static Torque Test, TP-201.1E, Leak Rate and Cracking Pressure of pressure/Vacuum Vent Valves Test, and either TP-201.1D, Leak Rate of Drop Tube Overfill Prevention Device Test, or TP-201.1C, Leak Rate of Drop Tube/Drain Valve Assemble Test .
---	--

Attach to this form any information specifically required to be submitted with the compliance certification in the applicable requirement or Part 70 permit condition.

1. Please indicate the method(s) that you use for determining compliance. Indicate the frequency of monitoring and indicate the source test reference method, if applicable.

The Static Pressure Performance Test (TP-201.3), Static Torque Test (TP-201.1B), Leak Rate and Cracking Pressure Test (TP-201.1E), and both Leak Rate of Drop Tube Overfill Prevention Device (TP-201.1D) and Leak Rate of Drop Tube/Drain Valve Assemble (TP-201.1C) Tests were performed at the Navy Exchange Gas Station on 4/26/2006. The Facility was found to be in compliance.

2. Yes Are you currently in compliance as indicated by the most recent monitoring measurement or observation as described above?
 No

3. Please indicate if this compliance determination method is continuous or intermittent:

Intermittent - As indicated by non-continuous periodic monitoring

4. Yes During the time period covered by this compliance certification, does the monitoring data indicate any excursions, if applicable?
 No

An **excursion** is defined as "a departure from an indicator or surrogate parameter range established for monitoring under the applicable requirement or Part 70 permit condition, consistent with any averaging period specified for averaging the results of the monitoring."

5. Yes During the time period covered by this compliance certification, does the monitoring data indicate any exceedances, if applicable?
 No

An **exceedance** is defined as "a condition that is detected by monitoring that provides data in terms of an emission limitation or standard and that indicates that emissions (or opacity) are greater than the applicable emission limitation or standard (or less than the applicable standard in the case of percent reduction requirement) consistent with any averaging period specified for averaging the results of the monitoring."

6. Yes During the time period covered by this compliance certification, do you have any other information or data that indicates that you are not in compliance?
 No

Form TVPF46/12-24-98 (Modified to fit on one page)

Applicable Requirement or Part 70 Permit Condition

Citation, Including Attachment Number and/or Permit Condition Number: Attachment 70N3b, Condition No. 7.1	Description: Requirement for the Navy Exchange Gas Station to keep records of tests performed on the vapor recovery system
---	---

Attach to this form any information specifically required to be submitted with the compliance certification in the applicable requirement or Part 70 permit condition.

1. Please indicate the method(s) that you use for determining compliance. Indicate the frequency of monitoring and indicate the source test reference method, if applicable.

Records of tests of the vapor recovery systems at the NEX Gas Station is maintained by the NBVC Air Quality Program.

2. Yes Are you currently in compliance as indicated by the most recent monitoring measurement or observation as described above?
 No

3. Please indicate if this compliance determination method is continuous or intermittent:

Intermittent - As indicated by non-continuous periodic monitoring

4. Yes During the time period covered by this compliance certification, does the monitoring data indicate any excursions, if applicable?
 No

An **excursion** is defined as "a departure from an indicator or surrogate parameter range established for monitoring under the applicable requirement or Part 70 permit condition, consistent with any averaging period specified for averaging the results of the monitoring."

5. Yes During the time period covered by this compliance certification, does the monitoring data indicate any exceedances, if applicable?
 No

An **exceedance** is defined as "a condition that is detected by monitoring that provides data in terms of an emission limitation or standard and that indicates that emissions (or opacity) are greater than the applicable emission limitation or standard (or less than the applicable standard in the case of percent reduction requirement) consistent with any averaging period specified for averaging the results of the monitoring."

6. Yes During the time period covered by this compliance certification, do you have any other information or data that indicates that you are not in compliance?
 No

Applicable Requirement or Part 70 Permit Condition

Citation, Including Attachment Number and/or Permit Condition Number: Attachment 70N3b, Condition No. 7.2	Description: Requirement for the Navy Exchange Gas Station to keep records of all maintenance performed on the vapor recovery system
---	---

Attach to this form any information specifically required to be submitted with the compliance certification in the applicable requirement or Part 70 permit condition.

1. Please indicate the method(s) that you use for determining compliance. Indicate the frequency of monitoring and indicate the source test reference method, if applicable.

Records of all maintenance of the vapor recovery system at the NEX Gas Station are maintained by the station manager. Records contain the required elements and are reviewed periodically by the NBVC Air Quality Program. These records are available to District personnel upon request.

2. Yes Are you currently in compliance as indicated by the most recent monitoring measurement or observation as described above?
 No

3. Please indicate if this compliance determination method is continuous or intermittent:

Intermittent - As indicated by non-continuous periodic monitoring

4. Yes During the time period covered by this compliance certification, does the monitoring data indicate any excursions, if applicable?
 No

An **excursion** is defined as "a departure from an indicator or surrogate parameter range established for monitoring under the applicable requirement or Part 70 permit condition, consistent with any averaging period specified for averaging the results of the monitoring."

5. Yes During the time period covered by this compliance certification, does the monitoring data indicate any exceedances, if applicable?
 No

An **exceedance** is defined as "a condition that is detected by monitoring that provides data in terms of an emission limitation or standard and that indicates that emissions (or opacity) are greater than the applicable emission limitation or standard (or less than the applicable standard in the case of percent reduction requirement) consistent with any averaging period specified for averaging the results of the monitoring."

Form TVPF46/12-24-98 (Modified to fit on one page)

Applicable Requirement or Part 70 Permit Condition

Citation, Including Attachment Number and/or Permit Condition Number: Attachment 74.6, Condition No. 1	Description: Surface Cleaning and Degreasing -- solvent properties
--	---

Attach to this form any information specifically required to be submitted with the compliance certification in the applicable requirement or Part 70 permit condition.

1. Please indicate the method(s) that you use for determining compliance. Indicate the frequency of monitoring and indicate the source test reference method, if applicable.

Compliance with ROC and vapor pressure limits are ensured by the fact that all solvents must be approved by Air Quality Program personnel before they can be purchased, issued, or used by any NBVC entity or tenant organization aboard NBVC.

2. Yes Are you currently in compliance as indicated by the most recent monitoring measurement or observation as described above?
 No

3. Please indicate if this compliance determination method is continuous or intermittent:

Intermittent - As indicated by non-continuous periodic monitoring

4. Yes During the time period covered by this compliance certification, does the monitoring data indicate any excursions, if applicable?
 No

An **excursion** is defined as "a departure from an indicator or surrogate parameter range established for monitoring under the applicable requirement or Part 70 permit condition, consistent with any averaging period specified for averaging the results of the monitoring."

5. Yes During the time period covered by this compliance certification, does the monitoring data indicate any exceedances, if applicable?
 No

An **exceedance** is defined as "a condition that is detected by monitoring that provides data in terms of an emission limitation or standard and that indicates that emissions (or opacity) are greater than the applicable emission limitation or standard (or less than the applicable standard in the case of percent reduction requirement) consistent with any averaging period specified for averaging the results of the monitoring."

6. Yes During the time period covered by this compliance certification, do you have any other information or data that indicates that you are not in compliance?
 No

Time Period Covered by Compliance Certification:

COMPLIANCE CERTIFICATION PERMIT FORM
 Applicable Requirement or Part 70 Permit Condition Attachment
 Form TVPF46/12-24-98 (Modified to fit on one page)

Applicable Requirement or Part 70 Permit Condition

Citation, Including Attachment Number and/or Permit Condition Number: Attachment 74.6, Condition No. 8	Description: Equipment and work practice requirements applicable to all cold cleaners (except remote reservoir type) -- Measurement of freeboard height, verification of initial boiling point, ROC content, and ROC composite partial pressure
--	--

Attach to this form any information specifically required to be submitted with the compliance certification in the applicable requirement or Part 70 permit condition.

1. Please indicate the method(s) that you use for determining compliance. Indicate the frequency of monitoring and indicate the source test reference method, if applicable.

Inspection of one cold cleaner unit at Building 311 and one at Building 333 was conducted on 11/25/2008. Freeboard heights were found to be greater than 6", and solvents were found to have a vapor pressure less than 2mmHg @ 20 degrees Celsius on all units. Report showing actual freeboard heights, initial boiling points, ROC contents and ROC composite partial pressures associated with these units is available on request.

2. Yes Are you currently in compliance as indicated by the most recent monitoring measurement or observation as described above?
 No

3. Please indicate if this compliance determination method is continuous or intermittent:

Intermittent - As indicated by non-continuous periodic monitoring

4. Yes During the time period covered by this compliance certification, does the monitoring data indicate any excursions, if applicable?
 No

An **excursion** is defined as "a departure from an indicator or surrogate parameter range established for monitoring under the applicable requirement or Part 70 permit condition, consistent with any averaging period specified for averaging the results of the monitoring."

5. Yes During the time period covered by this compliance certification, does the monitoring data indicate any exceedances, if applicable?
 No

An **exceedance** is defined as "a condition that is detected by monitoring that provides data in terms of an emission limitation or standard and that indicates that emissions (or opacity) are greater than the applicable emission limitation or standard (or less than the applicable standard in the case of percent reduction requirement) consistent with any averaging period specified for averaging the results of the monitoring."

6. Yes During the time period covered by this compliance certification, do you have any other information or data that indicates that you are not in compliance?
 No

Intermittent - As indicated by non-continuous periodic monitoring

- Yes
 No During the time period covered by this compliance certification, does the monitoring data indicate any excursions, if applicable?

An **excursion** is defined as "a departure from an indicator or surrogate parameter range established for monitoring under the applicable requirement or Part 70 permit condition, consistent with any averaging period specified for averaging the results of the monitoring."

- Yes
 No During the time period covered by this compliance certification, does the monitoring data indicate any exceedances, if applicable?

An **exceedance** is defined as "a condition that is detected by monitoring that provides data in terms of an emission limitation or standard and that indicates that emissions (or opacity) are greater than the applicable emission limitation or standard (or less than the applicable standard in the case of percent reduction requirement) consistent with any averaging period specified for averaging the results of the monitoring."

- Yes
 No During the time period covered by this compliance certification, do you have any other information or data that indicates that you are not in compliance?

Time Period Covered by Compliance Certification:
January 1, 2008 through December 31, 2008

Ventura County Air Pollution Control District
COMPLIANCE CERTIFICATION PERMIT FORM
Applicable Requirement or Part 70 Permit Condition Attachment
Form TVPF46/12-24-98 (Modified to fit on one page)

Applicable Requirement or Part 70 Permit Condition

Citation, Including Attachment Number and/or Permit Condition Number: Attachment 74.6, Condition No. 10	Description: Conditions related to cold cleaning operation
---	---

Attach to this form any information specifically required to be submitted with the compliance certification in the applicable requirement or Part 70 permit condition.

1. Please indicate the method(s) that you use for determining compliance. Indicate the frequency of monitoring and indicate the source test reference method, if applicable.

Compliance with Conditions 10 of Attachment 74.6 is verified by means of routine surveillance of cold cleaner activities that are carried out by Environmental Division personnel during routine visits to subject facilities. Additionally, a formal inspection of all degreasing equipment was conducted in November 2008.

2. Yes No Are you currently in compliance as indicated by the most recent monitoring measurement or observation as described above?

3. Please indicate if this compliance determination method is continuous or intermittent:

Intermittent - As indicated by non-continuous periodic monitoring

4. Yes No During the time period covered by this compliance certification, does the monitoring data indicate any excursions, if applicable?

An **excursion** is defined as "a departure from an indicator or surrogate parameter range established for monitoring under the applicable requirement or Part 70 permit condition, consistent with any averaging period specified for averaging the results of the monitoring."

5. Yes No During the time period covered by this compliance certification, does the monitoring data indicate any exceedances, if applicable?

An **exceedance** is defined as "a condition that is detected by monitoring that provides data in terms of an emission limitation or standard and that indicates that emissions (or opacity) are greater than the applicable emission limitation or standard (or less than the applicable standard in the case of percent reduction requirement) consistent with any averaging period specified for averaging the results of the monitoring."

6. Yes No During the time period covered by this compliance certification, do you have any other information or data that indicates that you are not in compliance?

Time Period Covered by Compliance Certification:

January 1, 2008 through December 31, 2008

Ventura County Air Pollution Control District
COMPLIANCE CERTIFICATION PERMIT FORM
 Applicable Requirement or Part 70 Permit Condition Attachment
 Form TVPF46/12-24-98 (Modified to fit on one page)

Applicable Requirement or Part 70 Permit Condition

Citation, Including Attachment Number and/or Permit Condition Number: Attachment 74.6, Condition Nos. 14 and 15	Description: Recordkeeping requirements associated with surface cleaning and degreasing and routine surveillance to comply with Rule 74.6
---	---

Attach to this form any information specifically required to be submitted with the compliance certification in the applicable requirement or Part 70 permit condition.

1. Please indicate the method(s) that you use for determining compliance. Indicate the frequency of monitoring and indicate the source test reference method, if applicable.

Compliance with the requirement to maintain a current material list showing the name, ROC and vapor pressure, and intended uses of each solvent material is accomplished by means of a database that records each issuance of a solvent material to any operation aboard NBVC. For each issuance of material, this database contains a reference to the applicable MSDS sheet. The database also contains references to the recipient of the material, and ultimately to the screening sheet, which is the document that approved the material, and describes all intended uses. In addition, NBVC Environmental Division staff performs routine inspection of the applicable solvent cleaning activities to ensure compliance with Rule 74.6.

2. Yes No Are you currently in compliance as indicated by the most recent monitoring measurement or observation as described above?

3. Please indicate if this compliance determination method is continuous or intermittent:

Intermittent - As indicated by non-continuous periodic monitoring

4. Yes No During the time period covered by this compliance certification, does the monitoring data indicate any excursions, if applicable?

An **excursion** is defined as "a departure from an indicator or surrogate parameter range established for monitoring under the applicable requirement or Part 70 permit condition, consistent with any averaging period specified for averaging the results of the monitoring."

5. Yes No During the time period covered by this compliance certification, does the monitoring data indicate any exceedances, if applicable?

An **exceedance** is defined as "a condition that is detected by monitoring that provides data in terms of an emission limitation or standard and that indicates that emissions (or opacity) are greater than the applicable emission limitation or standard (or less than the applicable standard in the case of percent reduction requirement) consistent with any averaging period specified for averaging the results of the monitoring."

6. Yes No During the time period covered by this compliance certification, do you have any other information or data that indicates that you are not in compliance?

Time Period Covered by Compliance Certification:

January 1, 2008 through December 31, 2008

Ventura County Air Pollution Control District
COMPLIANCE CERTIFICATION PERMIT FORM
 Applicable Requirement or Part 70 Permit Condition Attachment

Applicable Requirement or Part 70 Permit Condition

Citation, Including Attachment Number and/or Permit Condition Number: Attachment 74.9 N6 Condition Nos. 1 and 2	Description: Requirement associated with engines declared exempt from Rule 74.9 based on operation less than 200 hours per year and a limited combined fuel usage of 2,000 gallons per year as described in Table No. 3 of Ventura County Air Pollution Control District Title V Permit 0997
---	---

Attach to this form any information specifically required to be submitted with the compliance certification in the applicable requirement or Part 70 permit condition.

1. Please indicate the method(s) that you use for determining compliance. Indicate the frequency of monitoring and indicate the source test reference method, if applicable.

Each of the eight airfield arresting gear engines subject to this requirement is equipped with an operating, non-resettable, elapsed operating hour meter. Hour meters are read on a monthly basis and the total engine operating hours will be submitted to the Ventura County Air Pollution Control District by February 15. No engine exceeded 200 hours of annual operation at any time during the compliance certification period. In addition, fuel usage records are kept on all subject engines as required.

2. Yes No Are you currently in compliance as indicated by the most recent monitoring measurement or observation as described above?

3. Please indicate if this compliance determination method is continuous or intermittent:

Intermittent - As indicated by non-continuous periodic monitoring

4. Yes No During the time period covered by this compliance certification, does the monitoring data indicate any excursions, if applicable?

An **excursion** is defined as "a departure from an indicator or surrogate parameter range established for monitoring under the applicable requirement or Part 70 permit condition, consistent with any averaging period specified for averaging the results of the monitoring."

5. Yes No During the time period covered by this compliance certification, does the monitoring data indicate any exceedances, if applicable?

An **exceedance** is defined as "a condition that is detected by monitoring that provides data in terms of an emission limitation or standard and that indicates that emissions (or opacity) are greater than the applicable emission limitation or standard (or less than the applicable standard in the case of percent reduction requirement) consistent with any averaging period specified for averaging the results of the monitoring."

6. Yes No During the time period covered by this compliance certification, do you have any other information or data that indicates that you are not in compliance?

Time Period Covered by Compliance Certification:

January 1, 2008 through December 31, 2008

Ventura County Air Pollution Control District
COMPLIANCE CERTIFICATION PERMIT FORM
 Applicable Requirement or Part 70 Permit Condition Attachment
 Form TVPF46/12-24-98 (Modified to fit on one page)

Applicable Requirement or Part 70 Permit Condition

Citation, Including Attachment Number and/or Permit Condition Number: Attachment 74.9N6 Condition Nos. 3 and 4	Description: Requirement that engine operating hours be reported annually. The report must also include engine manufacturer, engine model number, operator identification number, and location. In addition, the specified report must accompany the Annual Compliance Certification.
--	--

Attach to this form any information specifically required to be submitted with the compliance certification in the applicable requirement or Part 70 permit condition.

- Please indicate the method(s) that you use for determining compliance. Indicate the frequency of monitoring and indicate the source test reference method, if applicable.

A formatted report detailing annual operating hours for each engine has been included in Appendix-C of this Compliance Certification as required.

- Yes** Are you currently in compliance as indicated by the most recent monitoring measurement or observation as described above?
 No

- Please indicate if this compliance determination method is continuous or intermittent:

Intermittent - As indicated by non-continuous periodic monitoring

- Yes** During the time period covered by this compliance certification, does the monitoring data indicate any excursions, if applicable?
 No

An **excursion** is defined as "a departure from an indicator or surrogate parameter range established for monitoring under the applicable requirement or Part 70 permit condition, consistent with any averaging period specified for averaging the results of the monitoring."

- Yes** During the time period covered by this compliance certification, does the monitoring data indicate any exceedances, if applicable?
 No

An **exceedance** is defined as "a condition that is detected by monitoring that provides data in terms of an emission limitation or standard and that indicates that emissions (or opacity) are greater than the applicable emission limitation or standard (or less than the applicable standard in the case of percent reduction requirement) consistent with any averaging period specified for averaging the results of the monitoring."

- Yes** During the time period covered by this compliance certification, do you have any other information or data that indicates that you are not in compliance?
 No

Time Period Covered by Compliance Certification:

January 1, 2008 through December 31, 2008

Ventura County Air Pollution Control District
COMPLIANCE CERTIFICATION PERMIT FORM
 Applicable Requirement or Part 70 Permit Condition Attachment
 Form TVPF46/12-24-98 (Modified to fit on one page)

Applicable Requirement or Part 70 Permit Condition

Citation, Including Attachment Number and/or Permit Condition Number: Attachment 74.9N7, Condition No. 1	Description: Requirement that emergency standby stationary internal combustion engines shall be operated only during an emergency, or for maintenance operation not to exceed 50 hours per year
---	---

Attach to this form any information specifically required to be submitted with the compliance certification in the applicable requirement or Part 70 permit condition.

1. Please indicate the method(s) that you use for determining compliance. Indicate the frequency of monitoring and indicate the source test reference method, if applicable.

Base-wide Instructions prohibit the use of emergency generators for "non-emergency" purposes. In December 2008, an investigation into the hours of operation of all emergency standby stationary internal combustion engines greater than 50 BHP was completed. Logs maintained at each engine were reviewed. Hour meter readings are recorded before and after each maintenance operation, typically 0.5 hours, once per month. Any additional operation events are readily apparent upon review of the logs. All such events are further investigated to verify that they were the result of an emergency. Results of investigation are available on request.

2. Yes No Are you currently in compliance as indicated by the most recent monitoring measurement or observation as described above?

3. Please indicate if this compliance determination method is continuous or intermittent:

Intermittent - As indicated by non-continuous periodic monitoring

4. Yes No During the time period covered by this compliance certification, does the monitoring data indicate any excursions, if applicable?

An **excursion** is defined as "a departure from an indicator or surrogate parameter range established for monitoring under the applicable requirement or Part 70 permit condition, consistent with any averaging period specified for averaging the results of the monitoring."

5. Yes No During the time period covered by this compliance certification, does the monitoring data indicate any exceedances, if applicable?

An **exceedance** is defined as "a condition that is detected by monitoring that provides data in terms of an emission limitation or standard and that indicates that emissions (or opacity) are greater than the applicable emission limitation or standard (or less than the applicable standard in the case of percent reduction requirement) consistent with any averaging period specified for averaging the results of the monitoring."

6. Yes No During the time period covered by this compliance certification, do you have any other information or data that indicates that you are not in compliance?

Time Period Covered by Compliance Certification:
January 1, 2008 through December 31, 2008

Ventura County Air Pollution Control District
COMPLIANCE CERTIFICATION PERMIT FORM
Applicable Requirement or Part 70 Permit Condition Attachment
Form TVPF46/12-24-98 (Modified to fit on one page)

Applicable Requirement or Part 70 Permit Condition

Citation, Including Attachment Number and/or Permit Condition Number: 74.9N7, Condition No. 2	Description: Requirement that each emergency standby engine shall be equipped with an operating, non-resettable, elapsed-time hour meter.
---	--

Attach to this form any information specifically required to be submitted with the compliance certification in the applicable requirement or Part 70 permit condition.

1. Please indicate the method(s) that you use for determining compliance. Indicate the frequency of monitoring and indicate the source test reference method, if applicable.

All emergency engines are equipped with the required hour meters.

2. Yes No Are you currently in compliance as indicated by the most recent monitoring measurement or observation as described above?

3. Please indicate if this compliance determination method is continuous or intermittent:

Intermittent - As indicated by non-continuous periodic monitoring

4. Yes No During the time period covered by this compliance certification, does the monitoring data indicate any excursions, if applicable?

An **excursion** is defined as "a departure from an indicator or surrogate parameter range established for monitoring under the applicable requirement or Part 70 permit condition, consistent with any averaging period specified for averaging the results of the monitoring."

5. Yes No During the time period covered by this compliance certification, does the monitoring data indicate any exceedances, if applicable?

An **exceedance** is defined as "a condition that is detected by monitoring that provides data in terms of an emission limitation or standard and that indicates that emissions (or opacity) are greater than the applicable emission limitation or standard (or less than the applicable standard in the case of percent reduction requirement) consistent with any averaging period specified for averaging the results of the monitoring."

6. Yes No During the time period covered by this compliance certification, do you have any other information or data that indicates that you are not in compliance?

Time Period Covered by Compliance Certification:

January 1, 2008 through December 31, 2008

Ventura County Air Pollution Control District
COMPLIANCE CERTIFICATION PERMIT FORM
Applicable Requirement or Part 70 Permit Condition Attachment

The report must also include engine manufacturer, engine model number, operator identification number, and location. In addition, the specified report must accompany the Annual Compliance Certification.
--	--

Attach to this form any information specifically required to be submitted with the compliance certification in the applicable requirement or Part 70 permit condition.

1. Please indicate the method(s) that you use for determining compliance. Indicate the frequency of monitoring and indicate the source test reference method, if applicable.

A formatted report detailing annual maintenance operating hours for each engine has been included in Appendix-C of this Compliance Certification as required.

2. Yes Are you currently in compliance as indicated by the most recent monitoring measurement or observation as described above?
 No

3. Please indicate if this compliance determination method is continuous or intermittent:

Intermittent - As indicated by non-continuous periodic monitoring

4. Yes During the time period covered by this compliance certification, does the monitoring data indicate any excursions, if applicable?
 No

An **excursion** is defined as "a departure from an indicator or surrogate parameter range established for monitoring under the applicable requirement or Part 70 permit condition, consistent with any averaging period specified for averaging the results of the monitoring."

5. Yes During the time period covered by this compliance certification, does the monitoring data indicate any exceedances, if applicable?
 No

An **exceedance** is defined as "a condition that is detected by monitoring that provides data in terms of an emission limitation or standard and that indicates that emissions (or opacity) are greater than the applicable emission limitation or standard (or less than the applicable standard in the case of percent reduction requirement) consistent with any averaging period specified for averaging the results of the monitoring."

6. Yes During the time period covered by this compliance certification, do you have any other information or data that indicates that you are not in compliance?
 No

Time Period Covered by Compliance Certification:

January 1, 2008 through December 31, 2008

Ventura County Air Pollution Control District
COMPLIANCE CERTIFICATION PERMIT FORM
Applicable Requirement or Part 70 Permit Condition Attachment
Form TVPF46/12-24-98 (Modified to fit on one page)

Applicable Requirement or Part 70 Permit Condition

Citation, Including Attachment Number and/or Permit Condition Number: Attachment 74.12N1	Description: ROC limits for coatings and solvents and vapor pressure limits for solvents, work practice standards, and recordkeeping requirements associated with the coating of metal parts and products
---	--

Attach to this form any information specifically required to be submitted with the compliance certification in the applicable requirement or Part 70 permit condition.

1. Please indicate the method(s) that you use for determining compliance. Indicate the frequency of monitoring and indicate the source test reference method, if applicable.

Only the AIMD Ground Support Equipment (GSE) coating operation is authorized to coat metal parts and products. This operation also coats mobile equipment that is subject to Rule 74.18. All coatings, solvent materials, and methods used by this operation are compliant with both 74.12 and 74.18. Daily records of the volume of coatings and solvents used are kept. Routine inspection of coating operations is performed to ensure compliance with all standards.

2. Yes No Are you currently in compliance as indicated by the most recent monitoring measurement or observation as described above?

3. Please indicate if this compliance determination method is continuous or intermittent:

Intermittent - As indicated by non-continuous periodic monitoring

4. Yes No During the time period covered by this compliance certification, does the monitoring data indicate any excursions, if applicable?

An **excursion** is defined as "a departure from an indicator or surrogate parameter range established for monitoring under the applicable requirement or Part 70 permit condition, consistent with any averaging period specified for averaging the results of the monitoring."

5. Yes No During the time period covered by this compliance certification, does the monitoring data indicate any exceedances, if applicable?

An **exceedance** is defined as "a condition that is detected by monitoring that provides data in terms of an emission limitation or standard and that indicates that emissions (or opacity) are greater than the applicable emission limitation or standard (or less than the applicable standard in the case of percent reduction requirement) consistent with any averaging period specified for averaging the results of the monitoring."

Applicable Requirement or Part 70 Permit Condition

Citation, Including Attachment Number and/or Permit Condition Number: Attachment 74.13N1	Description: ROC limits for coatings, solvents, sealants and adhesives and vapor pressure limits for solvents, work practice standards, and recordkeeping requirements associated with the coating of aerospace assembly and components
---	--

Attach to this form any information specifically required to be submitted with the compliance certification in the applicable requirement or Part 70 permit condition.

1. Please indicate the method(s) that you use for determining compliance. Indicate the frequency of monitoring and indicate the source test reference method, if applicable.

All materials used in the maintenance of aircraft, including coatings, solvents, sealants, and adhesives, must be approved by NBVC Air Quality Program personnel to ensure compliance with ROC and vapor pressure limits. Volume of coatings applied is compiled from daily entries in logs that are submitted monthly. Volume of adhesives, sealants and associated materials, and also of corrosion preventive compounds is tracked by a database that records all materials issued to the end user. This database is compiled on a monthly basis for reporting purposes. Routine inspections of the coating operations are performed to ensure compliance with all standards.

2. Yes No Are you currently in compliance as indicated by the most recent monitoring measurement or observation as described above?

3. Please indicate if this compliance determination method is continuous or intermittent:

Intermittent - As indicated by non-continuous periodic monitoring

4. Yes No During the time period covered by this compliance certification, does the monitoring data indicate any excursions, if applicable?

An **excursion** is defined as "a departure from an indicator or surrogate parameter range established for monitoring under the applicable requirement or Part 70 permit condition, consistent with any averaging period specified for averaging the results of the monitoring."

5. Yes No During the time period covered by this compliance certification, does the monitoring data indicate any exceedances, if applicable?

An **exceedance** is defined as "a condition that is detected by monitoring that provides data in terms of an emission limitation or standard and that indicates that emissions (or opacity) are greater than the applicable emission limitation or standard (or less than the applicable standard in the case of percent reduction requirement) consistent with any averaging period specified for averaging the results of the monitoring."

 Form TVPF46/12-24-98 (Modified to fit on one page)

Applicable Requirement or Part 70 Permit Condition

Citation, Including Attachment Number and/or Permit Condition Number: Attachment 74.18N1, as applicable to the AIMD GSE Coating Operation at Building 319	Description: ROC limits for coatings and solvents and vapor pressure limits for solvents, work practice standards and application method requirements, and recordkeeping requirements associated with the coating of motor vehicles and mobile equipment
---	---

Attach to this form any information specifically required to be submitted with the compliance certification in the applicable requirement or Part 70 permit condition.

1. Please indicate the method(s) that you use for determining compliance. Indicate the frequency of monitoring and indicate the source test reference method, if applicable.

The AIMD Ground Support Equipment (GSE) coats both mobile equipment subject to Rule 74.18 and metal parts subject to rule 74.12. All coatings, solvent materials, and methods used by this operation are compliant with the more stringent ROC limit(s) and requirements of 74.12 or 74.18. Daily records of the volume of coatings and solvents used are kept. Routine inspection of the coating activities is performed to ensure compliance with all standards.

2. Yes No Are you currently in compliance as indicated by the most recent monitoring measurement or observation as described above?

3. Please indicate if this compliance determination method is continuous or intermittent:

Intermittent - As indicated by non-continuous periodic monitoring

4. Yes No During the time period covered by this compliance certification, does the monitoring data indicate any excursions, if applicable?

An **excursion** is defined as "a departure from an indicator or surrogate parameter range established for monitoring under the applicable requirement or Part 70 permit condition, consistent with any averaging period specified for averaging the results of the monitoring."

5. Yes No During the time period covered by this compliance certification, does the monitoring data indicate any exceedances, if applicable?

An **exceedance** is defined as "a condition that is detected by monitoring that provides data in terms of an emission limitation or standard and that indicates that emissions (or opacity) are greater than the applicable emission limitation or standard (or less than the applicable standard in the case of percent reduction requirement) consistent with any averaging period specified for averaging the results of the monitoring."

6. Yes No During the time period covered by this compliance certification, do you have any other information or data that indicates that you are not in compliance?

Applicable Requirement or Part 70 Permit Condition

Citation, Including Attachment Number and/or Permit Condition Number: Attachment 74.18N1, as applicable to the MWR Auto Hobby Shop coating operation at Building 154 (formerly at Building	Description: ROC limits for coatings and solvents and vapor pressure limits for solvents, work practice standards and application equipment requirements, and recordkeeping requirements associated with the coating of motor vehicles and mobile equipment
---	--

Attach to this form any information specifically required to be submitted with the compliance certification in the applicable requirement or Part 70 permit condition.

1. Please indicate the method(s) that you use for determining compliance. Indicate the frequency of monitoring and indicate the source test reference method, if applicable.

The Auto Hobby Shop paint booth is used by private individuals to coat their personal vehicles. All coatings and solvent materials used must be approved by Air Quality Program personnel prior to receiving authorization to be used in the paint booth. Dated records showing actual amounts of materials used are submitted to the Hobby Shop. These records are submitted to the Air Quality Program and compiled on an annual basis for reporting purposes. There is no need to submit them on a monthly basis because the actual usage is well below the permitted limit, and the Air Quality Program must pre-approve the coatings for each job. Compiled records are capable of showing annual usage over any 12-month period.

2. Yes No Are you currently in compliance as indicated by the most recent monitoring measurement or observation as described above?

3. Please indicate if this compliance determination method is continuous or intermittent:

Intermittent - As indicated by non-continuous periodic monitoring

4. Yes No During the time period covered by this compliance certification, does the monitoring data indicate any excursions, if applicable?

An **excursion** is defined as "a departure from an indicator or surrogate parameter range established for monitoring under the applicable requirement or Part 70 permit condition, consistent with any averaging period specified for averaging the results of the monitoring."

5. Yes No During the time period covered by this compliance certification, does the monitoring data indicate any exceedances, if applicable?

An **exceedance** is defined as "a condition that is detected by monitoring that provides data in terms of an emission limitation or standard and that indicates that emissions (or opacity) are greater than the applicable emission limitation or standard (or less than the applicable standard in the case of percent reduction requirement) consistent with any averaging period specified for averaging the results of the monitoring."

6. Yes No During the time period covered by this compliance certification, do you have any other information or data that indicates that you are not in compliance?

---	--

Attach to this form any information specifically required to be submitted with the compliance certification in the applicable requirement or Part 70 permit condition.

1. Please indicate the method(s) that you use for determining compliance. Indicate the frequency of monitoring and indicate the source test reference method, if applicable.

The Vapor Extraction System at Building 161 was not operational during the compliance certification period.

2. Yes No Are you currently in compliance as indicated by the most recent monitoring measurement or observation as described above?

3. Please indicate if this compliance determination method is continuous or intermittent:

Continuous - As recorded on a chart by a continuous monitoring device

4. Yes No During the time period covered by this compliance certification, does the monitoring data indicate any excursions, if applicable?

An **excursion** is defined as "a departure from an indicator or surrogate parameter range established for monitoring under the applicable requirement or Part 70 permit condition, consistent with any averaging period specified for averaging the results of the monitoring."

5. Yes No During the time period covered by this compliance certification, does the monitoring data indicate any exceedances, if applicable?

An **exceedance** is defined as "a condition that is detected by monitoring that provides data in terms of an emission limitation or standard and that indicates that emissions (or opacity) are greater than the applicable emission limitation or standard (or less than the applicable standard in the case of percent reduction requirement) consistent with any averaging period specified for averaging the results of the monitoring."

6. Yes No During the time period covered by this compliance certification, do you have any other information or data that indicates that you are not in compliance?

Time Period Covered by Compliance Certification:

January 1, 2008 through December 31, 2008

Ventura County Air Pollution Control District
COMPLIANCE CERTIFICATION PERMIT FORM
 Applicable Requirement or Part 70 Permit Condition Attachment
 Form TVPF46/12-24-98 (Modified to fit on one page)

Applicable Requirement or Part 70 Permit Condition

Citation, Including Attachment Number and/or Permit Condition Number: Attachment 74.29, Condition Nos. 5 and 7 (Condition Nos. 4 and 6 are not applicable)	Description: Requirement that the minimum temperature of the catalytic oxidizer be maintained at 650 F by a modulating control system
--	--

Attach to this form any information specifically required to be submitted with the compliance certification in the applicable requirement or Part 70 permit condition.

- Please indicate the method(s) that you use for determining compliance. Indicate the frequency of monitoring and indicate the source test reference method, if applicable.

The Vapor Extraction System at Building 161 was not operational during the compliance certification period.

- Yes No Are you currently in compliance as indicated by the most recent monitoring measurement or observation as described above?

- Please indicate if this compliance determination method is continuous or intermittent:

Continuous - As recorded on a chart by a continuous monitoring device

- Yes No During the time period covered by this compliance certification, does the monitoring data indicate any excursions, if applicable?

An **excursion** is defined as "a departure from an indicator or surrogate parameter range established for monitoring under the applicable requirement or Part 70 permit condition, consistent with any averaging period specified for averaging the results of the monitoring."

- Yes No During the time period covered by this compliance certification, does the monitoring data indicate any exceedances, if applicable?

An **exceedance** is defined as "a condition that is detected by monitoring that provides data in terms of an emission limitation or standard and that indicates that emissions (or opacity) are greater than the applicable emission limitation or standard (or less than the applicable standard in the case of percent reduction requirement) consistent with any averaging period specified for averaging the results of the monitoring."

- Yes No During the time period covered by this compliance certification, do you have any other information or data that indicates that you are not in compliance?

Time Period Covered by Compliance Certification:
January 1, 2008 through December 31, 2008

Ventura County Air Pollution Control District
COMPLIANCE CERTIFICATION PERMIT FORM
Applicable Requirement or Part 70 Permit Condition Attachment
Form TVPF46/12-24-98 (Modified to fit on one page)

Applicable Requirement or Part 70 Permit Condition

Citation, Including Attachment Number and/or Permit Condition Number: Attachment NESHAP GG	Description: Requirement to keep records to demonstrate the stationary source is not a major source of HAPs
---	--

Attach to this form any information specifically required to be submitted with the compliance certification in the applicable requirement or Part 70 permit condition.

1. Please indicate the method(s) that you use for determining compliance. Indicate the frequency of monitoring and indicate the source test reference method, if applicable.

Hazardous Air Pollutant (HAP) emission calculations were performed to demonstrate that NBVC Point Mugu site is not a major source of HAPs. No changes occurred during 2008 that would have influenced NBVC's HAP status. Documentation of the original HAP calculations are maintained by the NBVC Air Program and are available upon request.

2. Yes No Are you currently in compliance as indicated by the most recent monitoring measurement or observation as described above?

3. Please indicate if this compliance determination method is continuous or intermittent:

Continuous - As recorded on a chart by a continuous monitoring device

4. Yes No During the time period covered by this compliance certification, does the monitoring data indicate any excursions, if applicable?

An **excursion** is defined as "a departure from an indicator or surrogate parameter range established for monitoring under the applicable requirement or Part 70 permit condition, consistent with any averaging period specified for averaging the results of the monitoring."

5. Yes No During the time period covered by this compliance certification, does the monitoring data indicate any exceedances, if applicable?

An **exceedance** is defined as "a condition that is detected by monitoring that provides data in terms of an emission limitation or standard and that indicates that emissions (or opacity) are greater than the applicable emission limitation or standard (or less than the applicable standard in the case of percent reduction requirement) consistent with any averaging period specified for averaging the results of the monitoring."

Time Period Covered by Compliance Certification:

January 1, 2008 through December 31, 2008

Ventura County Air Pollution Control District
COMPLIANCE CERTIFICATION PERMIT FORM
 Applicable Requirement or Part 70 Permit Condition Attachment
 Form TVPF46/12-24-98 (Modified to fit on one page)

Applicable Requirement or Part 70 Permit Condition

Citation, Including Attachment Number and/or Permit Condition Number: Attachment ATCM Portable Engine N1 Condition No. 1	Description: Non-federally enforceable requirement to use only CARB Diesel Fuel in portable diesel engines
---	---

Attach to this form any information specifically required to be submitted with the compliance certification in the applicable requirement or Part 70 permit condition.

1. Please indicate the method(s) that you use for determining compliance. Indicate the frequency of monitoring and indicate the source test reference method, if applicable.

All diesel fuel combusted in portable diesel engines at NBVC during the compliance period was supplied by the NBVC Supply Department, Fuel Branch. All diesel fuel received by the Supply Department, Fuel Branch, is CARB certified. Data demonstrating the use of CARB-certified fuel is provided in Appendix A. .

2. Yes Are you currently in compliance as indicated by the most recent monitoring measurement or observation as described above?
 No

3. Please indicate if this compliance determination method is continuous or intermittent:

Intermittent - As indicated by non-continuous periodic monitoring

4. Yes No During the time period covered by this compliance certification, does the monitoring data indicate any excursions, if applicable?

An **excursion** is defined as "a departure from an indicator or surrogate parameter range established for monitoring under the applicable requirement or Part 70 permit condition, consistent with any averaging period specified for averaging the results of the monitoring."

5. Yes No During the time period covered by this compliance certification, does the monitoring data indicate any exceedances, if applicable?

An **exceedance** is defined as "a condition that is detected by monitoring that provides data in terms of an emission limitation or standard and that indicates that emissions (or opacity) are greater than the applicable emission limitation or standard (or less than the applicable standard in the case of percent reduction requirement) consistent with any averaging period specified for averaging the results of the monitoring."

Applicable Requirement or Part 70 Permit Condition

Citation, Including Attachment Number and/or Permit Condition Number: Attachment PO0997PC1, Condition No. 2	Description: Non-federally enforceable requirement for solvent cleaning activities, requirement to keep records of solvents purchased and disposed
---	--

Attach to this form any information specifically required to be submitted with the compliance certification in the applicable requirement or Part 70 permit condition.

- Please indicate the method(s) that you use for determining compliance. Indicate the frequency of monitoring and indicate the source test reference method, if applicable.

Records of solvents purchased are extracted from a database called RHICS, which keeps a record each time a hazardous material is issued to the end user. Some data as to solvents disposed is gathered from a database called HWDS. There are not always records of solvents disposed, and in such cases, the solvents are conservatively assumed to have evaporated, and are reported as such. In some cases, records are used to demonstrate that a solvent was used for a permit-exempt purpose.

- Yes Are you currently in compliance as indicated by the most recent monitoring measurement or observation as described above?
 No

- Please indicate if this compliance determination method is continuous or intermittent:

Intermittent - As indicated by non-continuous periodic monitoring

- Yes
 No During the time period covered by this compliance certification, does the monitoring data indicate any excursions, if applicable?

An **excursion** is defined as "a departure from an indicator or surrogate parameter range established for monitoring under the applicable requirement or Part 70 permit condition, consistent with any averaging period specified for averaging the results of the monitoring."

- Yes
 No During the time period covered by this compliance certification, does the monitoring data indicate any exceedances, if applicable?

An **exceedance** is defined as "a condition that is detected by monitoring that provides data in terms of an emission limitation or standard and that indicates that emissions (or opacity) are greater than the applicable emission limitation or standard (or less than the applicable standard in the case of percent reduction requirement) consistent with any averaging period specified for averaging the results of the monitoring."

- Yes
 No During the time period covered by this compliance certification, do you have any other information or data that indicates that you are not in compliance?

Time Period Covered by Compliance Certification:

January 1, 2008 through December 31, 2008

Ventura County Air Pollution Control District
COMPLIANCE CERTIFICATION PERMIT FORM
 Applicable Requirement or Part 70 Permit Condition Attachment
 Form TVPF46/12-24-98 (Modified to fit on one page)

Applicable Requirement or Part 70 Permit Condition

Citation, Including Attachment Number and/or Permit Condition Number: Attachment PO0997PC1, Condition No. 3	Description: Requirement that all State-registered portable equipment comply with State registration requirements, and that a copy of State registration be available
--	---

Attach to this form any information specifically required to be submitted with the compliance certification in the applicable requirement or Part 70 permit condition.

- Please indicate the method(s) that you use for determining compliance. Indicate the frequency of monitoring and indicate the source test reference method, if applicable.

All equipment registered by Naval Base Ventura County under the CARB's Portable Equipment Registration Program (PERP) is military tactical support equipment, for which there are very few requirements. The only requirement is to provide data as to the number of each type of units kept at the installation, along with a description, and to pay the appropriate fees. There is no need to record hours of operation, or even serial numbers of individual units, and there is no need to post a copy of the certification on each equipment unit. Required data are kept on file at the NBVC Air Quality Program office.

- Yes Are you currently in compliance as indicated by the most recent monitoring measurement or observation as described above?
 No

- Please indicate if this compliance determination method is continuous or intermittent:

Intermittent - As indicated by non-continuous periodic monitoring

- Yes
 No During the time period covered by this compliance certification, does the monitoring data indicate any excursions, if applicable?

An **excursion** is defined as "a departure from an indicator or surrogate parameter range established for monitoring under the applicable requirement or Part 70 permit condition, consistent with any averaging period specified for averaging the results of the monitoring."

- Yes
 No During the time period covered by this compliance certification, does the monitoring data indicate any exceedances, if applicable?

An **exceedance** is defined as "a condition that is detected by monitoring that provides data in terms of an emission limitation or standard and that indicates that emissions (or opacity) are greater than the applicable emission limitation or standard (or less than the applicable standard in the case of percent reduction requirement) consistent with any averaging period specified for averaging the results of the monitoring."

- Yes
 No During the time period covered by this compliance certification, do you have any other information or data that indicates that you are not in compliance?

Time Period Covered by Compliance Certification:
January 1, 2008 through December 31, 2008

Ventura County Air Pollution Control District
COMPLIANCE CERTIFICATION PERMIT FORM
Applicable Requirement or Part 70 Permit Condition Attachment
Form TVPF46/12-24-98 (Modified to fit on one page)

Applicable Requirement or Part 70 Permit Condition

Citation, Including Attachment Number and/or Permit Condition Number: Attachment PO0997PC2, Condition No. 1	Description: Non-Federally enforceable requirement that all space heaters and boilers listed in Table 2, Section 2 of the Title V permit are operated on Public Utilities Commission-regulated natural gas only
---	--

Attach to this form any information specifically required to be submitted with the compliance certification in the applicable requirement or Part 70 permit condition.

1. Please indicate the method(s) that you use for determining compliance. Indicate the frequency of monitoring and indicate the source test reference method, if applicable.

All space heaters and boilers listed in Table 2, Section 2 of the Title V permit are operated on PUC natural gas.

2. Yes No Are you currently in compliance as indicated by the most recent monitoring measurement or observation as described above?

3. Please indicate if this compliance determination method is continuous or intermittent:

Intermittent - As indicated by non-continuous periodic monitoring

4. Yes No During the time period covered by this compliance certification, does the monitoring data indicate any excursions, if applicable?

An **excursion** is defined as "a departure from an indicator or surrogate parameter range established for monitoring under the applicable requirement or Part 70 permit condition, consistent with any averaging period specified for averaging the results of the monitoring."

5. Yes No During the time period covered by this compliance certification, does the monitoring data indicate any exceedances, if applicable?

An **exceedance** is defined as "a condition that is detected by monitoring that provides data in terms of an emission limitation or standard and that indicates that emissions (or opacity) are greater than the applicable emission limitation or standard (or less than the applicable standard in the case of percent reduction requirement) consistent with any averaging period specified for averaging the results of the monitoring."

6. Yes No During the time period covered by this compliance certification, do you have any other information or data that indicates that you are not in compliance?

Time Period Covered by Compliance Certification:

January 1, 2008 through December 31, 2008

Ventura County Air Pollution Control District
COMPLIANCE CERTIFICATION PERMIT FORM
 Applicable Requirement or Part 70 Permit Condition Attachment
 Form TVPF46/12-24-98 (Modified to fit on one page)

Applicable Requirement or Part 70 Permit Condition

Citation, Including Attachment Number and/or Permit Condition Number: Attachment PO0997PC2, Condition No. 2	Description: A limit on the total natural gas usage for two Ajax boilers (at Buildings 20, and 36) of 37.7 MMCF per year
---	---

Attach to this form any information specifically required to be submitted with the compliance certification in the applicable requirement or Part 70 permit condition.

1. Please indicate the method(s) that you use for determining compliance. Indicate the frequency of monitoring and indicate the source test reference method, if applicable.

Boiler gas meter readings are taken each month. These readings are compiled into reports that express gas usage on a monthly basis, and usage over the preceding 12 months. Reports were generated for each of the twelve 12-month periods that ended during the permit term.

2. Yes No Are you currently in compliance as indicated by the most recent monitoring measurement or observation as described above?
3. Please indicate if this compliance determination method is continuous or intermittent:

Intermittent - As indicated by non-continuous periodic monitoring

4. Yes No During the time period covered by this compliance certification, does the monitoring data indicate any excursions, if applicable?

An **excursion** is defined as "a departure from an indicator or surrogate parameter range established for monitoring under the applicable requirement or Part 70 permit condition, consistent with any averaging period specified for averaging the results of the monitoring."

5. Yes No During the time period covered by this compliance certification, does the monitoring data indicate any exceedances, if applicable?

An **exceedance** is defined as "a condition that is detected by monitoring that provides data in terms of an emission limitation or standard and that indicates that emissions (or opacity) are greater than the applicable emission limitation or standard (or less than the applicable standard in the case of percent reduction requirement) consistent with any averaging period specified for averaging the results of the monitoring."

6. Yes No During the time period covered by this compliance certification, do you have any other information or data that indicates that you are not in compliance?

Time Period Covered by Compliance Certification:
January 1, 2008 through December 31, 2008

Ventura County Air Pollution Control District
COMPLIANCE CERTIFICATION PERMIT FORM
 Applicable Requirement or Part 70 Permit Condition Attachment
 Form TVPF46/12-24-98 (Modified to fit on one page)

Applicable Requirement or Part 70 Permit Condition

Citation, Including Attachment Number and/or Permit Condition Number: Attachment PO0997PC2, Condition No. 3	Description: Requirement that flue gas recirculation valves and nozzles on three Hurst boilers are operated at the same setting as when operated during the most recent source test
---	--

Attach to this form any information specifically required to be submitted with the compliance certification in the applicable requirement or Part 70 permit condition.

1. Please indicate the method(s) that you use for determining compliance. Indicate the frequency of monitoring and indicate the source test reference method, if applicable.

Compliance is demonstrated by verifying, on a monthly basis, that the FGR nozzle position has not been changed, and that the FGR valve (which is closed during the gas purge cycle) opens properly once the boiler is firing.

2. Yes No Are you currently in compliance as indicated by the most recent monitoring measurement or observation as described above?

3. Please indicate if this compliance determination method is continuous or intermittent:

Intermittent - As indicated by non-continuous periodic monitoring

4. Yes No During the time period covered by this compliance certification, does the monitoring data indicate any excursions, if applicable?

An **excursion** is defined as "a departure from an indicator or surrogate parameter range established for monitoring under the applicable requirement or Part 70 permit condition, consistent with any averaging period specified for averaging the results of the monitoring."

5. Yes No During the time period covered by this compliance certification, does the monitoring data indicate any exceedances, if applicable?

An **exceedance** is defined as "a condition that is detected by monitoring that provides data in terms of an emission limitation or standard and that indicates that emissions (or opacity) are greater than the applicable emission limitation or standard (or less than the applicable standard in the case of percent reduction requirement) consistent with any averaging period specified for averaging the results of the monitoring."

6. Yes No During the time period covered by this compliance certification, do you have any other information or data that indicates that you are not in compliance? (Please see attached.)

Time Period Covered by Compliance Certification:
January 1, 2008 through December 31, 2008

Ventura County Air Pollution Control District
COMPLIANCE CERTIFICATION PERMIT FORM
Applicable Requirement or Part 70 Permit Condition Attachment
Form TVPF46/12-24-98 (Modified to fit on one page)

Applicable Requirement or Part 70 Permit Condition

Citation, Including Attachment Number and/or Permit Condition Number: Attachment PO0997PC2, Condition No. 4	Description: BACT requirement that NOx emissions from the Hurst boiler at Building 36A not exceed 30 ppmvd as demonstrated by a source test and by maintaining the FGR system.
---	--

Attach to this form any information specifically required to be submitted with the compliance certification in the applicable requirement or Part 70 permit condition.

1. Please indicate the method(s) that you use for determining compliance. Indicate the frequency of monitoring and indicate the source test reference method, if applicable.

Boiler 36A was source tested on January 23, 2008 using CARB Method 100 and EPA Method 19. A satisfactory result was reported to the VCAPCD following the source test.

2. Yes No Are you currently in compliance as indicated by the most recent monitoring measurement or observation as described above?

3. Please indicate if this compliance determination method is continuous or intermittent:

Intermittent - As indicated by non-continuous periodic monitoring

4. Yes No During the time period covered by this compliance certification, does the monitoring data indicate any excursions, if applicable?

An **excursion** is defined as "a departure from an indicator or surrogate parameter range established for monitoring under the applicable requirement or Part 70 permit condition, consistent with any averaging period specified for averaging the results of the monitoring."

5. Yes No During the time period covered by this compliance certification, does the monitoring data indicate any exceedances, if applicable?

An **exceedance** is defined as "a condition that is detected by monitoring that provides data in terms of an emission limitation or standard and that indicates that emissions (or opacity) are greater than the applicable emission limitation or standard (or less than the applicable standard in the case of percent reduction requirement) consistent with any averaging period specified for averaging the results of the monitoring."

6. Yes No During the time period covered by this compliance certification, do you have any other information or data that indicates that you are not in compliance? (Please see attached.)

Time Period Covered by Compliance Certification:

January 1, 2008 through December 31, 2008

Ventura County Air Pollution Control District
COMPLIANCE CERTIFICATION PERMIT FORM
Applicable Requirement or Part 70 Permit Condition Attachment
Form TVPF46/12-24-98 (Modified to fit on one page)

Applicable Requirement or Part 70 Permit Condition

Citation, Including Attachment Number and/or Permit Condition Number: Attachment PO0997PC3, Condition No. 1	Description: Non-federally enforceable requirement that JP-8 fuel consumption in the Portable Engine Test Stands not exceed 14,971 pounds in any one hour
---	--

Attach to this form any information specifically required to be submitted with the compliance certification in the applicable requirement or Part 70 permit condition.

1. Please indicate the method(s) that you use for determining compliance. Indicate the frequency of monitoring and indicate the source test reference method, if applicable.

Maximum hourly fuel consumption by largest engine tested (T56-A-16) is only 2,219 LB/HR.

2. Yes Are you currently in compliance as indicated by the most recent monitoring measurement or observation as described above?
 No

3. Please indicate if this compliance determination method is continuous or intermittent:

Intermittent - As indicated by non-continuous periodic monitoring

4. Yes
 No During the time period covered by this compliance certification, does the monitoring data indicate any excursions, if applicable?

An **excursion** is defined as "a departure from an indicator or surrogate parameter range established for monitoring under the applicable requirement or Part 70 permit condition, consistent with any averaging period specified for averaging the results of the monitoring."

5. Yes
 No During the time period covered by this compliance certification, does the monitoring data indicate any exceedances, if applicable?

An **exceedance** is defined as "a condition that is detected by monitoring that provides data in terms of an emission limitation or standard and that indicates that emissions (or opacity) are greater than the applicable emission limitation or standard (or less than the applicable standard in the case of percent reduction requirement) consistent with any averaging period specified for averaging the results of the monitoring."

6. Yes
 No During the time period covered by this compliance certification, do you have any other information or data that indicates that you are not in compliance?

Time Period Covered by Compliance Certification:

January 1, 2008 through December 31, 2008

Ventura County Air Pollution Control District
COMPLIANCE CERTIFICATION PERMIT FORM
 Applicable Requirement or Part 70 Permit Condition Attachment
 Form TVPF46/12-24-98 (Modified to fit on one page)

Applicable Requirement or Part 70 Permit Condition

Citation, Including Attachment Number and/or Permit Condition Number: Attachment PO0997PC3, Condition No. 2	Description: Non-federally enforceable requirement that JP-8 fuel consumption in the Target Drone Jet Testing Operation not exceed 4,944 pounds in any one hour
--	---

Attach to this form any information specifically required to be submitted with the compliance certification in the applicable requirement or Part 70 permit condition.

- Please indicate the method(s) that you use for determining compliance. Indicate the frequency of monitoring and indicate the source test reference method, if applicable.

Compliance is demonstrated by the fact that the largest target drone jet engine operated at Building 393 is only capable of consuming 2,890 pounds of fuel per hour, and the largest engine operated at Building 557 is only capable of consuming 228 pounds of fuel per hour. As neither testing operation is capable of testing more than one engine, the maximum fuel consumption in any one hour is $(2890 + 228) = 3,118$ pounds per hour.

- Yes Are you currently in compliance as indicated by the most recent monitoring measurement or observation as described above?
 No

- Please indicate if this compliance determination method is continuous or intermittent:

Intermittent - As indicated by non-continuous periodic monitoring

- Yes
 No During the time period covered by this compliance certification, does the monitoring data indicate any excursions, if applicable?

An **excursion** is defined as "a departure from an indicator or surrogate parameter range established for monitoring under the applicable requirement or Part 70 permit condition, consistent with any averaging period specified for averaging the results of the monitoring."

- Yes
 No During the time period covered by this compliance certification, does the monitoring data indicate any exceedances, if applicable?

An **exceedance** is defined as "a condition that is detected by monitoring that provides data in terms of an emission limitation or standard and that indicates that emissions (or opacity) are greater than the applicable emission limitation or standard (or less than the applicable standard in the case of percent reduction requirement) consistent with any averaging period specified for averaging the results of the monitoring."

- Yes
 No During the time period covered by this compliance certification, do you have any other information or data that indicates that you are not in compliance?

Time Period Covered by Compliance Certification:

January 1, 2008 through December 31, 2008

Ventura County Air Pollution Control District
COMPLIANCE CERTIFICATION PERMIT FORM
Applicable Requirement or Part 70 Permit Condition Attachment
Form TVPF46/12-24-98 (Modified to fit on one page)

Applicable Requirement or Part 70 Permit Condition

Citation, Including Attachment Number and/or Permit Condition Number: Attachment PO0997PC3, Condition No. 3	Description: Non-federally enforceable requirement that no more than one jet engine be tested simultaneously at the Portable Engine Test Stands
---	--

Attach to this form any information specifically required to be submitted with the compliance certification in the applicable requirement or Part 70 permit condition.

1. Please indicate the method(s) that you use for determining compliance. Indicate the frequency of monitoring and indicate the source test reference method, if applicable.

There was only one test stand in service during the compliance certification period. The second test stand was removed from service.

2. Yes No Are you currently in compliance as indicated by the most recent monitoring measurement or observation as described above?

3. Please indicate if this compliance determination method is continuous or intermittent:

Intermittent - As indicated by non-continuous periodic monitoring

4. Yes No During the time period covered by this compliance certification, does the monitoring data indicate any excursions, if applicable?

An **excursion** is defined as "a departure from an indicator or surrogate parameter range established for monitoring under the applicable requirement or Part 70 permit condition, consistent with any averaging period specified for averaging the results of the monitoring."

5. Yes No During the time period covered by this compliance certification, does the monitoring data indicate any exceedances, if applicable?

An **exceedance** is defined as "a condition that is detected by monitoring that provides data in terms of an emission limitation or standard and that indicates that emissions (or opacity) are greater than the applicable emission limitation or standard (or less than the applicable standard in the case of percent reduction requirement) consistent with any averaging period specified for averaging the results of the monitoring."

6. Yes No During the time period covered by this compliance certification, do you have any other information or data that indicates that you are not in compliance?

Time Period Covered by Compliance Certification:

January 1, 2008 through December 31, 2008

Ventura County Air Pollution Control District
COMPLIANCE CERTIFICATION PERMIT FORM
Applicable Requirement or Part 70 Permit Condition Attachment
Form TVPF46/12-24-98 (Modified to fit on one page)

Applicable Requirement or Part 70 Permit Condition

Citation, Including Attachment Number and/or Permit Condition Number: Attachment PO0997PC3, Condition No. 4	Description: Non-federally enforceable requirement that no more than one engine may be tested at Building 393, and no more than one engine be tested at Building 557 at any one time
---	---

Attach to this form any information specifically required to be submitted with the compliance certification in the applicable requirement or Part 70 permit condition.

1. Please indicate the method(s) that you use for determining compliance. Indicate the frequency of monitoring and indicate the source test reference method, if applicable.

Neither the test setup at Building 393 nor the test setup at Building 557 is physically capable of accommodating more than one engine.

2. Yes No Are you currently in compliance as indicated by the most recent monitoring measurement or observation as described above?

3. Please indicate if this compliance determination method is continuous or intermittent:

Intermittent - As indicated by non-continuous periodic monitoring

4. Yes No During the time period covered by this compliance certification, does the monitoring data indicate any excursions, if applicable?

An **excursion** is defined as "a departure from an indicator or surrogate parameter range established for monitoring under the applicable requirement or Part 70 permit condition, consistent with any averaging period specified for averaging the results of the monitoring."

5. Yes No During the time period covered by this compliance certification, does the monitoring data indicate any exceedances, if applicable?

An **exceedance** is defined as "a condition that is detected by monitoring that provides data in terms of an emission limitation or standard and that indicates that emissions (or opacity) are greater than the applicable emission limitation or standard (or less than the applicable standard in the case of percent reduction requirement) consistent with any averaging period specified for averaging the results of the monitoring."

6. Yes No During the time period covered by this compliance certification, do you have any other information or data that indicates that you are not in compliance?

Time Period Covered by Compliance Certification:
January 1, 2008 through December 31, 2008

Ventura County Air Pollution Control District
COMPLIANCE CERTIFICATION PERMIT FORM
 Applicable Requirement or Part 70 Permit Condition Attachment
 Form TVPF46/12-24-98 (Modified to fit on one page)

Applicable Requirement or Part 70 Permit Condition

Citation, Including Attachment Number and/or Permit Condition Number: Attachment PO0997PC3, Condition No. 5	Description: Non-federally enforceable requirement to keep documentation that the fuel sulfur content of JP-8 fuel burned in Jet Testing Operations does not exceed 0.3 percent by weight
---	--

Attach to this form any information specifically required to be submitted with the compliance certification in the applicable requirement or Part 70 permit condition.

- Please indicate the method(s) that you use for determining compliance. Indicate the frequency of monitoring and indicate the source test reference method, if applicable.

Analytical reports are received with each shipment of JP-8 fuel at the time the fuel is received at the fuel farm by the NBVC Supply Department, Fuel Branch. Fuel burned in jet engine testing operations is obtained only from the fuel farm. Fuel sulfur content data are reviewed periodically by Air Quality Program personnel, and compiled on an ongoing basis into a summary sheet.

- Yes
 No
 Are you currently in compliance as indicated by the most recent monitoring measurement or observation as described above?

- Please indicate if this compliance determination method is continuous or intermittent:

Intermittent - As indicated by non-continuous periodic monitoring

- Yes
 No
 During the time period covered by this compliance certification, does the monitoring data indicate any excursions, if applicable?

An **excursion** is defined as "a departure from an indicator or surrogate parameter range established for monitoring under the applicable requirement or Part 70 permit condition, consistent with any averaging period specified for averaging the results of the monitoring."

- Yes
 No
 During the time period covered by this compliance certification, does the monitoring data indicate any exceedances, if applicable?

An **exceedance** is defined as "a condition that is detected by monitoring that provides data in terms of an emission limitation or standard and that indicates that emissions (or opacity) are greater than the applicable emission limitation or standard (or less than the applicable standard in the case of percent reduction requirement) consistent with any averaging period specified for averaging the results of the monitoring."

- Yes
 No
 During the time period covered by this compliance certification, do you have any other information or data that indicates that you are not in compliance?

Time Period Covered by Compliance Certification:

January 1, 2008 through December 31, 2008

Ventura County Air Pollution Control District
COMPLIANCE CERTIFICATION PERMIT FORM
Applicable Requirement or Part 70 Permit Condition Attachment
Form TVPF46/12-24-98 (Modified to fit on one page)

Applicable Requirement or Part 70 Permit Condition

Citation, Including Attachment Number and/or Permit Condition Number: Attachment PO0997PC3, Condition No. 6	Description: Requirement for favorable atmospheric condition and wind direction during testing to assure good dispersion and no particulate fallout over inhabited areas
---	---

Attach to this form any information specifically required to be submitted with the compliance certification in the applicable requirement or Part 70 permit condition.

1. Please indicate the method(s) that you use for determining compliance. Indicate the frequency of monitoring and indicate the source test reference method, if applicable.

Routine surveillance by NBVC Environmental staff and other NBVC personnel is sufficient to ensure that operation of the Jet Engine Test Cells do not create a nuisance condition as defined in Rule 51.

2. Yes No Are you currently in compliance as indicated by the most recent monitoring measurement or observation as described above?

3. Please indicate if this compliance determination method is continuous or intermittent:

Intermittent - As indicated by non-continuous periodic monitoring

4. Yes No During the time period covered by this compliance certification, does the monitoring data indicate any excursions, if applicable?

An **excursion** is defined as "a departure from an indicator or surrogate parameter range established for monitoring under the applicable requirement or Part 70 permit condition, consistent with any averaging period specified for averaging the results of the monitoring."

5. Yes No During the time period covered by this compliance certification, does the monitoring data indicate any exceedances, if applicable?

An **exceedance** is defined as "a condition that is detected by monitoring that provides data in terms of an emission limitation or standard and that indicates that emissions (or opacity) are greater than the applicable emission limitation or standard (or less than the applicable standard in the case of percent reduction requirement) consistent with any averaging period specified for averaging the results of the monitoring."

6. Yes No During the time period covered by this compliance certification, do you have any other information or data that indicates that you are not in compliance?

---	---

Attach to this form any information specifically required to be submitted with the compliance certification in the applicable requirement or Part 70 permit condition.

- Please indicate the method(s) that you use for determining compliance. Indicate the frequency of monitoring and indicate the source test reference method, if applicable.

Each time a jet engine is operated, the following information is recorded on a log sheet; Type of engine tested, amount of fuel used, and minutes of operation in each mode. Log sheets are forwarded to Air Quality Program personnel on a monthly basis, and are compiled into 12-month cumulative reports and it is verified that usage does not exceed annual limits. Air Quality Program also maintains records of fuel sulfur content.

- Yes
 No
 Are you currently in compliance as indicated by the most recent monitoring measurement or observation as described above?

- Please indicate if this compliance determination method is continuous or intermittent:

Intermittent - As indicated by non-continuous periodic monitoring

- Yes
 No
 During the time period covered by this compliance certification, does the monitoring data indicate any excursions, if applicable?

An **excursion** is defined as "a departure from an indicator or surrogate parameter range established for monitoring under the applicable requirement or Part 70 permit condition, consistent with any averaging period specified for averaging the results of the monitoring."

- Yes
 No
 During the time period covered by this compliance certification, does the monitoring data indicate any exceedances, if applicable?

An **exceedance** is defined as "a condition that is detected by monitoring that provides data in terms of an emission limitation or standard and that indicates that emissions (or opacity) are greater than the applicable emission limitation or standard (or less than the applicable standard in the case of percent reduction requirement) consistent with any averaging period specified for averaging the results of the monitoring."

- Yes
 No
 During the time period covered by this compliance certification, do you have any other information or data that indicates that you are not in compliance?

Time Period Covered by Compliance Certification:

January 1, 2008 through December 31, 2008

COMPLIANCE CERTIFICATION PERMIT FORM
Applicable Requirement or Part 70 Permit Condition Attachment
Form TVPF46/12-24-98 (Modified to fit on one page)

Applicable Requirement or Part 70 Permit Condition

Citation, Including Attachment Number and/or Permit Condition Number: Attachment PO0997PC4, Condition No. 1	Description: Requirement that the sulfur content of distillate fuel burned in portable internal combustion engines shall not exceed 0.05% by weight
---	--

Attach to this form any information specifically required to be submitted with the compliance certification in the applicable requirement or Part 70 permit condition.

1. Please indicate the method(s) that you use for determining compliance. Indicate the frequency of monitoring and indicate the source test reference method, if applicable.

Compliance with this requirement is demonstrated by the fact that all diesel fuel burned in portable internal combustion engines is supplied by the NBVC Supply Department, Fuel Branch, and that all diesel fuel received by the Supply Department, Fuel Branch is CARB certified. Please see Appendix A for fuel purchase documentation.

2. Yes No Are you currently in compliance as indicated by the most recent monitoring measurement or observation as described above?

3. Please indicate if this compliance determination method is continuous or intermittent:

Intermittent - As indicated by non-continuous periodic monitoring

4. Yes No During the time period covered by this compliance certification, does the monitoring data indicate any excursions, if applicable?

An **excursion** is defined as "a departure from an indicator or surrogate parameter range established for monitoring under the applicable requirement or Part 70 permit condition, consistent with any averaging period specified for averaging the results of the monitoring."

5. Yes No During the time period covered by this compliance certification, does the monitoring data indicate any exceedances, if applicable?

An **exceedance** is defined as "a condition that is detected by monitoring that provides data in terms of an emission limitation or standard and that indicates that emissions (or opacity) are greater than the applicable emission limitation or standard (or less than the applicable standard in the case of percent reduction requirement) consistent with any averaging period specified for averaging the results of the monitoring."

6. Yes No During the time period covered by this compliance certification, do you have any other information or data that indicates that you are not in compliance?

Time Period Covered by Compliance Certification:

Ventura County Air Pollution Control District
COMPLIANCE CERTIFICATION PERMIT FORM
Applicable Requirement or Part 70 Permit Condition Attachment
Form TVPF46/12-24-98 (Modified to fit on one page)

Applicable Requirement or Part 70 Permit Condition

Citation, Including Attachment Number and/or Permit Condition Number: Attachment PO0997PC4, Condition No. 2, as applicable to individual engines with limits expressed in hours per year.	Description: Requirement that engine usage be properly recorded and compiled so as to demonstrate compliance with the usage limits of Table 3
--	---

Attach to this form any information specifically required to be submitted with the compliance certification in the applicable requirement or Part 70 permit condition.

1. Please indicate the method(s) that you use for determining compliance. Indicate the frequency of monitoring and indicate the source test reference method, if applicable.

Each engine is equipped with a properly installed and maintained hour meter. Hour meters of each engine are read on a monthly basis to ensure compliance with rolling-12-month limits. Hours of operation over each of twelve 12-month periods are determined from hour meter readings.

2. Yes Are you currently in compliance as indicated by the most recent monitoring measurement or observation as described above?
 No

3. Please indicate if this compliance determination method is continuous or intermittent:

Intermittent - As indicated by non-continuous periodic monitoring

4. Yes
 No During the time period covered by this compliance certification, does the monitoring data indicate any excursions, if applicable?

An *excursion* is defined as "a departure from an indicator or surrogate parameter range established for monitoring under the applicable requirement or Part 70 permit condition, consistent with any averaging period specified for averaging the results of the monitoring."

5. Yes
 No During the time period covered by this compliance certification, does the monitoring data indicate any exceedances, if applicable?

An *exceedance* is defined as "a condition that is detected by monitoring that provides data in terms of an emission limitation or standard and that indicates that emissions (or opacity) are greater than the applicable emission limitation or standard (or less than the applicable standard in the case of percent reduction requirement) consistent with any averaging period specified for averaging the results of the monitoring."

6. Yes
 No During the time period covered by this compliance certification, do you have any other information or data that indicates that you are not in compliance?

Time Period Covered by Compliance Certification:

January 1, 2008 through December 31, 2008

Citation, Including Attachment Number and/or Permit Condition Number: Attachment PO0997PC4, Condition No. 2, as applicable to runway arresting gear engines	Description: Requirement that total fuel used by an engine group be properly recorded and compiled so as to demonstrate compliance with the usage limits of Table 3
--	--

Attach to this form any information specifically required to be submitted with the compliance certification in the applicable requirement or Part 70 permit condition.

1. Please indicate the method(s) that you use for determining compliance. Indicate the frequency of monitoring and indicate the source test reference method, if applicable.

Each time a fuel delivery is made to arresting gear engines, the amount of fuel delivered to all of the engines (not to individual engines) is recorded. Data as to the total amount of fuel delivered are forwarded to the Air Quality Program on a monthly basis.

2. Yes Are you currently in compliance as indicated by the most recent monitoring measurement or observation as described above?
 No

3. Please indicate if this compliance determination method is continuous or intermittent:

Intermittent - As indicated by non-continuous periodic monitoring

4. Yes
 No During the time period covered by this compliance certification, does the monitoring data indicate any excursions, if applicable?

An **excursion** is defined as "a departure from an indicator or surrogate parameter range established for monitoring under the applicable requirement or Part 70 permit condition, consistent with any averaging period specified for averaging the results of the monitoring."

5. Yes
 No During the time period covered by this compliance certification, does the monitoring data indicate any exceedances, if applicable?

An **exceedance** is defined as "a condition that is detected by monitoring that provides data in terms of an emission limitation or standard and that indicates that emissions (or opacity) are greater than the applicable emission limitation or standard (or less than the applicable standard in the case of percent reduction requirement) consistent with any averaging period specified for averaging the results of the monitoring."

6. Yes
 No During the time period covered by this compliance certification, do you have any other information or data that indicates that you are not in compliance?

Time Period Covered by Compliance Certification:

January 1, 2008 through December 31, 2008

Ventura County Air Pollution Control District
COMPLIANCE CERTIFICATION PERMIT FORM
Applicable Requirement or Part 70 Permit Condition Attachment
Form TVPF46/12-24-98 (Modified to fit on one page)

Applicable Requirement or Part 70 Permit Condition

Citation, Including Attachment Number and/or Permit Condition Number: Attachment PO0997PC4, Condition No. 3	Description: Non-federally enforceable requirement that simultaneous power output by portable diesel engines listed on Part 70 Permit #0997 (including diesel engines in the tactical military operation) not exceed 1,393 BHP
---	---

Attach to this form any information specifically required to be submitted with the compliance certification in the applicable requirement or Part 70 permit condition.

1. Please indicate the method(s) that you use for determining compliance. Indicate the frequency of monitoring and indicate the source test reference method, if applicable.

No diesel engines were operated in association with tactical military operations (except those registered under the CARB Portable Equipment Registration Program, whose use need not be reported), and the total permitted BHP of portable diesel engines listed on the permit is less than 1,393 BHP.

2. Yes No Are you currently in compliance as indicated by the most recent monitoring measurement or observation as described above?

3. Please indicate if this compliance determination method is continuous or intermittent:

Intermittent - As indicated by non-continuous periodic monitoring

4. Yes No During the time period covered by this compliance certification, does the monitoring data indicate any excursions, if applicable?

An *excursion* is defined as "a departure from an indicator or surrogate parameter range established for monitoring under the applicable requirement or Part 70 permit condition, consistent with any averaging period specified for averaging the results of the monitoring."

5. Yes No During the time period covered by this compliance certification, does the monitoring data indicate any exceedances, if applicable?

An *exceedance* is defined as "a condition that is detected by monitoring that provides data in terms of an emission limitation or standard and that indicates that emissions (or opacity) are greater than the applicable emission limitation or standard (or less than the applicable standard in the case of percent reduction requirement) consistent with any averaging period specified for averaging the results of the monitoring."

6. Yes No During the time period covered by this compliance certification, do you have any other information or data that indicates that you are not in compliance?

Time Period Covered by Compliance Certification:

January 1, 2008 through December 31, 2008

Ventura County Air Pollution Control District
COMPLIANCE CERTIFICATION PERMIT FORM
Applicable Requirement or Part 70 Permit Condition Attachment
Form TVPF46/12-24-98 (Modified to fit on one page)

Applicable Requirement or Part 70 Permit Condition

Citation, Including Attachment Number and/or Permit Condition Number: Attachment PO0997PC4, Condition No. 4	Description: Non-federally enforceable requirement to notify VCAPCD of long term operations requiring the use of portable engines
---	--

Attach to this form any information specifically required to be submitted with the compliance certification in the applicable requirement or Part 70 permit condition.

1. Please indicate the method(s) that you use for determining compliance. Indicate the frequency of monitoring and indicate the source test reference method, if applicable.

Condition 4 of Attachment PO0997PC4 did not become applicable at any time during this compliance certification period, as no portable engines were used at any single location where operations might reasonably be expected to last for more than 30 days.

2. Yes No Are you currently in compliance as indicated by the most recent monitoring measurement or observation as described above?

3. Please indicate if this compliance determination method is continuous or intermittent:

Intermittent - As indicated by non-continuous periodic monitoring

4. Yes No During the time period covered by this compliance certification, does the monitoring data indicate any excursions, if applicable?

An **excursion** is defined as "a departure from an indicator or surrogate parameter range established for monitoring under the applicable requirement or Part 70 permit condition, consistent with any averaging period specified for averaging the results of the monitoring."

5. Yes No During the time period covered by this compliance certification, does the monitoring data indicate any exceedances, if applicable?

An **exceedance** is defined as "a condition that is detected by monitoring that provides data in terms of an emission limitation or standard and that indicates that emissions (or opacity) are greater than the applicable emission limitation or standard (or less than the applicable standard in the case of percent reduction requirement) consistent with any averaging period specified for averaging the results of the monitoring."

6. Yes No During the time period covered by this compliance certification, do you have any other information or data that indicates that you are not in compliance?

Time Period Covered by Compliance Certification:

January 1, 2008 through December 31, 2008

Ventura County Air Pollution Control District
COMPLIANCE CERTIFICATION PERMIT FORM
Applicable Requirement or Part 70 Permit Condition Attachment
Form TVPF46/12-24-98 (Modified to fit on one page)

Applicable Requirement or Part 70 Permit Condition

Citation, Including Attachment Number and/or Permit Condition Number: Attachment PO0997PC4, Condition No. 5	Description: Prohibition against using a portable engine to perform a permanent function
---	---

Attach to this form any information specifically required to be submitted with the compliance certification in the applicable requirement or Part 70 permit condition.

1. Please indicate the method(s) that you use for determining compliance. Indicate the frequency of monitoring and indicate the source test reference method, if applicable.

Portable engines at NBVC are used by the Public Works Department. Due to the inherent nature of their work, engines are constantly moved from one location to another within the site to perform work.

2. Yes No Are you currently in compliance as indicated by the most recent monitoring measurement or observation as described above?

3. Please indicate if this compliance determination method is continuous or intermittent:

Intermittent - As indicated by non-continuous periodic monitoring

4. Yes No During the time period covered by this compliance certification, does the monitoring data indicate any excursions, if applicable?

An **excursion** is defined as "a departure from an indicator or surrogate parameter range established for monitoring under the applicable requirement or Part 70 permit condition, consistent with any averaging period specified for averaging the results of the monitoring."

5. Yes No During the time period covered by this compliance certification, does the monitoring data indicate any exceedances, if applicable?

An **exceedance** is defined as "a condition that is detected by monitoring that provides data in terms of an emission limitation or standard and that indicates that emissions (or opacity) are greater than the applicable emission limitation or standard (or less than the applicable standard in the case of percent reduction requirement) consistent with any averaging period specified for averaging the results of the monitoring."

6. Yes No During the time period covered by this compliance certification, do you have any other information or data that indicates that you are not in compliance?

January 1, 2008 through December 31, 2008

Ventura County Air Pollution Control District
COMPLIANCE CERTIFICATION PERMIT FORM
Applicable Requirement or Part 70 Permit Condition Attachment
Form TVPF46/12-24-98 (Modified to fit on one page)

Applicable Requirement or Part 70 Permit Condition

Citation, Including Attachment Number and/or Permit Condition Number: Attachment PO0997PC5, Condition No. 1(a)(i)	Description: Annual limit of 360 gallons of topcoats having a maximum ROC content of 3.5 lbs/gallon to be applied to aircraft and aerospace components
---	---

Attach to this form any information specifically required to be submitted with the compliance certification in the applicable requirement or Part 70 permit condition.

1. Please indicate the method(s) that you use for determining compliance. Indicate the frequency of monitoring and indicate the source test reference method, if applicable.

Daily records of aerospace topcoats applied are kept by aerospace coating operations at Buildings 34, 319, 363, 372, and 553, and are submitted on a monthly basis to the NBVC Air Quality Program. Usage of corrosion preventive compounds (CPCs) and walkway compounds by aerospace organizations are also reported as aerospace topcoats. These data are derived from hazardous material issue data. Coatings and CPCs are summed each month by the air quality program, and the total is compiled into a 12-month cumulative report.

2. Yes No Are you currently in compliance as indicated by the most recent monitoring measurement or observation as described above?

3. Please indicate if this compliance determination method is continuous or intermittent:

Intermittent - As indicated by non-continuous periodic monitoring

4. Yes No During the time period covered by this compliance certification, does the monitoring data indicate any excursions, if applicable?

An **excursion** is defined as "a departure from an indicator or surrogate parameter range established for monitoring under the applicable requirement or Part 70 permit condition, consistent with any averaging period specified for averaging the results of the monitoring."

5. Yes No During the time period covered by this compliance certification, does the monitoring data indicate any exceedances, if applicable?

An **exceedance** is defined as "a condition that is detected by monitoring that provides data in terms of an emission limitation or standard and that indicates that emissions (or opacity) are greater than the applicable emission limitation or standard (or less than the applicable standard in the case of percent reduction requirement) consistent with any averaging period specified for averaging the results of the monitoring."

Applicable Requirement or Part 70 Permit Condition

Citation, Including Attachment Number and/or Permit Condition Number: Attachment PO0997PC5, Condition No. 1(a)(iii)	Description: Annual limit of 100 gallons of specialty coatings having a maximum ROC content of 7.72 lbs/gallon to be applied to aircraft and aerospace components
---	--

Attach to this form any information specifically required to be submitted with the compliance certification in the applicable requirement or Part 70 permit condition.

1. Please indicate the method(s) that you use for determining compliance. Indicate the frequency of monitoring and indicate the source test reference method, if applicable.

The majority of specialty coatings are applied by a conformal coating operation located at Building 512 (formerly located at Building 311). Daily usage of conformal coating is recorded and submitted to the NBVC Air Quality Program office on a monthly basis. A small amount of specialty coatings are used on an incidental basis by other operations, and are recorded on the same logs as the aerospace topcoats and primers. Rain erosion coating is also applied by other aircraft coating operations, and is compiled from issue data. Total basewide usage is summed for each month, and compiled into a 12-month cumulative report.

2. Yes No Are you currently in compliance as indicated by the most recent monitoring measurement or observation as described above?

3. Please indicate if this compliance determination method is continuous or intermittent:

Intermittent - As indicated by non-continuous periodic monitoring

4. Yes No During the time period covered by this compliance certification, does the monitoring data indicate any excursions, if applicable?

An **excursion** is defined as "a departure from an indicator or surrogate parameter range established for monitoring under the applicable requirement or Part 70 permit condition, consistent with any averaging period specified for averaging the results of the monitoring."

5. Yes No During the time period covered by this compliance certification, does the monitoring data indicate any exceedances, if applicable?

An **exceedance** is defined as "a condition that is detected by monitoring that provides data in terms of an emission limitation or standard and that indicates that emissions (or opacity) are greater than the applicable emission limitation or standard (or less than the applicable standard in the case of percent reduction requirement) consistent with any averaging period specified for averaging the results of the monitoring."

COMPLIANCE CERTIFICATION PERMIT FORM
Applicable Requirement or Part 70 Permit Condition Attachment
Form TVPF46/12-24-98 (Modified to fit on one page)

Applicable Requirement or Part 70 Permit Condition

Citation, Including Attachment Number and/or Permit Condition Number: Attachment PO0997PC5, Condition No. 1(a)(v)	Description: Annual limit of 110 gallons of methylene chloride based stripper having a maximum ROC content of 2.50 lbs/gallon to be used in association with aerospace coating operations
---	--

Attach to this form any information specifically required to be submitted with the compliance certification in the applicable requirement or Part 70 permit condition.

1. Please indicate the method(s) that you use for determining compliance. Indicate the frequency of monitoring and indicate the source test reference method, if applicable.

All hazardous materials are recorded upon their issue to the end user by means of the Regional Hazardous Inventory Control System (RHICS) database, which contains an accurate record of all stripper issued. Monthly usage of methylene -chloride stripper is derived from this database. All stripper issued is assumed to have been used in Ventura County in association with aircraft coating operations, unless data would specifically indicate otherwise.

2. Yes No Are you currently in compliance as indicated by the most recent monitoring measurement or observation as described above?

3. Please indicate if this compliance determination method is continuous or intermittent:

Intermittent - As indicated by non-continuous periodic monitoring

4. Yes No During the time period covered by this compliance certification, does the monitoring data indicate any excursions, if applicable?

An **excursion** is defined as "a departure from an indicator or surrogate parameter range established for monitoring under the applicable requirement or Part 70 permit condition, consistent with any averaging period specified for averaging the results of the monitoring."

5. Yes No During the time period covered by this compliance certification, does the monitoring data indicate any exceedances, if applicable?

An **exceedance** is defined as "a condition that is detected by monitoring that provides data in terms of an emission limitation or standard and that indicates that emissions (or opacity) are greater than the applicable emission limitation or standard (or less than the applicable standard in the case of percent reduction requirement) consistent with any averaging period specified for averaging the results of the monitoring."

Citation, Including Attachment Number and/or Permit Condition Number: Attachment PO0997PC5, Condition No. 1(a)(vi)	Description: Annual limit of 110 gallons of non-methylene chloride based stripper having a maximum ROC content of 2.50 lbs/gallon to be used in association with aerospace coating operations
--	--

Attach to this form any information specifically required to be submitted with the compliance certification in the applicable requirement or Part 70 permit condition.

1. Please indicate the method(s) that you use for determining compliance. Indicate the frequency of monitoring and indicate the source test reference method, if applicable.

No non-methylene chloride based stripper was used at any time during this compliance certification period. This is known, because personnel from the Air Quality Program must approve all purchases of new materials. No new usages of non-methylene chloride stripper have been approved and none had ever been used in the past. It can be verified that no non-methylene chloride stripper was issued by reviewing the RHICS database.

2. Yes No Are you currently in compliance as indicated by the most recent monitoring measurement or observation as described above?

3. Please indicate if this compliance determination method is continuous or intermittent:

Intermittent - As indicated by non-continuous periodic monitoring

4. Yes No During the time period covered by this compliance certification, does the monitoring data indicate any excursions, if applicable?

An **excursion** is defined as "a departure from an indicator or surrogate parameter range established for monitoring under the applicable requirement or Part 70 permit condition, consistent with any averaging period specified for averaging the results of the monitoring."

--	--

Attach to this form any information specifically required to be submitted with the compliance certification in the applicable requirement or Part 70 permit condition.

1. Please indicate the method(s) that you use for determining compliance. Indicate the frequency of monitoring and indicate the source test reference method, if applicable.

NBVC uses solvents for aircraft maintenance having greater than de minimis amounts of ROC and less than 1.67 lb/gal ROC. Such solvents include aircraft engine gas path cleaner, and certain other solvent formulations. All solvent formulations having greater than de-minimis ROC content that are used in significant quantities are readily identifiable in the RHICS database. Usage of these solvents is quantified on a monthly basis.

2. Yes No Are you currently in compliance as indicated by the most recent monitoring measurement or observation as described above?

3. Please indicate if this compliance determination method is continuous or intermittent:

Intermittent - As indicated by non-continuous periodic monitoring

4. Yes No During the time period covered by this compliance certification, does the monitoring data indicate any excursions, if applicable?

An **excursion** is defined as "a departure from an indicator or surrogate parameter range established for monitoring under the applicable requirement or Part 70 permit condition, consistent with any averaging period specified for averaging the results of the monitoring."

5. Yes No During the time period covered by this compliance certification, does the monitoring data indicate any exceedances, if applicable?

 Applicable Requirement or Part 70 Permit Condition Attachment
 Form TVPF46/12-24-98 (Modified to fit on one page)

Applicable Requirement or Part 70 Permit Condition

Citation, Including Attachment Number and/or Permit Condition Number: Attachment PO0997PC5, Condition No. 1(b)(i)	Description: Annual limit of 1,016 gallons of coatings having a maximum ROC content of 2.80 lbs/gallon for the coating of metal parts and products and motor vehicles and mobile equipment
---	---

Attach to this form any information specifically required to be submitted with the compliance certification in the applicable requirement or Part 70 permit condition.

- Please indicate the method(s) that you use for determining compliance. Indicate the frequency of monitoring and indicate the source test reference method, if applicable.

Usage of coatings at the AIMD Ground Support Equipment (GSE) Operation (Building 319) is reported against this limit. Volume of all coatings applied are recorded on a daily basis by the GSE operation, and submitted to the NBVC Air Quality Program on a monthly basis. Monthly records are compiled into a 12-month cumulative report.

- Yes
 No
 Are you currently in compliance as indicated by the most recent monitoring measurement or observation as described above?

- Please indicate if this compliance determination method is continuous or intermittent:

Intermittent - As indicated by non-continuous periodic monitoring

- Yes
 No
 During the time period covered by this compliance certification, does the monitoring data indicate any excursions, if applicable?

An **excursion** is defined as "a departure from an indicator or surrogate parameter range established for monitoring under the applicable requirement or Part 70 permit condition, consistent with any averaging period specified for averaging the results of the monitoring."

- Yes
 No
 During the time period covered by this compliance certification, does the monitoring data indicate any exceedances, if applicable?

An **exceedance** is defined as "a condition that is detected by monitoring that provides data in terms of an emission limitation or standard and that indicates that emissions (or opacity) are greater than the applicable emission limitation or standard (or less than the applicable standard in the case of percent reduction requirement) consistent with any averaging period specified for averaging the results of the monitoring."

- Yes
 No
 During the time period covered by this compliance certification, do you have any other information or data that indicates that you are not in compliance?

Time Period Covered by Compliance Certification:

January 1, 2008 through December 31, 2008

Ventura County Air Pollution Control District
COMPLIANCE CERTIFICATION PERMIT FORM
Applicable Requirement or Part 70 Permit Condition Attachment
Form TVPF46/12-24-98 (Modified to fit on one page)

Applicable Requirement or Part 70 Permit Condition

Citation, Including Attachment Number and/or Permit Condition Number: Attachment PO0997PC5, Condition No. 1(b)(ii)	Description: Annual limit of 400 gallons of coatings having a maximum ROC content of 3.50 lbs/gallon for the coating of metal parts and products and motor vehicles and mobile equipment
--	---

Attach to this form any information specifically required to be submitted with the compliance certification in the applicable requirement or Part 70 permit condition.

1. Please indicate the method(s) that you use for determining compliance. Indicate the frequency of monitoring and indicate the source test reference method, if applicable.

No metal parts/motor vehicles coating having a maximum ROC content of 3.5 lb/gallon were reported against this limit during this compliance certification period.

2. Yes Are you currently in compliance as indicated by the most recent monitoring measurement or observation as described above?
 No

3. Please indicate if this compliance determination method is continuous or intermittent:

Intermittent - As indicated by non-continuous periodic monitoring

4. Yes No During the time period covered by this compliance certification, does the monitoring data indicate any excursions, if applicable?

An **excursion** is defined as "a departure from an indicator or surrogate parameter range established for monitoring under the applicable requirement or Part 70 permit condition, consistent with any averaging period specified for averaging the results of the monitoring."

5. Yes No During the time period covered by this compliance certification, does the monitoring data indicate any exceedances, if applicable?

An **exceedance** is defined as "a condition that is detected by monitoring that provides data in terms of an emission limitation or standard and that indicates that emissions (or opacity) are greater than the applicable emission limitation or standard (or less than the applicable standard in the case of percent reduction requirement) consistent with any averaging period specified for averaging the results of the monitoring."

6. Yes No During the time period covered by this compliance certification, do you have any other information or data that indicates that you are not in compliance?

Time Period Covered by Compliance Certification:

January 1, 2008 through December 31, 2008

Ventura County Air Pollution Control District
COMPLIANCE CERTIFICATION PERMIT FORM
 Applicable Requirement or Part 70 Permit Condition Attachment
 Form TVPF46/12-24-98 (Modified to fit on one page)

Applicable Requirement or Part 70 Permit Condition

Citation, Including Attachment Number and/or Permit Condition Number: Attachment PO0997PC5, Condition No. 1(b)(iii)	Description: Annual limit of 140 gallons of coatings having a maximum ROC content of 4.340 lbs/gallon for the coating of metal parts and products and motor vehicles and mobile equipment
---	--

Attach to this form any information specifically required to be submitted with the compliance certification in the applicable requirement or Part 70 permit condition.

- Please indicate the method(s) that you use for determining compliance. Indicate the frequency of monitoring and indicate the source test reference method, if applicable.

Records of amounts of coatings applied are submitted by customers of the MWR Auto Hobby Shop (AHS) who paint their personal vehicles in the paint booth at Building 154. Records are held by the AHS until requested by the NBVC Air Quality Program for reporting purposes. Then, monthly usage is determined, and compiled into 12-month cumulative reports. All customers of the AHS must have their paint pre-approved by Air Quality Program personnel.

- Yes Are you currently in compliance as indicated by the most recent monitoring measurement or observation as described above?
 No

- Please indicate if this compliance determination method is continuous or intermittent:

Intermittent - As indicated by non-continuous periodic monitoring

- Yes During the time period covered by this compliance certification, does the monitoring data indicate any excursions, if applicable?
 No

An **excursion** is defined as "a departure from an indicator or surrogate parameter range established for monitoring under the applicable requirement or Part 70 permit condition, consistent with any averaging period specified for averaging the results of the monitoring."

- Yes During the time period covered by this compliance certification, does the monitoring data indicate any exceedances, if applicable?
 No

An **exceedance** is defined as "a condition that is detected by monitoring that provides data in terms of an emission limitation or standard and that indicates that emissions (or opacity) are greater than the applicable emission limitation or standard (or less than the applicable standard in the case of percent reduction requirement) consistent with any averaging period specified for averaging the results of the monitoring."

- Yes During the time period covered by this compliance certification, do you have any other information or data that indicates that you are not in compliance?
 No

Time Period Covered by Compliance Certification:

January 1, 2008 through December 31, 2008

Ventura County Air Pollution Control District
COMPLIANCE CERTIFICATION PERMIT FORM
Applicable Requirement or Part 70 Permit Condition Attachment
Form TVPF46/12-24-98 (Modified to fit on one page)

Applicable Requirement or Part 70 Permit Condition

Citation, Including Attachment Number and/or Permit Condition Number: Attachment PO0997PC5, Condition No. 1(b)(iv)	Description: Annual limit of 118 gallons of solvents having a maximum ROC content of 7.40 lbs/gallon used in association with the coating of metal parts and products and motor vehicles and mobile equipment
--	--

Attach to this form any information specifically required to be submitted with the compliance certification in the applicable requirement or Part 70 permit condition.

1. Please indicate the method(s) that you use for determining compliance. Indicate the frequency of monitoring and indicate the source test reference method, if applicable.

The volume of high-VOC solvent used at the AIMD GSE coating operation is quantified by reviewing RHICS issue data. Usage is determined for each calendar month. To that value is added the "Gro Group" solvent purchased for the gunwasher at the MWR Auto Hobby Shop. Monthly usage is compiled into 12-month cumulative report. Although the majority of the solvent is used in a gunwasher, for reporting purposes, all solvent is assumed to have evaporated.

2. Yes No Are you currently in compliance as indicated by the most recent monitoring measurement or observation as described above?

3. Please indicate if this compliance determination method is continuous or intermittent:

Intermittent - As indicated by non-continuous periodic monitoring

4. Yes No During the time period covered by this compliance certification, does the monitoring data indicate any excursions, if applicable?

An **excursion** is defined as "a departure from an indicator or surrogate parameter range established for monitoring under the applicable requirement or Part 70 permit condition, consistent with any averaging period specified for averaging the results of the monitoring."

5. Yes No During the time period covered by this compliance certification, does the monitoring data indicate any exceedances, if applicable?

An **exceedance** is defined as "a condition that is detected by monitoring that provides data in terms of an emission limitation or standard and that indicates that emissions (or opacity) are greater than the applicable emission limitation or standard (or less than the applicable standard in the case of percent reduction requirement) consistent with any averaging period specified for averaging the results of the monitoring."

6. Yes No During the time period covered by this compliance certification, do you have any other information or data that indicates that you are not in compliance?

Time Period Covered by Compliance Certification:

January 1, 2008 through December 31, 2008

Ventura County Air Pollution Control District
COMPLIANCE CERTIFICATION PERMIT FORM

Form TVPF46/12-24-98 (Modified to fit on one page)

Applicable Requirement or Part 70 Permit Condition

Citation, Including Attachment Number and/or Permit Condition Number: Attachment PO0997PC5, Condition No. 1(b)(v)	Description: Annual limit of 146 gallons of solvents having a maximum ROC content of 0.58 lbs/gallon used in association with the coating of metal parts and products and motor vehicles and mobile equipment
---	--

Attach to this form any information specifically required to be submitted with the compliance certification in the applicable requirement or Part 70 permit condition.

1. Please indicate the method(s) that you use for determining compliance. Indicate the frequency of monitoring and indicate the source test reference method, if applicable.

The volume of low-VOC solvent used at the AIMD GSE coating operation is quantified by reviewing RHICS issue data. Usage is determined for each calendar month. No usage of above-referenced solvents occurred during this compliance certification period.

2. Yes No Are you currently in compliance as indicated by the most recent monitoring measurement or observation as described above?

3. Please indicate if this compliance determination method is continuous or intermittent:

Intermittent - As indicated by non-continuous periodic monitoring

4. Yes No During the time period covered by this compliance certification, does the monitoring data indicate any excursions, if applicable?

An **excursion** is defined as "a departure from an indicator or surrogate parameter range established for monitoring under the applicable requirement or Part 70 permit condition, consistent with any averaging period specified for averaging the results of the monitoring."

5. Yes No During the time period covered by this compliance certification, does the monitoring data indicate any exceedances, if applicable?

An **exceedance** is defined as "a condition that is detected by monitoring that provides data in terms of an emission limitation or standard and that indicates that emissions (or opacity) are greater than the applicable emission limitation or standard (or less than the applicable standard in the case of percent reduction requirement) consistent with any averaging period specified for averaging the results of the monitoring."

6. Yes No During the time period covered by this compliance certification, do you have any other information or data that indicates that you are not in compliance?

Time Period Covered by Compliance Certification:

January 1, 2008 through December 31, 2008

Ventura County Air Pollution Control District
COMPLIANCE CERTIFICATION PERMIT FORM
Applicable Requirement or Part 70 Permit Condition Attachment
Form TVPF46/12-24-98 (Modified to fit on one page)

Applicable Requirement or Part 70 Permit Condition

Citation, Including Attachment Number and/or Permit Condition Number: Attachment PO0997PC5, Condition No. 1(b)(vi)	Description: Annual limit of 112 gallons of solvents having a maximum ROC content of 1.67 lbs/gallon used in association with the coating of motor vehicles and mobile equipment
--	---

Attach to this form any information specifically required to be submitted with the compliance certification in the applicable requirement or Part 70 permit condition.

1. Please indicate the method(s) that you use for determining compliance. Indicate the frequency of monitoring and indicate the source test reference method, if applicable.

Solvents meeting this description would be used at the MWR Auto Hobby Shop (AHS) and Building 319. Personnel who paint their personal vehicles at the AHS must have all solvents pre-approved by NBVC Air Quality Program personnel. No such solvents were used at any time during the compliance certification period.

2. Yes No Are you currently in compliance as indicated by the most recent monitoring measurement or observation as described above?

3. Please indicate if this compliance determination method is continuous or intermittent:

Intermittent - As indicated by non-continuous periodic monitoring

4. Yes No During the time period covered by this compliance certification, does the monitoring data indicate any excursions, if applicable?

An **excursion** is defined as "a departure from an indicator or surrogate parameter range established for monitoring under the applicable requirement or Part 70 permit condition, consistent with any averaging period specified for averaging the results of the monitoring."

5. Yes No During the time period covered by this compliance certification, does the monitoring data indicate any exceedances, if applicable?

An **exceedance** is defined as "a condition that is detected by monitoring that provides data in terms of an emission limitation or standard and that indicates that emissions (or opacity) are greater than the applicable emission limitation or standard (or less than the applicable standard in the case of percent reduction requirement) consistent with any averaging period specified for averaging the results of the monitoring."

6. Yes No During the time period covered by this compliance certification, do you have any other information or data that indicates that you are not in compliance?

Time Period Covered by Compliance Certification:

January 1, 2008 through December 31, 2008

Ventura County Air Pollution Control District
COMPLIANCE CERTIFICATION PERMIT FORM
Applicable Requirement or Part 70 Permit Condition Attachment
Form TVPF46/12-24-98 (Modified to fit on one page)

Applicable Requirement or Part 70 Permit Condition

Citation, Including Attachment Number and/or Permit Condition Number: Attachment PO0997PC5, Condition No. 1(c)(i)	Description: Annual limit of 1,864 gallons per year of coatings having a maximum ROC content of 3.50 lbs/gallon applied by contractors to process and industrial equipment
---	---

Attach to this form any information specifically required to be submitted with the compliance certification in the applicable requirement or Part 70 permit condition.

1. Please indicate the method(s) that you use for determining compliance. Indicate the frequency of monitoring and indicate the source test reference method, if applicable.

Any significant projects in which contractors must be hired are subject to approval by a "project review board", which includes one member of NBVC Environmental Division staff. This person is directed to contact the Air Quality Program in the event that the project involves any significant amount of painting. In the event that coating of process and industrial equipment by contractors will take place, the contractor is directed to keep logs of the amount and type of coatings applied. These are compiled into monthly totals and 12-month cumulative reports.

2. Yes No Are you currently in compliance as indicated by the most recent monitoring measurement or observation as described above?

3. Please indicate if this compliance determination method is continuous or intermittent:

Intermittent - As indicated by non-continuous periodic monitoring

4. Yes No During the time period covered by this compliance certification, does the monitoring data indicate any excursions, if applicable?

An **excursion** is defined as "a departure from an indicator or surrogate parameter range established for monitoring under the applicable requirement or Part 70 permit condition, consistent with any averaging period specified for averaging the results of the monitoring."

5. Yes No During the time period covered by this compliance certification, does the monitoring data indicate any exceedances, if applicable?

An **exceedance** is defined as "a condition that is detected by monitoring that provides data in terms of an emission limitation or standard and that indicates that emissions (or opacity) are greater than the applicable emission limitation or standard (or less than the applicable standard in the case of percent reduction requirement) consistent with any averaging period specified for averaging the results of the monitoring."

January 1, 2008 through December 31, 2008

Ventura County Air Pollution Control District
COMPLIANCE CERTIFICATION PERMIT FORM
Applicable Requirement or Part 70 Permit Condition Attachment
Form TVPF46/12-24-98 (Modified to fit on one page)

Applicable Requirement or Part 70 Permit Condition

Citation, Including Attachment Number and/or Permit Condition Number: Attachment PO0997PC5, Condition No. 6	Description: Requirement that annual operation of the Epcon natural gas burn-off oven not to exceed 1135 hours, monthly records of hours of operation be maintained and summed for the previous twelve months
---	--

Attach to this form any information specifically required to be submitted with the compliance certification in the applicable requirement or Part 70 permit condition.

1. Please indicate the method(s) that you use for determining compliance. Indicate the frequency of monitoring and indicate the source test reference method, if applicable.

The Epcon natural gas burn-off oven is equipped with an hour meter. Monthly records of hours of operation are submitted on a monthly basis to the NBVC Air Quality Program. These records are compiled into a 12-month cumulative report.

2. Yes No Are you currently in compliance as indicated by the most recent monitoring measurement or observation as described above?

3. Please indicate if this compliance determination method is continuous or intermittent:

Intermittent - As indicated by non-continuous periodic monitoring

4. Yes No During the time period covered by this compliance certification, does the monitoring data indicate any excursions, if applicable?

An **excursion** is defined as "a departure from an indicator or surrogate parameter range established for monitoring under the applicable requirement or Part 70 permit condition, consistent with any averaging period specified for averaging the results of the monitoring."

5. Yes No During the time period covered by this compliance certification, does the monitoring data indicate any exceedances, if applicable?

An **exceedance** is defined as "a condition that is detected by monitoring that provides data in terms of an emission limitation or standard and that indicates that emissions (or opacity) are greater than the applicable emission limitation or standard (or less than the applicable standard in the case of percent reduction requirement) consistent with any averaging period specified for averaging the results of the monitoring."

6. Yes No During the time period covered by this compliance certification, do you have any other information or data that indicates that you are not in compliance?

Time Period Covered by Compliance Certification:

January 1, 2008 through December 31, 2008

Ventura County Air Pollution Control District
COMPLIANCE CERTIFICATION PERMIT FORM
Applicable Requirement or Part 70 Permit Condition Attachment

Applicable Requirement or Part 70 Permit Condition

Citation, Including Attachment Number and/or Permit Condition Number: Attachment PO0997PC5, Conditions Nos. 7(a) and 7(b)	Description: Requirement that the Epcon natural gas fired burn-off oven uses only natural gas(a), and is only used to remove coatings from metal substrates(b)
---	---

Attach to this form any information specifically required to be submitted with the compliance certification in the applicable requirement or Part 70 permit condition.

1. Please indicate the method(s) that you use for determining compliance. Indicate the frequency of monitoring and indicate the source test reference method, if applicable.

Epcon natural gas fired burn-off oven is operated on PUC natural gas. Nothing other than coated items with metal substrates were processed in the burn-off oven during the compliance period.

2. Yes Are you currently in compliance as indicated by the most recent monitoring measurement or observation as described above?
 No

3. Please indicate if this compliance determination method is continuous or intermittent:

Intermittent - As indicated by non-continuous periodic monitoring

4. Yes No During the time period covered by this compliance certification, does the monitoring data indicate any excursions, if applicable?

An **excursion** is defined as "a departure from an indicator or surrogate parameter range established for monitoring under the applicable requirement or Part 70 permit condition, consistent with any averaging period specified for averaging the results of the monitoring."

5. Yes No During the time period covered by this compliance certification, does the monitoring data indicate any exceedances, if applicable?

An **exceedance** is defined as "a condition that is detected by monitoring that provides data in terms of an emission limitation or standard and that indicates that emissions (or opacity) are greater than the applicable emission limitation or standard (or less than the applicable standard in the case of percent reduction requirement) consistent with any averaging period specified for averaging the results of the monitoring."

6. Yes No During the time period covered by this compliance certification, do you have any other information or data that indicates that you are not in compliance?

--	---

Attach to this form any information specifically required to be submitted with the compliance certification in the applicable requirement or Part 70 permit condition.

1. Please indicate the method(s) that you use for determining compliance. Indicate the frequency of monitoring and indicate the source test reference method, if applicable.

It is verified by the NBVC air quality program that the Epcon burn-off oven is operated in accordance with the manufacturer's instructions and recommendations.

2. Yes No Are you currently in compliance as indicated by the most recent monitoring measurement or observation as described above?

3. Please indicate if this compliance determination method is continuous or intermittent:

Intermittent - As indicated by non-continuous periodic monitoring

4. Yes No During the time period covered by this compliance certification, does the monitoring data indicate any excursions, if applicable?

An **excursion** is defined as "a departure from an indicator or surrogate parameter range established for monitoring under the applicable requirement or Part 70 permit condition, consistent with any averaging period specified for averaging the results of the monitoring."

5. Yes No During the time period covered by this compliance certification, does the monitoring data indicate any exceedances, if applicable?

An **exceedance** is defined as "a condition that is detected by monitoring that provides data in terms of an emission limitation or standard and that indicates that emissions (or opacity) are greater than the applicable emission limitation or standard (or less than the applicable standard in the case of percent reduction requirement) consistent with any averaging period specified for averaging the results of the monitoring."

6. Yes No During the time period covered by this compliance certification, do you have any other information or data that indicates that you are not in compliance?

Time Period Covered by Compliance Certification:

January 1, 2008 through December 31, 2008

Ventura County Air Pollution Control District
COMPLIANCE CERTIFICATION PERMIT FORM
 Applicable Requirement or Part 70 Permit Condition Attachment
 Form TVPF46/12-24-98 (Modified to fit on one page)

Applicable Requirement or Part 70 Permit Condition

Citation, Including Attachment Number and/or Permit Condition Number: Attachment PO0997PC5, Condition No. 7(d)	Description: Requirement that all exhaust from the Epcon burn-off oven be processed through an afterburner/secondary chamber to control emissions.
--	---

Attach to this form any information specifically required to be submitted with the compliance certification in the applicable requirement or Part 70 permit condition.

- Please indicate the method(s) that you use for determining compliance. Indicate the frequency of monitoring and indicate the source test reference method, if applicable.

Primary and afterburner operational parameters are controlled to specification by a factory programmed control system that insures proper system operation and the destructive efficiency of the afterburner. In addition, site verifiable parameters are checked by trained technicians during system operation.

- Yes
 No
 Are you currently in compliance as indicated by the most recent monitoring measurement or observation as described above?

- Please indicate if this compliance determination method is continuous or intermittent:

Intermittent - As indicated by non-continuous periodic monitoring

- Yes
 No
 During the time period covered by this compliance certification, does the monitoring data indicate any excursions, if applicable?

An **excursion** is defined as "a departure from an indicator or surrogate parameter range established for monitoring under the applicable requirement or Part 70 permit condition, consistent with any averaging period specified for averaging the results of the monitoring."

- Yes
 No
 During the time period covered by this compliance certification, does the monitoring data indicate any exceedances, if applicable?

An **exceedance** is defined as "a condition that is detected by monitoring that provides data in terms of an emission limitation or standard and that indicates that emissions (or opacity) are greater than the applicable emission limitation or standard (or less than the applicable standard in the case of percent reduction requirement) consistent with any averaging period specified for averaging the results of the monitoring."

- Yes
 No
 During the time period covered by this compliance certification, do you have any other information or data that indicates that you are not in compliance?

Time Period Covered by Compliance Certification:

January 1, 2008 through December 31, 2008

Ventura County Air Pollution Control District
COMPLIANCE CERTIFICATION PERMIT FORM
Applicable Requirement or Part 70 Permit Condition Attachment
Form TVPF46/12-24-98 (Modified to fit on one page)

Applicable Requirement or Part 70 Permit Condition

Citation, Including Attachment Number and/or Permit Condition Number: Attachment PO0997PC6, Condition No. 1	Description: Requirement that only Garnet be used in the confined abrasive blasting operations at Building 3014
---	--

Attach to this form any information specifically required to be submitted with the compliance certification in the applicable requirement or Part 70 permit condition.

1. Please indicate the method(s) that you use for determining compliance. Indicate the frequency of monitoring and indicate the source test reference method, if applicable.

Monthly records are received as to the amount and type of abrasives used in the blast room at Building 3014. These records are reviewed by NBVC Air Program staff to ensure that garnet is the only type of abrasive which is used.

2. Yes No Are you currently in compliance as indicated by the most recent monitoring measurement or observation as described above?

3. Please indicate if this compliance determination method is continuous or intermittent:

Intermittent - As indicated by non-continuous periodic monitoring

4. Yes No During the time period covered by this compliance certification, does the monitoring data indicate any excursions, if applicable?

An **excursion** is defined as "a departure from an indicator or surrogate parameter range established for monitoring under the applicable requirement or Part 70 permit condition, consistent with any averaging period specified for averaging the results of the monitoring."

5. Yes No During the time period covered by this compliance certification, does the monitoring data indicate any exceedances, if applicable?

An **exceedance** is defined as "a condition that is detected by monitoring that provides data in terms of an emission limitation or standard and that indicates that emissions (or opacity) are greater than the applicable emission limitation or standard (or less than the applicable standard in the case of percent reduction requirement) consistent with any averaging period specified for averaging the results of the monitoring."

6. Yes No During the time period covered by this compliance certification, do you have any other information or data that indicates that you are not in compliance?

Time Period Covered by Compliance Certification:

January 1, 2008 through December 31, 2008

Ventura County Air Pollution Control District
COMPLIANCE CERTIFICATION PERMIT FORM
Applicable Requirement or Part 70 Permit Condition Attachment
Form TVPF46/12-24-98 (Modified to fit on one page)

Applicable Requirement or Part 70 Permit Condition

Citation, including Attachment Number and/or Permit Condition Number: Attachment PO0997PC6, Condition No. 2	Description: Requirement to comply with applicable provisions of Title 17, California Administrative Code, Subchapter 6, and APCD Rule 74.1
---	---

Attach to this form any information specifically required to be submitted with the compliance certification in the applicable requirement or Part 70 permit condition.

1. Please indicate the method(s) that you use for determining compliance. Indicate the frequency of monitoring and indicate the source test reference method, if applicable.

Inspections are performed by the NBVC Air Program staff to ensure compliance with the visible emissions standards, nuisance prohibitions, and performance standards of the above rules.

2. Yes No Are you currently in compliance as indicated by the most recent monitoring measurement or observation as described above?

3. Please indicate if this compliance determination method is continuous or intermittent:

Intermittent - As indicated by non-continuous periodic monitoring

4. Yes No During the time period covered by this compliance certification, does the monitoring data indicate any excursions, if applicable?

An **excursion** is defined as "a departure from an indicator or surrogate parameter range established for monitoring under the applicable requirement or Part 70 permit condition, consistent with any averaging period specified for averaging the results of the monitoring."

5. Yes No During the time period covered by this compliance certification, does the monitoring data indicate any exceedances, if applicable?

An **exceedance** is defined as "a condition that is detected by monitoring that provides data in terms of an emission limitation or standard and that indicates that emissions (or opacity) are greater than the applicable emission limitation or standard (or less than the applicable standard in the case of percent reduction requirement) consistent with any averaging period specified for averaging the results of the monitoring."

6. Yes No During the time period covered by this compliance certification, do you have any other information or data that indicates that you are not in compliance?

Time Period Covered by Compliance Certification:

January 1, 2008 through December 31, 2008

Ventura County Air Pollution Control District
COMPLIANCE CERTIFICATION PERMIT FORM
Applicable Requirement or Part 70 Permit Condition Attachment
Form TVPF46/12-24-98 (Modified to fit on one page)

Applicable Requirement or Part 70 Permit Condition

Citation, Including Attachment Number and/or Permit Condition Number: Attachment PO0997PC6, Condition No. 3 (a)	Description: Opacity limit of Ringelmann #1 on discharge into the atmosphere from within the permanent building equipped with exhaust filters at Building 311
---	--

Attach to this form any information specifically required to be submitted with the compliance certification in the applicable requirement or Part 70 permit condition.

1. Please indicate the method(s) that you use for determining compliance. Indicate the frequency of monitoring and indicate the source test reference method, if applicable.

The abrasive blast unit located at Building 311 has been out of service since March 2007.

2. Yes No Are you currently in compliance as indicated by the most recent monitoring measurement or observation as described above?

3. Please indicate if this compliance determination method is continuous or intermittent:

Intermittent - As indicated by non-continuous periodic monitoring

4. Yes No During the time period covered by this compliance certification, does the monitoring data indicate any excursions, if applicable?

An **excursion** is defined as "a departure from an indicator or surrogate parameter range established for monitoring under the applicable requirement or Part 70 permit condition, consistent with any averaging period specified for averaging the results of the monitoring."

5. Yes No During the time period covered by this compliance certification, does the monitoring data indicate any exceedances, if applicable?

An **exceedance** is defined as "a condition that is detected by monitoring that provides data in terms of an emission limitation or standard and that indicates that emissions (or opacity) are greater than the applicable emission limitation or standard (or less than the applicable standard in the case of percent reduction requirement) consistent with any averaging period specified for averaging the results of the monitoring."

6. Yes No During the time period covered by this compliance certification, do you have any other information or data that indicates that you are not in compliance?

Time Period Covered by Compliance Certification:

January 1, 2008 through December 31, 2008

Ventura County Air Pollution Control District
COMPLIANCE CERTIFICATION PERMIT FORM
Applicable Requirement or Part 70 Permit Condition Attachment
Form TVPF46/12-24-98 (Modified to fit on one page)

Applicable Requirement or Part 70 Permit Condition

Citation, Including Attachment Number and/or Permit Condition Number: Attachment PO0997PC6, Condition No. 3 (b)	Description: Requirement that confined abrasive blasting operations at Building 311 be controlled by a Torit Downflow II cartridge dust collector
---	--

Attach to this form any information specifically required to be submitted with the compliance certification in the applicable requirement or Part 70 permit condition.

1. Please indicate the method(s) that you use for determining compliance. Indicate the frequency of monitoring and indicate the source test reference method, if applicable.

Routine surveillance by NBVC Air Quality personnel is sufficient to verify that the Abrasive Blast Room and the Torit Downflow II dust collector operated properly throughout the compliance certification period. The abrasive blast unit located at Building 311 has been out of service since March 2007.

2. Yes No Are you currently in compliance as indicated by the most recent monitoring measurement or observation as described above?

3. Please indicate if this compliance determination method is continuous or intermittent:

Intermittent - As indicated by non-continuous periodic monitoring

4. Yes No During the time period covered by this compliance certification, does the monitoring data indicate any excursions, if applicable?

An **excursion** is defined as "a departure from an indicator or surrogate parameter range established for monitoring under the applicable requirement or Part 70 permit condition, consistent with any averaging period specified for averaging the results of the monitoring."

5. Yes No During the time period covered by this compliance certification, does the monitoring data indicate any exceedances, if applicable?

An **exceedance** is defined as "a condition that is detected by monitoring that provides data in terms of an emission limitation or standard and that indicates that emissions (or opacity) are greater than the applicable emission limitation or standard (or less than the applicable standard in the case of percent reduction requirement) consistent with any averaging period specified for averaging the results of the monitoring."

6. Yes No During the time period covered by this compliance certification, do you have any other information or data that indicates that you are not in compliance?

Time Period Covered by Compliance Certification:

January 1, 2008 through December 31, 2008

Ventura County Air Pollution Control District
COMPLIANCE CERTIFICATION PERMIT FORM
Applicable Requirement or Part 70 Permit Condition Attachment
Form TVPF46/12-24-98 (Modified to fit on one page)

Applicable Requirement or Part 70 Permit Condition

Citation, including Attachment Number and/or Permit Condition Number: Attachment PO0997PC6, Condition No. 3 (c)	Description: Performance and inspection requirement for the Torit Downflow II cartridge dust collector at Building 311
---	---

Attach to this form any information specifically required to be submitted with the compliance certification in the applicable requirement or Part 70 permit condition.

1. Please indicate the method(s) that you use for determining compliance. Indicate the frequency of monitoring and indicate the source test reference method, if applicable.

The abrasive blast unit located at Building 311 has been out of service since March 2007.

2. Yes No Are you currently in compliance as indicated by the most recent monitoring measurement or observation as described above? (Please see attached)

3. Please indicate if this compliance determination method is continuous or intermittent:

Intermittent - As indicated by non-continuous periodic monitoring

4. Yes No During the time period covered by this compliance certification, does the monitoring data indicate any excursions, if applicable?

An **excursion** is defined as "a departure from an indicator or surrogate parameter range established for monitoring under the applicable requirement or Part 70 permit condition, consistent with any averaging period specified for averaging the results of the monitoring."

5. Yes No During the time period covered by this compliance certification, does the monitoring data indicate any exceedances, if applicable?

An **exceedance** is defined as "a condition that is detected by monitoring that provides data in terms of an emission limitation or standard and that indicates that emissions (or opacity) are greater than the applicable emission limitation or standard (or less than the applicable standard in the case of percent reduction requirement) consistent with any averaging period specified for averaging the results of the monitoring."

6. Yes No During the time period covered by this compliance certification, do you have any other information or data that indicates that you are not in compliance? (Please see attached.)

Time Period Covered by Compliance Certification:

January 1, 2008 through December 31, 2008

Ventura County Air Pollution Control District
COMPLIANCE CERTIFICATION PERMIT FORM
 Applicable Requirement or Part 70 Permit Condition Attachment
 Form TVPF46/12-24-98 (Modified to fit on one page)

Applicable Requirement or Part 70 Permit Condition

Citation, including Attachment Number and/or Permit Condition Number: Attachment PO0997PC6, Condition No. 4, as applicable to Abrasive Blast Rooms at Building 311 and 3014	Description: Requirement for annual survey and certification of confined abrasive blasting operations
--	--

Attach to this form any information specifically required to be submitted with the compliance certification in the applicable requirement or Part 70 permit condition.

1. Please indicate the method(s) that you use for determining compliance. Indicate the frequency of monitoring and indicate the source test reference method, if applicable.

At 10:30 on November 18, 2008, the dust collection system exhaust port at the Building 3014 abrasive blast rooms was surveyed for the presence of visible emission. No visible emissions were observed during the survey. The abrasive blast unit located at Building 311 has been out of service since March 2007.

2. Yes No Are you currently in compliance as indicated by the most recent monitoring measurement or observation as described above?

3. Please indicate if this compliance determination method is continuous or intermittent:

Intermittent - As indicated by non-continuous periodic monitoring

4. Yes No During the time period covered by this compliance certification, does the monitoring data indicate any excursions, if applicable?

An **excursion** is defined as "a departure from an indicator or surrogate parameter range established for monitoring under the applicable requirement or Part 70 permit condition, consistent with any averaging period specified for averaging the results of the monitoring."

5. Yes No During the time period covered by this compliance certification, does the monitoring data indicate any exceedances, if applicable?

An **exceedance** is defined as "a condition that is detected by monitoring that provides data in terms of an emission limitation or standard and that indicates that emissions (or opacity) are greater than the applicable emission limitation or standard (or less than the applicable standard in the case of percent reduction requirement) consistent with any averaging period specified for averaging the results of the monitoring."

6. Yes No During the time period covered by this compliance certification, do you have any other information or data that indicates that you are not in compliance?

Time Period Covered by Compliance Certification:

January 1, 2008 through December 31, 2008

Ventura County Air Pollution Control District
COMPLIANCE CERTIFICATION PERMIT FORM
Applicable Requirement or Part 70 Permit Condition Attachment
Form TVPF46/12-24-98 (Modified to fit on one page)

Applicable Requirement or Part 70 Permit Condition

Citation, including Attachment Number and/or Permit Condition Number: Attachment PO0997PC6, Condition No. 5	Description: Requirement that abrasive blasting operation at Building 3014 be conducted inside a confined abrasive blasting room equipped with a media recovery system and a dust collection system
---	---

Attach to this form any information specifically required to be submitted with the compliance certification in the applicable requirement or Part 70 permit condition.

1. Please indicate the method(s) that you use for determining compliance. Indicate the frequency of monitoring and indicate the source test reference method, if applicable.

Building 3014 confined abrasive blast room is equipped with a media recovery system and a dust collection system for the control of particulate emissions.

2. Yes No Are you currently in compliance as indicated by the most recent monitoring measurement or observation as described above?

3. Please indicate if this compliance determination method is continuous or intermittent:

Intermittent - As indicated by non-continuous periodic monitoring

4. Yes No During the time period covered by this compliance certification, does the monitoring data indicate any excursions, if applicable?

An **excursion** is defined as "a departure from an indicator or surrogate parameter range established for monitoring under the applicable requirement or Part 70 permit condition, consistent with any averaging period specified for averaging the results of the monitoring."

5. Yes No During the time period covered by this compliance certification, does the monitoring data indicate any exceedances, if applicable?

An **exceedance** is defined as "a condition that is detected by monitoring that provides data in terms of an emission limitation or standard and that indicates that emissions (or opacity) are greater than the applicable emission limitation or standard (or less than the applicable standard in the case of percent reduction requirement) consistent with any averaging period specified for averaging the results of the monitoring."

6. Yes No During the time period covered by this compliance certification, do you have any other information or data that indicates that you are not in compliance?

Time Period Covered by Compliance Certification:

January 1, 2008 through December 31, 2008

Ventura County Air Pollution Control District
COMPLIANCE CERTIFICATION PERMIT FORM
Applicable Requirement or Part 70 Permit Condition Attachment
Form TVPF46/12-24-98 (Modified to fit on one page)

Applicable Requirement or Part 70 Permit Condition

Citation, Including Attachment Number and/or Permit Condition Number: Attachment PO0997PC7, Condition No. 1	Description: Requirement to monitor and record the level in the condensate collection tank at the Automotive Gasoline Bulk Plant
---	---

Attach to this form any information specifically required to be submitted with the compliance certification in the applicable requirement or Part 70 permit condition.

1. Please indicate the method(s) that you use for determining compliance. Indicate the frequency of monitoring and indicate the source test reference method, if applicable.

The Automotive Gasoline Bulk Plant is combined with the Automotive Gasoline Fuelling Facility, and is served by an underground condensate tank near Building 631. This tank is served by sensors, and is checked for condensate, and any condensate is removed. Records documenting the monitoring of the condensate tank and recording the volume of condensate removed are kept by the Supply Department, Fuel Branch.

2. Yes No Are you currently in compliance as indicated by the most recent monitoring measurement or observation as described above?

3. Please indicate if this compliance determination method is continuous or intermittent:

Intermittent - As indicated by non-continuous periodic monitoring

4. Yes No During the time period covered by this compliance certification, does the monitoring data indicate any excursions, if applicable?

An **excursion** is defined as "a departure from an indicator or surrogate parameter range established for monitoring under the applicable requirement or Part 70 permit condition, consistent with any averaging period specified for averaging the results of the monitoring."

5. Yes No During the time period covered by this compliance certification, does the monitoring data indicate any exceedances, if applicable?

An **exceedance** is defined as "a condition that is detected by monitoring that provides data in terms of an emission limitation or standard and that indicates that emissions (or opacity) are greater than the applicable emission limitation or standard (or less than the applicable standard in the case of percent reduction requirement) consistent with any averaging period specified for averaging the results of the monitoring."

6. Yes No During the time period covered by this compliance certification, do you have any other information or data that indicates that you are not in compliance?

Time Period Covered by Compliance Certification:

January 1, 2008 through December 31, 2008

Ventura County Air Pollution Control District
COMPLIANCE CERTIFICATION PERMIT FORM
Applicable Requirement or Part 70 Permit Condition Attachment
Form TVPF46/12-24-98 (Modified to fit on one page)

Applicable Requirement or Part 70 Permit Condition

Citation, Including Attachment Number and/or Permit Condition Number: Attachment PO0997PC7, Condition No. 2	Description: Non-federally enforceable requirement to operate the vapor recovery system on the loading rack at the Automotive Gasoline Bulk Plant in compliance with CARB Executive Order #G-70-124B
---	---

Attach to this form any information specifically required to be submitted with the compliance certification in the applicable requirement or Part 70 permit condition.

1. Please indicate the method(s) that you use for determining compliance. Indicate the frequency of monitoring and indicate the source test reference method, if applicable.

The loading rack is equipped with a vapor recovery system. Proper operation of the vapor recovery system is ensured by periodic monitoring by Supply Department, Fuel Branch personnel.

2. Yes Are you currently in compliance as indicated by the most recent monitoring
 No measurement or observation as described above?

3. Please indicate if this compliance determination method is continuous or intermittent:

Intermittent - As indicated by non-continuous periodic monitoring

4. Yes During the time period covered by this compliance certification, does the monitoring
 No data indicate any excursions, if applicable?

An **excursion** is defined as "a departure from an indicator or surrogate parameter range established for monitoring under the applicable requirement or Part 70 permit condition, consistent with any averaging period specified for averaging the results of the monitoring."

5. Yes During the time period covered by this compliance certification, does the monitoring
 No data indicate any exceedances, if applicable?

An **exceedance** is defined as "a condition that is detected by monitoring that provides data in terms of an emission limitation or standard and that indicates that emissions (or opacity) are greater than the applicable emission limitation or standard (or less than the applicable standard in the case of percent reduction requirement) consistent with any averaging period specified for averaging the results of the monitoring."

6. Yes During the time period covered by this compliance certification, do you have any other
 No information or data that indicates that you are not in compliance?

Time Period Covered by Compliance Certification:

January 1, 2008 through December 31, 2008

Ventura County Air Pollution Control District
COMPLIANCE CERTIFICATION PERMIT FORM
 Applicable Requirement or Part 70 Permit Condition Attachment
 Form TVPF46/12-24-98 (Modified to fit on one page)

Applicable Requirement or Part 70 Permit Condition

Citation, Including Attachment Number and/or Permit Condition Number: Attachment PO0997PC7, Condition No. 3	Description: Requirement that the Automotive Gasoline Bulk Plant not be used for the storage or transfer of Aviation Gasoline, and that only JP-5 fuel be stored in the former Aviation Gasoline Bulk Plant
--	---

Attach to this form any information specifically required to be submitted with the compliance certification in the applicable requirement or Part 70 permit condition.

1. Please indicate the method(s) that you use for determining compliance. Indicate the frequency of monitoring and indicate the source test reference method, if applicable.

The requirement that only JP-5 is stored in the former aviation gasoline bulk plant may be demonstrated by the fact that (6) of (8) similar 25,000 to 27,000 gallon fuel storage tanks at the fuel farm are labeled "JP-5", and are piped to a fuelling stand that is labeled "JP-5".

2. Yes No Are you currently in compliance as indicated by the most recent monitoring measurement or observation as described above?

3. Please indicate if this compliance determination method is continuous or intermittent:

Intermittent - As indicated by non-continuous periodic monitoring

4. Yes No During the time period covered by this compliance certification, does the monitoring data indicate any excursions, if applicable?

An **excursion** is defined as "a departure from an indicator or surrogate parameter range established for monitoring under the applicable requirement or Part 70 permit condition, consistent with any averaging period specified for averaging the results of the monitoring."

5. Yes No During the time period covered by this compliance certification, does the monitoring data indicate any exceedances, if applicable?

An **exceedance** is defined as "a condition that is detected by monitoring that provides data in terms of an emission limitation or standard and that indicates that emissions (or opacity) are greater than the applicable emission limitation or standard (or less than the applicable standard in the case of percent reduction requirement) consistent with any averaging period specified for averaging the results of the monitoring."

6. Yes No During the time period covered by this compliance certification, do you have any other information or data that indicates that you are not in compliance?

Time Period Covered by Compliance Certification:

January 1, 2008 through December 31, 2008

Ventura County Air Pollution Control District
COMPLIANCE CERTIFICATION PERMIT FORM
Applicable Requirement or Part 70 Permit Condition Attachment
Form TVPF46/12-24-98 (Modified to fit on one page)

Applicable Requirement or Part 70 Permit Condition

Citation, Including Attachment Number and/or Permit Condition Number: Attachment PO0997PC7, Condition No. 4	Description: Requirement that the condensate trap is located at the lowest point of the vapor return line, is self-evacuating, has access for inspection, is maintained in good working order, and that the maximum pressure through the system with the condensate trap in place drop not exceed 0.5 inches of wc at 60 scfh
---	--

Attach to this form any information specifically required to be submitted with the compliance certification in the applicable requirement or Part 70 permit condition.

1. Please indicate the method(s) that you use for determining compliance. Indicate the frequency of monitoring and indicate the source test reference method, if applicable.

The NEX Gas Station condensate trap is located at the lowest point of the vapor return line. It is self-evacuating and has an access for inspection. Periodic inspection of the condensate trap is conducted by the NBVC Air Quality Program to ensure it is in good working order. A dynamic pressure test was performed on 4/2/2008 verified that the maximum pressure drop was less than 0.5 inches of water at 60 scfh.

2. Yes Are you currently in compliance as indicated by the most recent monitoring measurement or observation as described above?
 No

3. Please indicate if this compliance determination method is continuous or intermittent:

Intermittent - As indicated by non-continuous periodic monitoring

4. Yes No During the time period covered by this compliance certification, does the monitoring data indicate any excursions, if applicable?

An **excursion** is defined as "a departure from an indicator or surrogate parameter range established for monitoring under the applicable requirement or Part 70 permit condition, consistent with any averaging period specified for averaging the results of the monitoring."

5. Yes No During the time period covered by this compliance certification, does the monitoring data indicate any exceedances, if applicable?

An **exceedance** is defined as "a condition that is detected by monitoring that provides data in terms of an emission limitation or standard and that indicates that emissions (or opacity) are greater than the applicable emission limitation or standard (or less than the applicable standard in the case of percent reduction requirement) consistent with any averaging period specified for averaging the results of the monitoring."

6. Yes No During the time period covered by this compliance certification, do you have any other information or data that indicates that you are not in compliance?

Time Period Covered by Compliance Certification:

January 1, 2008 through December 31, 2008

Ventura County Air Pollution Control District
COMPLIANCE CERTIFICATION PERMIT FORM
Applicable Requirement or Part 70 Permit Condition Attachment
Form TVPF46/12-24-98 (Modified to fit on one page)

Applicable Requirement or Part 70 Permit Condition

Citation, Including Attachment Number and/or Permit Condition Number: Attachment PO0997PC7, Condition No. 5	Description: Requirement to meet CARB requirements for enhanced vapor recovery (EVR) as specified in CARB Executive Order VR-102-A, that was triggered by a "Major Modification" to the Navy Exchange Gas Station
---	--

Attach to this form any information specifically required to be submitted with the compliance certification in the applicable requirement or Part 70 permit condition.

1. Please indicate the method(s) that you use for determining compliance. Indicate the frequency of monitoring and indicate the source test reference method, if applicable.

Phase I "Enhanced Vapor Recovery" was installed at the Navy Exchange Gas Station on or about April 11, 2003. Phase I product fill and vapor recovery adapters were tested for 360-degree rotation and torque on April 11, 2003.

2. Yes No Are you currently in compliance as indicated by the most recent monitoring measurement or observation as described above?

3. Please indicate if this compliance determination method is continuous or intermittent:

Intermittent - As indicated by non-continuous periodic monitoring

4. Yes No During the time period covered by this compliance certification, does the monitoring data indicate any excursions, if applicable?

An **excursion** is defined as "a departure from an indicator or surrogate parameter range established for monitoring under the applicable requirement or Part 70 permit condition, consistent with any averaging period specified for averaging the results of the monitoring."

5. Yes No During the time period covered by this compliance certification, does the monitoring data indicate any exceedances, if applicable?

An **exceedance** is defined as "a condition that is detected by monitoring that provides data in terms of an emission limitation or standard and that indicates that emissions (or opacity) are greater than the applicable emission limitation or standard (or less than the applicable standard in the case of percent reduction requirement) consistent with any averaging period specified for averaging the results of the monitoring."

6. Yes No During the time period covered by this compliance certification, do you have any other information or data that indicates that you are not in compliance?

Time Period Covered by Compliance Certification:

January 1, 2008 through December 31, 2008

Ventura County Air Pollution Control District
COMPLIANCE CERTIFICATION PERMIT FORM
Applicable Requirement or Part 70 Permit Condition Attachment
Form TVPF46/12-24-98 (Modified to fit on one page)

Applicable Requirement or Part 70 Permit Condition

Citation, Including Attachment Number and/or Permit Condition Number: Attachment PO0997PC7, Condition No. 6	Description: Requirement to check the liquid level in the condensate tank at the "Government Gasoline Station" (Building 631) and at the Fuel Farm
---	---

Attach to this form any information specifically required to be submitted with the compliance certification in the applicable requirement or Part 70 permit condition.

1. Please indicate the method(s) that you use for determining compliance. Indicate the frequency of monitoring and indicate the source test reference method, if applicable.

There are two condensate collection tanks, one in an underground vault near Building 631, and one above ground in the berm area adjacent to the 25,000-gallon above ground tanks. Both condensate tanks are checked regularly and drained as necessary. Records of fluid level inspections and liquid drained from the tanks are kept by the manager of the Supply Department, Fuel Branch.

2. Yes No Are you currently in compliance as indicated by the most recent monitoring measurement or observation as described above?

3. Please indicate if this compliance determination method is continuous or intermittent:

Intermittent - As indicated by non-continuous periodic monitoring

4. Yes No During the time period covered by this compliance certification, does the monitoring data indicate any excursions, if applicable?

An **excursion** is defined as "a departure from an indicator or surrogate parameter range established for monitoring under the applicable requirement or Part 70 permit condition, consistent with any averaging period specified for averaging the results of the monitoring."

5. Yes No During the time period covered by this compliance certification, does the monitoring data indicate any exceedances, if applicable?

An **exceedance** is defined as "a condition that is detected by monitoring that provides data in terms of an emission limitation or standard and that indicates that emissions (or opacity) are greater than the applicable emission limitation or standard (or less than the applicable standard in the case of percent reduction requirement) consistent with any averaging period specified for averaging the results of the monitoring."

6. Yes No During the time period covered by this compliance certification, do you have any other information or data that indicates that you are not in compliance?

Time Period Covered by Compliance Certification:

January 1, 2008 through December 31, 2008

Ventura County Air Pollution Control District
COMPLIANCE CERTIFICATION PERMIT FORM
 Applicable Requirement or Part 70 Permit Condition Attachment
 Form TVPF46/12-24-98 (Modified to fit on one page)

Applicable Requirement or Part 70 Permit Condition

Citation, Including Attachment Number and/or Permit Condition Number: Attachment PO0997PC7, Condition No.7	Description: The requirement to apply to re-bank the Emission Reduction Credits (ERCs) used to increase the allowable gasoline throughput at the Navy Exchange (NEX) Gasoline Station and either supply other ERCs, or reduce the gasoline throughput limit within the three years of the issuance of Permit to Operate Application NO. 00997-351
--	--

Attach to this form any information specifically required to be submitted with the compliance certification in the applicable requirement or Part 70 permit condition.

- Please indicate the method(s) that you use for determining compliance. Indicate the frequency of monitoring and indicate the source test reference method, if applicable.

The NBVC Environmental Division has informed the NEX to within the three years of the issuance of Permit to Operate either reduce its throughput where applicable and maintain it inside the original permitted limit, or acquire permanent ERCs to cover any real or projected excess .

- Yes Are you currently in compliance as indicated by the most recent monitoring measurement or observation as described above?
 No

- Please indicate if this compliance determination method is continuous or intermittent:

Intermittent - As indicated by non-continuous periodic monitoring

- Yes
 No During the time period covered by this compliance certification, does the monitoring data indicate any excursions, if applicable?

An **excursion** is defined as "a departure from an indicator or surrogate parameter range established for monitoring under the applicable requirement or Part 70 permit condition, consistent with any averaging period specified for averaging the results of the monitoring."

- Yes
 No During the time period covered by this compliance certification, does the monitoring data indicate any exceedances, if applicable?

An **exceedance** is defined as "a condition that is detected by monitoring that provides data in terms of an emission limitation or standard and that indicates that emissions (or opacity) are greater than the applicable emission limitation or standard (or less than the applicable standard in the case of percent reduction requirement) consistent with any averaging period specified for averaging the results of the monitoring."

- Yes
 No During the time period covered by this compliance certification, do you have any other information or data that indicates that you are not in compliance?

Time Period Covered by Compliance Certification:
January 1, 2008 through December 31, 2008

Ventura County Air Pollution Control District
COMPLIANCE CERTIFICATION PERMIT FORM
Applicable Requirement or Part 70 Permit Condition Attachment
Form TVPF46/12-24-98 (Modified to fit on one page)

Applicable Requirement or Part 70 Permit Condition

Citation, Including Attachment Number and/or Permit Condition Number: Attachment PO0997PC8, Condition No. 1(a)	Description: Requirement that all blowers or fans at the vapor extraction system at the Navy Exchange Gas Station be electrically powered
--	--

Attach to this form any information specifically required to be submitted with the compliance certification in the applicable requirement or Part 70 permit condition.

1. Please indicate the method(s) that you use for determining compliance. Indicate the frequency of monitoring and indicate the source test reference method, if applicable.

The vapor extraction system at the Navy Exchange Gasoline Station was not operational during the compliance certification period.

2. Yes Are you currently in compliance as indicated by the most recent monitoring measurement or observation as described above?
 No

3. Please indicate if this compliance determination method is continuous or intermittent:

Intermittent - As indicated by non-continuous periodic monitoring

4. Yes No During the time period covered by this compliance certification, does the monitoring data indicate any excursions, if applicable?

An **excursion** is defined as "a departure from an indicator or surrogate parameter range established for monitoring under the applicable requirement or Part 70 permit condition, consistent with any averaging period specified for averaging the results of the monitoring."

5. Yes No During the time period covered by this compliance certification, does the monitoring data indicate any exceedances, if applicable?

An **exceedance** is defined as "a condition that is detected by monitoring that provides data in terms of an emission limitation or standard and that indicates that emissions (or opacity) are greater than the applicable emission limitation or standard (or less than the applicable standard in the case of percent reduction requirement) consistent with any averaging period specified for averaging the results of the monitoring."

6. Yes No During the time period covered by this compliance certification, do you have any other information or data that indicates that you are not in compliance?

Time Period Covered by Compliance Certification:

January 1, 2008 through December 31, 2008

Ventura County Air Pollution Control District
COMPLIANCE CERTIFICATION PERMIT FORM
Applicable Requirement or Part 70 Permit Condition Attachment
Form TVPF46/12-24-98 (Modified to fit on one page)

Applicable Requirement or Part 70 Permit Condition

Citation, Including Attachment Number and/or Permit Condition Number: Attachment PO0997PC8, Condition No. 1(b)	Description: Requirement that any thermal or catalytic oxidizer be electrically operated or be fired on natural gas or propane with a rating of 1 MMBTU/hr or less
--	---

Attach to this form any information specifically required to be submitted with the compliance certification in the applicable requirement or Part 70 permit condition.

1. Please indicate the method(s) that you use for determining compliance. Indicate the frequency of monitoring and indicate the source test reference method, if applicable.

The vapor extraction system at the Navy Exchange Gasoline Station was not operational during the compliance certification period.

2. Yes Are you currently in compliance as indicated by the most recent monitoring measurement or observation as described above?
 No

3. Please indicate if this compliance determination method is continuous or intermittent:

Intermittent - As indicated by non-continuous periodic monitoring

4. Yes
 No During the time period covered by this compliance certification, does the monitoring data indicate any excursions, if applicable?

An **excursion** is defined as "a departure from an indicator or surrogate parameter range established for monitoring under the applicable requirement or Part 70 permit condition, consistent with any averaging period specified for averaging the results of the monitoring."

5. Yes
 No During the time period covered by this compliance certification, does the monitoring data indicate any exceedances, if applicable?

An **exceedance** is defined as "a condition that is detected by monitoring that provides data in terms of an emission limitation or standard and that indicates that emissions (or opacity) are greater than the applicable emission limitation or standard (or less than the applicable standard in the case of percent reduction requirement) consistent with any averaging period specified for averaging the results of the monitoring."

6. Yes
 No During the time period covered by this compliance certification, do you have any other information or data that indicates that you are not in compliance?

Time Period Covered by Compliance Certification:

January 1, 2008 through December 31, 2008

Ventura County Air Pollution Control District
COMPLIANCE CERTIFICATION PERMIT FORM
Applicable Requirement or Part 70 Permit Condition Attachment
Form TVPF46/12-24-98 (Modified to fit on one page)

Applicable Requirement or Part 70 Permit Condition

Citation, Including Attachment Number and/or Permit Condition Number: Attachment PO0997PC8, Condition No. 2	Description: Requirement that all wastewater collected from the vapor extraction system be stored in a covered container or tank, and that all tanks greater than 250 gallons use a submerged fill pipe
---	---

Attach to this form any information specifically required to be submitted with the compliance certification in the applicable requirement or Part 70 permit condition.

1. Please indicate the method(s) that you use for determining compliance. Indicate the frequency of monitoring and indicate the source test reference method, if applicable.

The vapor extraction system at the Navy Exchange Gasoline Station was not operational during the compliance certification period.

2. Yes Are you currently in compliance as indicated by the most recent monitoring measurement or observation as described above?
 No

3. Please indicate if this compliance determination method is continuous or intermittent:

Intermittent - As indicated by non-continuous periodic monitoring

4. Yes No During the time period covered by this compliance certification, does the monitoring data indicate any excursions, if applicable?

An **excursion** is defined as "a departure from an indicator or surrogate parameter range established for monitoring under the applicable requirement or Part 70 permit condition, consistent with any averaging period specified for averaging the results of the monitoring."

5. Yes No During the time period covered by this compliance certification, does the monitoring data indicate any exceedances, if applicable?

An **exceedance** is defined as "a condition that is detected by monitoring that provides data in terms of an emission limitation or standard and that indicates that emissions (or opacity) are greater than the applicable emission limitation or standard (or less than the applicable standard in the case of percent reduction requirement) consistent with any averaging period specified for averaging the results of the monitoring."

6. Yes No During the time period covered by this compliance certification, do you have any other information or data that indicates that you are not in compliance?

Time Period Covered by Compliance Certification:

January 1, 2008 through December 31, 2008

Ventura County Air Pollution Control District
COMPLIANCE CERTIFICATION PERMIT FORM
Applicable Requirement or Part 70 Permit Condition Attachment
Form TVPF46/12-24-98 (Modified to fit on one page)

Applicable Requirement or Part 70 Permit Condition

Citation, Including Attachment Number and/or Permit Condition Number: Attachment PO0997PC9, Condition No. 1	Description: Requirement and associated recordkeeping that ROC solvent usage in permitted dip tank not exceed 200 gallons per year
---	---

Attach to this form any information specifically required to be submitted with the compliance certification in the applicable requirement or Part 70 permit condition.

1. Please indicate the method(s) that you use for determining compliance. Indicate the frequency of monitoring and indicate the source test reference method, if applicable.

Usage of solvent in the dip tank at Building 333 is calculated from RHICS issue data. Usage is compiled into reports, which are used to document that usage did not exceed the 200 gallon limit during any of the twelve rolling-12-month periods during this compliance certification period.

2. Yes No Are you currently in compliance as indicated by the most recent monitoring measurement or observation as described above?

3. Please indicate if this compliance determination method is continuous or intermittent:

Intermittent - As indicated by non-continuous periodic monitoring

4. Yes No During the time period covered by this compliance certification, does the monitoring data indicate any excursions, if applicable?

An **excursion** is defined as "a departure from an indicator or surrogate parameter range established for monitoring under the applicable requirement or Part 70 permit condition, consistent with any averaging period specified for averaging the results of the monitoring."

5. Yes No During the time period covered by this compliance certification, does the monitoring data indicate any exceedances, if applicable?

An **exceedance** is defined as "a condition that is detected by monitoring that provides data in terms of an emission limitation or standard and that indicates that emissions (or opacity) are greater than the applicable emission limitation or standard (or less than the applicable standard in the case of percent reduction requirement) consistent with any averaging period specified for averaging the results of the monitoring."

6. Yes No During the time period covered by this compliance certification, do you have any other information or data that indicates that you are not in compliance?

Time Period Covered by Compliance Certification:

January 1, 2008 through December 31, 2008

Ventura County Air Pollution Control District
COMPLIANCE CERTIFICATION PERMIT FORM
Applicable Requirement or Part 70 Permit Condition Attachment
Form TVPF46/12-24-98 (Modified to fit on one page)

Applicable Requirement or Part 70 Permit Condition

Citation, Including Attachment Number and/or Permit Condition Number: Attachment PO0997PC9, Condition No. 2	Description: Requirement that only solvents having a vapor pressure less than 2 mmHg be used in the dip tank listed on the permit
---	--

Attach to this form any information specifically required to be submitted with the compliance certification in the applicable requirement or Part 70 permit condition.

1. Please indicate the method(s) that you use for determining compliance. Indicate the frequency of monitoring and indicate the source test reference method, if applicable.

A member of the NBVC Air Quality Program must approve all new uses of hazardous materials. The vapor pressure of the solvent used in the Bldg 333 dip tank is less than 2 mm Hg at 20 degrees C. as required.

2. Yes No Are you currently in compliance as indicated by the most recent monitoring measurement or observation as described above?

3. Please indicate if this compliance determination method is continuous or intermittent:

Intermittent - As indicated by non-continuous periodic monitoring

4. Yes No During the time period covered by this compliance certification, does the monitoring data indicate any excursions, if applicable?

An **excursion** is defined as "a departure from an indicator or surrogate parameter range established for monitoring under the applicable requirement or Part 70 permit condition, consistent with any averaging period specified for averaging the results of the monitoring."

5. Yes No During the time period covered by this compliance certification, does the monitoring data indicate any exceedances, if applicable?

An **exceedance** is defined as "a condition that is detected by monitoring that provides data in terms of an emission limitation or standard and that indicates that emissions (or opacity) are greater than the applicable emission limitation or standard (or less than the applicable standard in the case of percent reduction requirement) consistent with any averaging period specified for averaging the results of the monitoring."

6. Yes No During the time period covered by this compliance certification, do you have any other information or data that indicates that you are not in compliance?

Time Period Covered by Compliance Certification:

January 1, 2008 through December 31, 2008

Ventura County Air Pollution Control District
COMPLIANCE CERTIFICATION PERMIT FORM
Applicable Requirement or Part 70 Permit Condition Attachment
Form TVPF46/12-24-98 (Modified to fit on one page)

Applicable Requirement or Part 70 Permit Condition

Citation, Including Attachment Number and/or Permit Condition Number: Attachment PO0997PC9, Condition No. 3(a)	Description: Limit on the use of ROC solvent cleaning materials to 385 gallons per year, and a requirement to maintain monthly records of solvent purchase, usage, and disposal
--	--

Attach to this form any information specifically required to be submitted with the compliance certification in the applicable requirement or Part 70 permit condition.

1. Please indicate the method(s) that you use for determining compliance. Indicate the frequency of monitoring and indicate the source test reference method, if applicable.

Solvent purchase data is derived from a database. Solvent disposal data is derived from another database. Exempt solvent (solvent used outside of Ventura County or used for non-cleaning purposes) is documented in monthly logs. Solvent usage is calculated by subtracting disposal data and exempt solvent data from purchase data. Usage is compiled into 12-month cumulative reports.

2. Yes No Are you currently in compliance as indicated by the most recent monitoring measurement or observation as described above?

3. Please indicate if this compliance determination method is continuous or intermittent:

Intermittent - As indicated by non-continuous periodic monitoring

4. Yes No During the time period covered by this compliance certification, does the monitoring data indicate any excursions, if applicable?

An **excursion** is defined as "a departure from an indicator or surrogate parameter range established for monitoring under the applicable requirement or Part 70 permit condition, consistent with any averaging period specified for averaging the results of the monitoring."

5. Yes No During the time period covered by this compliance certification, does the monitoring data indicate any exceedances, if applicable?

An **exceedance** is defined as "a condition that is detected by monitoring that provides data in terms of an emission limitation or standard and that indicates that emissions (or opacity) are greater than the applicable emission limitation or standard (or less than the applicable standard in the case of percent reduction requirement) consistent with any averaging period specified for averaging the results of the monitoring."

6. Yes No During the time period covered by this compliance certification, do you have any other information or data that indicates that you are not in compliance?

Time Period Covered by Compliance Certification:

January 1, 2008 through December 31, 2008

Ventura County Air Pollution Control District
COMPLIANCE CERTIFICATION PERMIT FORM
Applicable Requirement or Part 70 Permit Condition Attachment
Form TVPF46/12-24-98 (Modified to fit on one page)

Applicable Requirement or Part 70 Permit Condition

Citation, Including Attachment Number and/or Permit Condition Number: Attachment PO0997PC9, Condition No. 3(b)	Description: Limit on the combined use of 1,1,1 trichloroethane and trichlorotrifluoroethane solvent cleaning materials to 100 gallons per year, and a requirement to maintain monthly records of solvent purchase, usage, and disposal
--	--

Attach to this form any information specifically required to be submitted with the compliance certification in the applicable requirement or Part 70 permit condition.

1. Please indicate the method(s) that you use for determining compliance. Indicate the frequency of monitoring and indicate the source test reference method, if applicable.

Records of issuance of all solvent materials are maintained by the RHICS database, and are compiled on a monthly basis. No 1,1,1 trichloroethane and trichlorotrifluoroethane were used during the compliance period.

2. Yes No Are you currently in compliance as indicated by the most recent monitoring measurement or observation as described above?

3. Please indicate if this compliance determination method is continuous or intermittent:

Intermittent - As indicated by non-continuous periodic monitoring

4. Yes No During the time period covered by this compliance certification, does the monitoring data indicate any excursions, if applicable?

An **excursion** is defined as "a departure from an indicator or surrogate parameter range established for monitoring under the applicable requirement or Part 70 permit condition, consistent with any averaging period specified for averaging the results of the monitoring."

5. Yes No During the time period covered by this compliance certification, does the monitoring data indicate any exceedances, if applicable?

An **exceedance** is defined as "a condition that is detected by monitoring that provides data in terms of an emission limitation or standard and that indicates that emissions (or opacity) are greater than the applicable emission limitation or standard (or less than the applicable standard in the case of percent reduction requirement) consistent with any averaging period specified for averaging the results of the monitoring."

6. Yes No During the time period covered by this compliance certification, do you have any other information or data that indicates that you are not in compliance?

Time Period Covered by Compliance Certification:

January 1, 2008 through December 31, 2008

Ventura County Air Pollution Control District
COMPLIANCE CERTIFICATION PERMIT FORM

Applicable Requirement or Part 70 Permit Condition

Citation, Including Attachment Number and/or Permit Condition Number: Attachment PO0997PC11	Description: Requirement that any equipment designated as "Out of Service" in Tables 2, 3, and 4 of this permit is shut down and not operated
---	--

Attach to this form any information specifically required to be submitted with the compliance certification in the applicable requirement or Part 70 permit condition.

1. Please indicate the method(s) that you use for determining compliance. Indicate the frequency of monitoring and indicate the source test reference method, if applicable.

All the equipments designated as "Out of Service" in Tables 2, 3, and 4 of this permit were shut down and not operated during the compliance period.

2. Yes No Are you currently in compliance as indicated by the most recent monitoring measurement or observation as described above?

3. Please indicate if this compliance determination method is continuous or intermittent:

Intermittent - As indicated by non-continuous periodic monitoring

4. Yes No During the time period covered by this compliance certification, does the monitoring data indicate any excursions, if applicable?

An **excursion** is defined as "a departure from an indicator or surrogate parameter range established for monitoring under the applicable requirement or Part 70 permit condition, consistent with any averaging period specified for averaging the results of the monitoring."

5. Yes No During the time period covered by this compliance certification, does the monitoring data indicate any exceedances, if applicable?

Form TVPF46/12-24-98 (Modified to fit on one page)

Applicable Requirement or Part 70 Permit Condition

Citation, Including Attachment Number and/or Permit Condition Number: Rule 50-- Opacity	Description: Prohibition of visible emissions, requirement for routine surveillance and a formal opacity survey
--	--

Attach to this form any information specifically required to be submitted with the compliance certification in the applicable requirement or Part 70 permit condition.

1. Please indicate the method(s) that you use for determining compliance. Indicate the frequency of monitoring and indicate the source test reference method, if applicable.

A formal survey by an untrained observer was conducted of emissions units at the facility. Survey was completed in December 2008. A lack of any visible emissions by the untrained observer demonstrates that no emissions greater than 20% opacity as read by a trained observer occurred during the survey.

2. Yes Are you currently in compliance as indicated by the most recent monitoring measurement or observation as described above?
 No

3. Please indicate if this compliance determination method is continuous or intermittent:

Intermittent - As indicated by non-continuous periodic monitoring

4. Yes
 No During the time period covered by this compliance certification, does the monitoring data indicate any excursions, if applicable?

An **excursion** is defined as "a departure from an indicator or surrogate parameter range established for monitoring under the applicable requirement or Part 70 permit condition, consistent with any averaging period specified for averaging the results of the monitoring."

5. Yes
 No During the time period covered by this compliance certification, does the monitoring data indicate any exceedances, if applicable?

An **exceedance** is defined as "a condition that is detected by monitoring that provides data in terms of an emission limitation or standard and that indicates that emissions (or opacity) are greater than the applicable emission limitation or standard (or less than the applicable standard in the case of percent reduction requirement) consistent with any averaging period specified for averaging the results of the monitoring."

6. Yes
 No During the time period covered by this compliance certification, do you have any other information or data that indicates that you are not in compliance?

Time Period Covered by Compliance Certification:

January 1, 2008 through December 31, 2008

Ventura County Air Pollution Control District
COMPLIANCE CERTIFICATION PERMIT FORM
Applicable Requirement or Part 70 Permit Condition Attachment
Form TVPF46/12-24-98 (Modified to fit on one page)

Applicable Requirement or Part 70 Permit Condition

Citation, Including Attachment Number and/or Permit Condition Number: Attachment 54.B.1	Description: Sulfur emissions at point of discharge
--	--

Attach to this form any information specifically required to be submitted with the compliance certification in the applicable requirement or Part 70 permit condition.

1. Please indicate the method(s) that you use for determining compliance. Indicate the frequency of monitoring and indicate the source test reference method, if applicable.

Compliance with Attachment 54.B.1 is demonstrated by compliance with Rule 64 as noted in the Applicability section of Attachment 54.B.1.

2. Yes Are you currently in compliance as indicated by the most recent monitoring measurement or observation as described above?
 No

3. Please indicate if this compliance determination method is continuous or intermittent:

Intermittent - As indicated by non-continuous periodic monitoring

4. Yes
 No During the time period covered by this compliance certification, does the monitoring data indicate any excursions, if applicable?

An **excursion** is defined as "a departure from an indicator or surrogate parameter range established for monitoring under the applicable requirement or Part 70 permit condition, consistent with any averaging period specified for averaging the results of the monitoring."

5. Yes
 No During the time period covered by this compliance certification, does the monitoring data indicate any exceedances, if applicable?

An **exceedance** is defined as "a condition that is detected by monitoring that provides data in terms of an emission limitation or standard and that indicates that emissions (or opacity) are greater than the applicable emission limitation or standard (or less than the applicable standard in the case of percent reduction requirement) consistent with any averaging period specified for averaging the results of the monitoring."

6. Yes
 No During the time period covered by this compliance certification, do you have any other information or data that indicates that you are not in compliance?

Time Period Covered by Compliance Certification:

January 1, 2008 through December 31, 2008

Ventura County Air Pollution Control District
COMPLIANCE CERTIFICATION PERMIT FORM
Applicable Requirement or Part 70 Permit Condition Attachment
Form TVPF46/12-24-98 (Modified to fit on one page)

Applicable Requirement or Part 70 Permit Condition

Citation, Including Attachment Number and/or Permit Condition Number: Attachment 54.B.2	Description: Ground or sea level sulfur emissions at or beyond the stationary source property line
--	---

Attach to this form any information specifically required to be submitted with the compliance certification in the applicable requirement or Part 70 permit condition.

1. Please indicate the method(s) that you use for determining compliance. Indicate the frequency of monitoring and indicate the source test reference method, if applicable.

Compliance with Attachment 54.B.2 is demonstrated by screening level dispersion modeling tests referenced in the Ventura County Air Pollution Control District (VCAPCD) Memorandum dated May 23, 1996, authored by Terri Thomas of the VCAPCD.

2. Yes No Are you currently in compliance as indicated by the most recent monitoring measurement or observation as described above?

3. Please indicate if this compliance determination method is continuous or intermittent:

Intermittent - As indicated by non-continuous periodic monitoring

4. Yes No During the time period covered by this compliance certification, does the monitoring data indicate any excursions, if applicable?

An **excursion** is defined as "a departure from an indicator or surrogate parameter range established for monitoring under the applicable requirement or Part 70 permit condition, consistent with any averaging period specified for averaging the results of the monitoring."

5. Yes No During the time period covered by this compliance certification, does the monitoring data indicate any exceedances, if applicable?

An **exceedance** is defined as "a condition that is detected by monitoring that provides data in terms of an emission limitation or standard and that indicates that emissions (or opacity) are greater than the applicable emission limitation or standard (or less than the applicable standard in the case of percent reduction requirement) consistent with any averaging period specified for averaging the results of the monitoring."

6. Yes No During the time period covered by this compliance certification, do you have any other information or data that indicates that you are not in compliance?

Time Period Covered by Compliance Certification:

January 1, 2008 through December 31, 2008

Ventura County Air Pollution Control District
COMPLIANCE CERTIFICATION PERMIT FORM
Applicable Requirement or Part 70 Permit Condition Attachment
Form TVPF46/12-24-98 (Modified to fit on one page)

Applicable Requirement or Part 70 Permit Condition

Citation, Including Attachment Number and/or Permit Condition Number: Attachment 57.1	Description: Limit on emissions of particulate matter to 0.12 pounds per MMBTU of fuel input
---	---

Attach to this form any information specifically required to be submitted with the compliance certification in the applicable requirement or Part 70 permit condition.

1. Please indicate the method(s) that you use for determining compliance. Indicate the frequency of monitoring and indicate the source test reference method, if applicable.

According to an analysis of the facility by the District using Rule 57.B dated December 3, 1997 periodic monitoring is not necessary to demonstrate compliance with Rule 57.1. Compliance with other conditions of this permit is sufficient to ensure compliance with Rule 57.1.

2. Yes No Are you currently in compliance as indicated by the most recent monitoring measurement or observation as described above?

3. Please indicate if this compliance determination method is continuous or intermittent:

Intermittent - As indicated by non-continuous periodic monitoring

4. Yes No During the time period covered by this compliance certification, does the monitoring data indicate any excursions, if applicable?

An **excursion** is defined as "a departure from an indicator or surrogate parameter range established for monitoring under the applicable requirement or Part 70 permit condition, consistent with any averaging period specified for averaging the results of the monitoring."

5. Yes No During the time period covered by this compliance certification, does the monitoring data indicate any exceedances, if applicable?

An **exceedance** is defined as "a condition that is detected by monitoring that provides data in terms of an emission limitation or standard and that indicates that emissions (or opacity) are greater than the applicable emission limitation or standard (or less than the applicable standard in the case of percent reduction requirement) consistent with any averaging period specified for averaging the results of the monitoring."

6. Yes No During the time period covered by this compliance certification, do you have any other information or data that indicates that you are not in compliance?

Time Period Covered by Compliance Certification:

January 1, 2008 through December 31, 2008

Ventura County Air Pollution Control District
COMPLIANCE CERTIFICATION PERMIT FORM
 Applicable Requirement or Part 70 Permit Condition Attachment
 Form TVPF46/12-24-98 (Modified to fit on one page)

Applicable Requirement or Part 70 Permit Condition

Citation, Including Attachment Number and/or Permit Condition Number: Attachment 64	Description: Sulfur Content of Fuels
---	--

Attach to this form any information specifically required to be submitted with the compliance certification in the applicable requirement or Part 70 permit condition.

1. Please indicate the method(s) that you use for determining compliance. Indicate the frequency of monitoring and indicate the source test reference method, if applicable.

9^N Compliance with Rule 64.B.1 is demonstrated by the fact that P.U.C. regulated natural gas is the only gaseous fuel combusted at this facility. Compliance with Rule 64.B.2 is demonstrated by the fact that the diesel fuel and reformulated gasoline combusted at this facility are CARB-certified. JP-8 is burned in the diesel engines of some ground support equipment and all jet engine test cells. All of these fuels comply with the 0.5% sulfur content limits of Rule 64. All JP-8 fuel complies with military specification MIL-DTL-83133E, which includes a maximum allowable sulfur content limit of 0.3%.

2. Yes Are you currently in compliance as indicated by the most recent monitoring measurement or observation as described above?
 No

3. Please indicate if this compliance determination method is continuous or intermittent:

Intermittent - As indicated by non-continuous periodic monitoring

4. Yes No During the time period covered by this compliance certification, does the monitoring data indicate any excursions, if applicable?

An **excursion** is defined as "a departure from an indicator or surrogate parameter range established for monitoring under the applicable requirement or Part 70 permit condition, consistent with any averaging period specified for averaging the results of the monitoring."

5. Yes No During the time period covered by this compliance certification, does the monitoring data indicate any exceedances, if applicable?

An **exceedance** is defined as "a condition that is detected by monitoring that provides data in terms of an emission limitation or standard and that indicates that emissions (or opacity) are greater than the applicable emission limitation or standard (or less than the applicable standard in the case of percent reduction requirement) consistent with any averaging period specified for averaging the results of the monitoring."

6. Yes No During the time period covered by this compliance certification, do you have any other information or data that indicates that you are not in compliance?

Time Period Covered by Compliance Certification:
January 1, 2008 through December 31, 2008

Ventura County Air Pollution Control District
COMPLIANCE CERTIFICATION PERMIT FORM
Applicable Requirement or Part 70 Permit Condition Attachment
Form TVPF46/12-24-98 (Modified to fit on one page)

Applicable Requirement or Part 70 Permit Condition

Citation, Including Attachment Number and/or Permit Condition Number: Attachment 74.6, Condition No. 1	Description: Surface Cleaning and Degreasing -- solvent properties
--	---

Attach to this form any information specifically required to be submitted with the compliance certification in the applicable requirement or Part 70 permit condition.

1. Please indicate the method(s) that you use for determining compliance. Indicate the frequency of monitoring and indicate the source test reference method, if applicable.

Compliance with ROC and vapor pressure limits are ensured by the fact that all solvents must be approved by Air Quality Program personnel before they can be purchased, issued, or used by any NBVC entity or tenant organization aboard NBVC.

2. Yes Are you currently in compliance as indicated by the most recent monitoring measurement or observation as described above?
 No

3. Please indicate if this compliance determination method is continuous or intermittent:

Intermittent - As indicated by non-continuous periodic monitoring

4. Yes No During the time period covered by this compliance certification, does the monitoring data indicate any excursions, if applicable?

An **excursion** is defined as "a departure from an indicator or surrogate parameter range established for monitoring under the applicable requirement or Part 70 permit condition, consistent with any averaging period specified for averaging the results of the monitoring."

5. Yes No During the time period covered by this compliance certification, does the monitoring data indicate any exceedances, if applicable?

An **exceedance** is defined as "a condition that is detected by monitoring that provides data in terms of an emission limitation or standard and that indicates that emissions (or opacity) are greater than the applicable emission limitation or standard (or less than the applicable standard in the case of percent reduction requirement) consistent with any averaging period specified for averaging the results of the monitoring."

6. Yes No During the time period covered by this compliance certification, do you have any other information or data that indicates that you are not in compliance?

Time Period Covered by Compliance Certification:

January 1, 2008 through December 31, 2008

Ventura County Air Pollution Control District
COMPLIANCE CERTIFICATION PERMIT FORM
 Applicable Requirement or Part 70 Permit Condition Attachment
 Form TVPF46/12-24-98 (Modified to fit on one page)

Applicable Requirement or Part 70 Permit Condition

Citation, Including Attachment Number and/or Permit Condition Number: Attachment 74.6, Condition Nos. 2 through 7	Description: Conditions relating to solvent processes and handling procedures
---	--

Attach to this form any information specifically required to be submitted with the compliance certification in the applicable requirement or Part 70 permit condition.

1. Please indicate the method(s) that you use for determining compliance. Indicate the frequency of monitoring and indicate the source test reference method, if applicable.

Compliance with Conditions 2 through 7 of Attachment 74.6 are verified by means of routine surveillance of solvent activities that are carried out by Environmental Division personnel during routine visits to subject facilities. Additionally, a formal inspection of all degreasing equipment was conducted in November 2008.

2. Yes Are you currently in compliance as indicated by the most recent monitoring measurement or observation as described above?
 No

3. Please indicate if this compliance determination method is continuous or intermittent:

Intermittent - As indicated by non-continuous periodic monitoring

4. Yes No During the time period covered by this compliance certification, does the monitoring data indicate any excursions, if applicable?

An **excursion** is defined as "a departure from an indicator or surrogate parameter range established for monitoring under the applicable requirement or Part 70 permit condition, consistent with any averaging period specified for averaging the results of the monitoring."

5. Yes No During the time period covered by this compliance certification, does the monitoring data indicate any exceedances, if applicable?

An **exceedance** is defined as "a condition that is detected by monitoring that provides data in terms of an emission limitation or standard and that indicates that emissions (or opacity) are greater than the applicable emission limitation or standard (or less than the applicable standard in the case of percent reduction requirement) consistent with any averaging period specified for averaging the results of the monitoring."

6. Yes No During the time period covered by this compliance certification, do you have any other information or data that indicates that you are not in compliance?

Time Period Covered by Compliance Certification:
January 1, 2008 through December 31, 2008

Ventura County Air Pollution Control District
COMPLIANCE CERTIFICATION PERMIT FORM
Applicable Requirement or Part 70 Permit Condition Attachment
Form TVPF46/12-24-98 (Modified to fit on one page)

Applicable Requirement or Part 70 Permit Condition

Citation, Including Attachment Number and/or Permit Condition Number: Attachment 74.6, Condition No. 8	Description: Equipment and work practice requirements applicable to all cold cleaners (except remote reservoir type) -- Measurement of freeboard height, verification of initial boiling point, ROC content, and ROC composite partial pressure
--	--

Attach to this form any information specifically required to be submitted with the compliance certification in the applicable requirement or Part 70 permit condition.

1. Please indicate the method(s) that you use for determining compliance. Indicate the frequency of monitoring and indicate the source test reference method, if applicable.

Inspection of one cold cleaner unit at Building 311 and one at Building 333 was conducted on 11/25/2008. Freeboard heights were found to be greater than 6", and solvents were found to have a vapor pressure less than 2mmHg @ 20 degrees Celsius on all units. Report showing actual freeboard heights, initial boiling points, ROC contents and ROC composite partial pressures associated with these units is available on request.

2. Yes Are you currently in compliance as indicated by the most recent monitoring measurement or observation as described above?
 No

3. Please indicate if this compliance determination method is continuous or intermittent:

Intermittent - As indicated by non-continuous periodic monitoring

4. Yes During the time period covered by this compliance certification, does the monitoring data indicate any excursions, if applicable?
 No

An **excursion** is defined as "a departure from an indicator or surrogate parameter range established for monitoring under the applicable requirement or Part 70 permit condition, consistent with any averaging period specified for averaging the results of the monitoring."

5. Yes During the time period covered by this compliance certification, does the monitoring data indicate any exceedances, if applicable?
 No

An **exceedance** is defined as "a condition that is detected by monitoring that provides data in terms of an emission limitation or standard and that indicates that emissions (or opacity) are greater than the applicable emission limitation or standard (or less than the applicable standard in the case of percent reduction requirement) consistent with any averaging period specified for averaging the results of the monitoring."

6. Yes During the time period covered by this compliance certification, do you have any other information or data that indicates that you are not in compliance?
 No

Time Period Covered by Compliance Certification:

January 1, 2008 through December 31, 2008

Ventura County Air Pollution Control District
COMPLIANCE CERTIFICATION PERMIT FORM
Applicable Requirement or Part 70 Permit Condition Attachment
Form TVPF46/12-24-98 (Modified to fit on one page)

Applicable Requirement or Part 70 Permit Condition

Citation, Including Attachment Number and/or Permit Condition Number: Attachment 74.6, Condition No. 9	Description: Equipment and work practice standards as applicable to remote reservoir cold cleaners -- Measurement of freeboard height, verification of initial boiling point, ROC content, and ROC composite partial pressure
--	--

Attach to this form any information specifically required to be submitted with the compliance certification in the applicable requirement or Part 70 permit condition.

1. Please indicate the method(s) that you use for determining compliance. Indicate the frequency of monitoring and indicate the source test reference method, if applicable.

An inspection of three remote reservoir cold cleaner units at Building 311 was conducted on 11/25/2008. Drain hole area was found to be <15 square inches, freeboard height was found to be greater than 6", and solvent was found to have a vapor pressure less than 2mmHg @ 20 degrees Celsius. Report showing actual freeboard height, initial boiling point, ROC content and ROC composite partial pressure associated with the unit is available on request.

2. Yes No Are you currently in compliance as indicated by the most recent monitoring measurement or observation as described above?

3. Please indicate if this compliance determination method is continuous or intermittent:

Intermittent - As indicated by non-continuous periodic monitoring

4. Yes No During the time period covered by this compliance certification, does the monitoring data indicate any excursions, if applicable?

An **excursion** is defined as "a departure from an indicator or surrogate parameter range established for monitoring under the applicable requirement or Part 70 permit condition, consistent with any averaging period specified for averaging the results of the monitoring."

5. Yes No During the time period covered by this compliance certification, does the monitoring data indicate any exceedances, if applicable?

An **exceedance** is defined as "a condition that is detected by monitoring that provides data in terms of an emission limitation or standard and that indicates that emissions (or opacity) are greater than the applicable emission limitation or standard (or less than the applicable standard in the case of percent reduction requirement) consistent with any averaging period specified for averaging the results of the monitoring."

6. Yes No During the time period covered by this compliance certification, do you have any other information or data that indicates that you are not in compliance?

Time Period Covered by Compliance Certification:

Applicable Requirement or Part 70 Permit Condition

Citation, Including Attachment Number and/or Permit Condition Number: Attachment 74.6, Condition Nos. 14 and 15	Description: Recordkeeping requirements associated with surface cleaning and degreasing and routine surveillance to comply with Rule 74.6
---	--

Attach to this form any information specifically required to be submitted with the compliance certification in the applicable requirement or Part 70 permit condition.

- Please indicate the method(s) that you use for determining compliance. Indicate the frequency of monitoring and indicate the source test reference method, if applicable.

Compliance with the requirement to maintain a current material list showing the name, ROC and vapor pressure, and intended uses of each solvent material is accomplished by means of a database that records each issuance of a solvent material to any operation aboard NBVC. For each issuance of material, this database contains a reference to the applicable MSDS sheet. The database also contains references to the recipient of the material, and ultimately to the screening sheet, which is the document that approved the material, and describes all intended uses. In addition, NBVC Environmental Division staff performs routine inspection of the applicable solvent cleaning activities to ensure compliance with Rule 74.6.

- Yes
 No
 Are you currently in compliance as indicated by the most recent monitoring measurement or observation as described above?

- Please indicate if this compliance determination method is continuous or intermittent:

Intermittent - As indicated by non-continuous periodic monitoring

- Yes
 No
 During the time period covered by this compliance certification, does the monitoring data indicate any excursions, if applicable?

An **excursion** is defined as "a departure from an indicator or surrogate parameter range established for monitoring under the applicable requirement or Part 70 permit condition, consistent with any averaging period specified for averaging the results of the monitoring."

- Yes
 No
 During the time period covered by this compliance certification, does the monitoring data indicate any exceedances, if applicable?

An **exceedance** is defined as "a condition that is detected by monitoring that provides data in terms of an emission limitation or standard and that indicates that emissions (or opacity) are greater than the applicable emission limitation or standard (or less than the applicable standard in the case of percent reduction requirement) consistent with any averaging period specified for averaging the results of the monitoring."

Applicable Requirement or Part 70 Permit Condition

Citation, Including Attachment Number and/or Permit Condition Number: Attachment 74.11.1	Description: Large water heaters and small boilers, steam generators and process heaters with a rated heat input capacity greater than 75,000 BTU/hr and less than or equal to 2,000,000 BTU/hr
---	--

Attach to this form any information specifically required to be submitted with the compliance certification in the applicable requirement or Part 70 permit condition.

1. Please indicate the method(s) that you use for determining compliance. Indicate the frequency of monitoring and indicate the source test reference method, if applicable.

Compliance with Attachment 74.11.1 is verified by means of routine surveillance of onboard contractor activities and NBVC Environmental Division review of all small boiler installations. Additionally, a formal inspection of all small boilers installed since 2000 has confirmed compliance with Attachment 74.11.1. A survey conducted on December 2008 indicated that no large water heaters, small boilers, steam generators, and process heaters with rated input capacity greater than 75,000 BTU/hr and less than or equal to 2,000,000 BTU/hr were installed at PM during the compliance period.

2. Yes Are you currently in compliance as indicated by the most recent monitoring measurement or observation as described above?
 No

3. Please indicate if this compliance determination method is continuous or intermittent:

Intermittent - As indicated by non-continuous periodic monitoring

4. Yes During the time period covered by this compliance certification, does the monitoring data indicate any excursions, if applicable?
 No

An **excursion** is defined as "a departure from an indicator or surrogate parameter range established for monitoring under the applicable requirement or Part 70 permit condition, consistent with any averaging period specified for averaging the results of the monitoring."

5. Yes During the time period covered by this compliance certification, does the monitoring data indicate any exceedances, if applicable?
 No

An **exceedance** is defined as "a condition that is detected by monitoring that provides data in terms of an emission limitation or standard and that indicates that emissions (or opacity) are greater than the applicable emission limitation or standard (or less than the applicable standard in the case of percent reduction requirement) consistent with any averaging period specified for averaging the results of the monitoring."

Form TVPF46/12-24-98 (Modified to fit on one page)

Applicable Requirement or Part 70 Permit Condition

Citation, Including Attachment Number and/or Permit Condition Number: Attachment 74.22	Description: Natural Gas-Fired Fan-Type Central Furnaces
---	---

Attach to this form any information specifically required to be submitted with the compliance certification in the applicable requirement or Part 70 permit condition.

1. Please indicate the method(s) that you use for determining compliance. Indicate the frequency of monitoring and indicate the source test reference method, if applicable.

Survey performed in December 2008 determined that no new furnaces were installed during this compliance certification period.

2. Yes No Are you currently in compliance as indicated by the most recent monitoring measurement or observation as described above?

3. Please indicate if this compliance determination method is continuous or intermittent:

Intermittent - As indicated by non-continuous periodic monitoring

4. Yes No During the time period covered by this compliance certification, does the monitoring data indicate any excursions, if applicable?

An **excursion** is defined as "a departure from an indicator or surrogate parameter range established for monitoring under the applicable requirement or Part 70 permit condition, consistent with any averaging period specified for averaging the results of the monitoring."

5. Yes No During the time period covered by this compliance certification, does the monitoring data indicate any exceedances, if applicable?

An **exceedance** is defined as "a condition that is detected by monitoring that provides data in terms of an emission limitation or standard and that indicates that emissions (or opacity) are greater than the applicable emission limitation or standard (or less than the applicable standard in the case of percent reduction requirement) consistent with any averaging period specified for averaging the results of the monitoring."

6. Yes No During the time period covered by this compliance certification, do you have any other information or data that indicates that you are not in compliance?

Time Period Covered by Compliance Certification:

January 1, 2008 through December 31, 2008

Ventura County Air Pollution Control District
COMPLIANCE CERTIFICATION PERMIT FORM

Applicable Requirement or Part 70 Permit Condition

Citation, Including Attachment Number and/or Permit Condition Number: Attachment 74.1, Condition No. 1	Description: Requirement that abrasive blasting of moveable items take place within a permanent building
--	---

Attach to this form any information specifically required to be submitted with the compliance certification in the applicable requirement or Part 70 permit condition.

1. Please indicate the method(s) that you use for determining compliance. Indicate the frequency of monitoring and indicate the source test reference method, if applicable.

As a Navy policy, all abrasive blasting of moveable items must take place within an abrasive blast room or an abrasive blast cabinet with a control device. Routine surveillance of general operations is sufficient to verify compliance.

2. Yes No Are you currently in compliance as indicated by the most recent monitoring measurement or observation as described above?

3. Please indicate if this compliance determination method is continuous or intermittent:

Intermittent - As indicated by non-continuous periodic monitoring

4. Yes No During the time period covered by this compliance certification, does the monitoring data indicate any excursions, if applicable?

An **excursion** is defined as "a departure from an indicator or surrogate parameter range established for monitoring under the applicable requirement or Part 70 permit condition, consistent with any averaging period specified for averaging the results of the monitoring."

5. Yes No During the time period covered by this compliance certification, does the monitoring data indicate any exceedances, if applicable?

An **exceedance** is defined as "a condition that is detected by monitoring that provides data in terms of an emission limitation or standard and that indicates that emissions (or opacity) are greater than the applicable emission limitation or standard (or less than the applicable standard in the case of percent reduction requirement) consistent with any averaging period specified for averaging the results of the monitoring."

6. Yes No During the time period covered by this compliance certification, do you have any other information or data that indicates that you are not in compliance?

Time Period Covered by Compliance Certification:

January 1, 2008 through December 31, 2008

Ventura County Air Pollution Control District
COMPLIANCE CERTIFICATION PERMIT FORM
 Applicable Requirement or Part 70 Permit Condition Attachment
 Form TVPF46/12-24-98 (Modified to fit on one page)

Applicable Requirement or Part 70 Permit Condition

Citation, including Attachment Number and/or Permit Condition Number: Attachment 74.1, Condition No. 2	Description: requirement that permissible outdoor blasting take place using approved methods
--	---

Attach to this form any information specifically required to be submitted with the compliance certification in the applicable requirement or Part 70 permit condition.

- Please indicate the method(s) that you use for determining compliance. Indicate the frequency of monitoring and indicate the source test reference method, if applicable.

All projects that would involve permissible outdoor blasting are required to go through the project review process. Such projects would therefore be reviewed by a member of the NBVC Air Quality Program, who would stipulate that all blasting be conducted in compliance with Rule 74.1.

- Yes No Are you currently in compliance as indicated by the most recent monitoring measurement or observation as described above?

- Please indicate if this compliance determination method is continuous or intermittent:

Intermittent - As indicated by non-continuous periodic monitoring

- Yes No During the time period covered by this compliance certification, does the monitoring data indicate any excursions, if applicable?

An **excursion** is defined as "a departure from an indicator or surrogate parameter range established for monitoring under the applicable requirement or Part 70 permit condition, consistent with any averaging period specified for averaging the results of the monitoring."

- Yes No During the time period covered by this compliance certification, does the monitoring data indicate any exceedances, if applicable?

An **exceedance** is defined as "a condition that is detected by monitoring that provides data in terms of an emission limitation or standard and that indicates that emissions (or opacity) are greater than the applicable emission limitation or standard (or less than the applicable standard in the case of percent reduction requirement) consistent with any averaging period specified for averaging the results of the monitoring."

- Yes No During the time period covered by this compliance certification, do you have any other information or data that indicates that you are not in compliance?

Time Period Covered by Compliance Certification:
January 1, 2008 through December 31, 2008

Ventura County Air Pollution Control District
COMPLIANCE CERTIFICATION PERMIT FORM
Applicable Requirement or Part 70 Permit Condition Attachment
Form TVPF46/12-24-98 (Modified to fit on one page)

Applicable Requirement or Part 70 Permit Condition

Citation, Including Attachment Number and/or Permit Condition Number: Attachment 74.1, Condition Nos. 3 and 4	Description: Requirements for the blasting of pavement and stucco
---	--

Attach to this form any information specifically required to be submitted with the compliance certification in the applicable requirement or Part 70 permit condition.

1. Please indicate the method(s) that you use for determining compliance. Indicate the frequency of monitoring and indicate the source test reference method, if applicable.

It is believed after reasonable inquiry that no projects involving abrasive blasting for pavement marking or abrasive blasting of stucco or concrete took place at the facility during the permit term.

2. Yes No Are you currently in compliance as indicated by the most recent monitoring measurement or observation as described above?

3. Please indicate if this compliance determination method is continuous or intermittent:

Intermittent - As indicated by non-continuous periodic monitoring

4. Yes No During the time period covered by this compliance certification, does the monitoring data indicate any excursions, if applicable?

An **excursion** is defined as "a departure from an indicator or surrogate parameter range established for monitoring under the applicable requirement or Part 70 permit condition, consistent with any averaging period specified for averaging the results of the monitoring."

5. Yes No During the time period covered by this compliance certification, does the monitoring data indicate any exceedances, if applicable?

An **exceedance** is defined as "a condition that is detected by monitoring that provides data in terms of an emission limitation or standard and that indicates that emissions (or opacity) are greater than the applicable emission limitation or standard (or less than the applicable standard in the case of percent reduction requirement) consistent with any averaging period specified for averaging the results of the monitoring."

6. Yes No During the time period covered by this compliance certification, do you have any other information or data that indicates that you are not in compliance?

Time Period Covered by Compliance Certification:

January 1, 2008 through December 31, 2008

Ventura County Air Pollution Control District
COMPLIANCE CERTIFICATION PERMIT FORM
Applicable Requirement or Part 70 Permit Condition Attachment
Form TVPF46/12-24-98 (Modified to fit on one page)

Applicable Requirement or Part 70 Permit Condition

Citation, Including Attachment Number and/or Permit Condition Number: Attachment 74.1, Condition No. 7	Description: Routine surveillance and recordkeeping associated with permissible outdoor blasting
--	---

Attach to this form any information specifically required to be submitted with the compliance certification in the applicable requirement or Part 70 permit condition.

1. Please indicate the method(s) that you use for determining compliance. Indicate the frequency of monitoring and indicate the source test reference method, if applicable.

All instances in which permissible outdoor blasting is conducted by a contractor are checked out by a member of the Air Quality Program. Blast media and methodology are verified to be in compliance with Rule 74.1.

2. Yes No Are you currently in compliance as indicated by the most recent monitoring measurement or observation as described above?

3. Please indicate if this compliance determination method is continuous or intermittent:

Intermittent - As indicated by non-continuous periodic monitoring

4. Yes No During the time period covered by this compliance certification, does the monitoring data indicate any excursions, if applicable?

An **excursion** is defined as "a departure from an indicator or surrogate parameter range established for monitoring under the applicable requirement or Part 70 permit condition, consistent with any averaging period specified for averaging the results of the monitoring."

5. Yes No During the time period covered by this compliance certification, does the monitoring data indicate any exceedances, if applicable?

An **exceedance** is defined as "a condition that is detected by monitoring that provides data in terms of an emission limitation or standard and that indicates that emissions (or opacity) are greater than the applicable emission limitation or standard (or less than the applicable standard in the case of percent reduction requirement) consistent with any averaging period specified for averaging the results of the monitoring."

6. Yes No During the time period covered by this compliance certification, do you have any other information or data that indicates that you are not in compliance?

Time Period Covered by Compliance Certification:

January 1, 2008 through December 31, 2008

Ventura County Air Pollution Control District
COMPLIANCE CERTIFICATION PERMIT FORM
 Applicable Requirement or Part 70 Permit Condition Attachment
 Form TVPF46/12-24-98 (Modified to fit on one page)

Applicable Requirement or Part 70 Permit Condition

Citation, Including Attachment Number and/or Permit Condition Number: Attachment 74.2, Condition Nos. 1 and 2	Description: VOC content limits for flat, nonflat, nonflat-high gloss, specialty, and industrial maintenance architectural coatings
---	--

Attach to this form any information specifically required to be submitted with the compliance certification in the applicable requirement or Part 70 permit condition.

1. Please indicate the method(s) that you use for determining compliance. Indicate the frequency of monitoring and indicate the source test reference method, if applicable.

All architectural coatings used aboard NBVC by NBVC organizations or tenant organizations must be approved for use by a committee that includes a member of the NBVC air quality team. Whenever a request is made for a coating that exceeds the limit for general architectural coatings, written information must be supplied as to the particular application, thus substantiating the need for a specialty coating. Specialty coatings are not approved without consulting the applicable rules.

2. Yes No Are you currently in compliance as indicated by the most recent monitoring measurement or observation as described above?

3. Please indicate if this compliance determination method is continuous or intermittent:

Intermittent - As indicated by non-continuous periodic monitoring

4. Yes No During the time period covered by this compliance certification, does the monitoring data indicate any excursions, if applicable?

An **excursion** is defined as "a departure from an indicator or surrogate parameter range established for monitoring under the applicable requirement or Part 70 permit condition, consistent with any averaging period specified for averaging the results of the monitoring."

5. Yes No During the time period covered by this compliance certification, does the monitoring data indicate any exceedances, if applicable?

An **exceedance** is defined as "a condition that is detected by monitoring that provides data in terms of an emission limitation or standard and that indicates that emissions (or opacity) are greater than the applicable emission limitation or standard (or less than the applicable standard in the case of percent reduction requirement) consistent with any averaging period specified for averaging the results of the monitoring."

6. Yes No During the time period covered by this compliance certification, do you have any other information or data that indicates that you are not in compliance?

Time Period Covered by Compliance Certification:

January 1, 2008 through December 31, 2008

Ventura County Air Pollution Control District
COMPLIANCE CERTIFICATION PERMIT FORM
Applicable Requirement or Part 70 Permit Condition Attachment
Form TVPF46/12-24-98 (Modified to fit on one page)

Applicable Requirement or Part 70 Permit Condition

Citation, Including Attachment Number and/or Permit Condition Number: Attachment 74.2, Condition No. 3	Description: Requirement that all the architectural coating which are applied directly from the containers, and any VOC-containing materials used for thinning and cleanup be stored in closed containers when not in use
--	--

Attach to this form any information specifically required to be submitted with the compliance certification in the applicable requirement or Part 70 permit condition.

1. Please indicate the method(s) that you use for determining compliance. Indicate the frequency of monitoring and indicate the source test reference method, if applicable.

Compliance with this requirement is maintained by routine inspection of hazardous material storage areas by NBVC Environmental Division Field Operations personnel.

2. Yes No Are you currently in compliance as indicated by the most recent monitoring measurement or observation as described above?

3. Please indicate if this compliance determination method is continuous or intermittent:

Intermittent - As indicated by non-continuous periodic monitoring

4. Yes No During the time period covered by this compliance certification, does the monitoring data indicate any excursions, if applicable?

An **excursion** is defined as "a departure from an indicator or surrogate parameter range established for monitoring under the applicable requirement or Part 70 permit condition, consistent with any averaging period specified for averaging the results of the monitoring."

5. Yes No During the time period covered by this compliance certification, does the monitoring data indicate any exceedances, if applicable?

An **exceedance** is defined as "a condition that is detected by monitoring that provides data in terms of an emission limitation or standard and that indicates that emissions (or opacity) are greater than the applicable emission limitation or standard (or less than the applicable standard in the case of percent reduction requirement) consistent with any averaging period specified for averaging the results of the monitoring."

6. Yes No During the time period covered by this compliance certification, do you have any other information or data that indicates that you are not in compliance?

Time Period Covered by Compliance Certification:

January 1, 2008 through December 31, 2008

Ventura County Air Pollution Control District
COMPLIANCE CERTIFICATION PERMIT FORM
Applicable Requirement or Part 70 Permit Condition Attachment
Form TVPF46/12-24-98 (Modified to fit on one page)

Applicable Requirement or Part 70 Permit Condition

Citation, Including Attachment Number and/or Permit Condition Number: Attachment 74.2, Condition No. 4	Description: Requirement to comply with the architectural coating VOC limits specified in Rule 74.2.B.1
--	--

Attach to this form any information specifically required to be submitted with the compliance

1. Please indicate the method(s) that you use for determining compliance. Indicate the frequency of monitoring and indicate the source test reference method, if applicable.

All architectural coatings applied aboard NBVC by NBVC organizations and tenant organizations comply with the limits specified in Rule 74.2.B.1. All architectural coating activities carried out by contractors are reviewed by the NBVC Project Review Board prior to commencement of projects. The Project Review Board requires all contractors doing business with NBVC to comply with VCAPCD Rules and Regulations.

2. Yes No Are you currently in compliance as indicated by the most recent monitoring measurement or observation as described above?

3. Please indicate if this compliance determination method is continuous or intermittent:

Intermittent - As indicated by non-continuous periodic monitoring

4. Yes No During the time period covered by this compliance certification, does the monitoring data indicate any excursions, if applicable?

An **excursion** is defined as "a departure from an indicator or surrogate parameter range established for monitoring under the applicable requirement or Part 70 permit condition, consistent with any averaging period specified for averaging the results of the monitoring."

5. Yes No During the time period covered by this compliance certification, does the monitoring data indicate any exceedances, if applicable?

An **exceedance** is defined as "a condition that is detected by monitoring that provides data in terms of an emission limitation or standard and that indicates that emissions (or opacity) are greater than the applicable emission limitation or standard (or less than the applicable standard in the case of percent reduction requirement) consistent with any averaging period specified for averaging the results of the monitoring."

6. Yes No During the time period covered by this compliance certification, do you have any other information or data that indicates that you are not in compliance?

Time Period Covered by Compliance Certification:

January 1, 2008 through December 31, 2008

Ventura County Air Pollution Control District
COMPLIANCE CERTIFICATION PERMIT FORM
Applicable Requirement or Part 70 Permit Condition Attachment
Form TVPF46/12-24-98 (Modified to fit on one page)

Applicable Requirement or Part 70 Permit Condition

Citation, Including Attachment Number and/or Permit Condition Number: Attachment 74.2, Condition No. 5	Description: Requirement to specify VOC compliant architectural coatings, and to maintain VOC records of coatings used
--	---

Attach to this form any information specifically required to be submitted with the compliance certification in the applicable requirement or Part 70 permit condition.

1. Please indicate the method(s) that you use for determining compliance. Indicate the frequency of monitoring and indicate the source test reference method, if applicable.

All architectural coatings used aboard NBVC by NBVC organizations or tenant organizations must be approved for use by a committee that includes a member of the NBVC air quality team. A record of all coatings issued to NBVC organization (that do not require a permit) is maintained within the RHICS database. A record of all coatings applied to process and industrial equipment by contractors is kept by the NBVC environmental office, and is compiled as required to demonstrate compliance with the usage limit on Table 3.

2. Yes No Are you currently in compliance as indicated by the most recent monitoring measurement or observation as described above?

3. Please indicate if this compliance determination method is continuous or intermittent:

Intermittent - As indicated by non-continuous periodic monitoring

4. Yes No During the time period covered by this compliance certification, does the monitoring data indicate any excursions, if applicable?

An **excursion** is defined as "a departure from an indicator or surrogate parameter range established for monitoring under the applicable requirement or Part 70 permit condition, consistent with any averaging period specified for averaging the results of the monitoring."

5. Yes No During the time period covered by this compliance certification, does the monitoring data indicate any exceedances, if applicable?

An **exceedance** is defined as "a condition that is detected by monitoring that provides data in terms of an emission limitation or standard and that indicates that emissions (or opacity) are greater than the applicable emission limitation or standard (or less than the applicable standard in the case of percent reduction requirement) consistent with any averaging period specified for averaging the results of the monitoring."

6. Yes No During the time period covered by this compliance certification, do you have any other information or data that indicates that you are not in compliance?

Time Period Covered by Compliance Certification:

January 1, 2008 through December 31, 2008

Ventura County Air Pollution Control District
COMPLIANCE CERTIFICATION PERMIT FORM
Applicable Requirement or Part 70 Permit Condition Attachment

Form TVPF46/12-24-98 (Modified to fit on one page)

Applicable Requirement or Part 70 Permit Condition

Citation, Including Attachment Number and/or Permit Condition Number: Attachment 74.27	Description: Short-term gasoline and ROC liquid storage tank degassing operations
---	--

Attach to this form any information specifically required to be submitted with the compliance

1. Please indicate the method(s) that you use for determining compliance. Indicate the frequency of monitoring and indicate the source test reference method, if applicable.

Through the Government Review Process, the Air Quality Program staff is notified of any planned large projects that may involve emissions of air contaminants. The Air Program staff reviews the applicability of air regulations to the project and inspects the activities, as needed. Degassing of a fuel farm 20,000 gallon unleaded gasoline storage tank was performed on 7/21/2008.

2. Yes No Are you currently in compliance as indicated by the most recent monitoring measurement or observation as described above?

3. Please indicate if this compliance determination method is continuous or intermittent:

Intermittent - As indicated by non-continuous periodic monitoring

4. Yes No During the time period covered by this compliance certification, does the monitoring data indicate any excursions, if applicable?

An **excursion** is defined as "a departure from an indicator or surrogate parameter range established for monitoring under the applicable requirement or Part 70 permit condition, consistent with any averaging period specified for averaging the results of the monitoring."

5. Yes No During the time period covered by this compliance certification, does the monitoring data indicate any exceedances, if applicable?

An **exceedance** is defined as "a condition that is detected by monitoring that provides data in terms of an emission limitation or standard and that indicates that emissions (or opacity) are greater than the applicable emission limitation or standard (or less than the applicable standard in the case of percent reduction requirement) consistent with any averaging period specified for averaging the results of the monitoring."

6. Yes No During the time period covered by this compliance certification, do you have any other information or data that indicates that you are not in compliance?

Time Period Covered by Compliance Certification:

January 1, 2008 through December 31, 2008

Uniform Straight Bill of Lading

Received, subject to the tariffs or contract in effect on the date of the issue of this Bill of Lading and to the additional conditions as shown below.

Important - do not unload truck until sample of contents has been checked with stock specified on this order. Check all valves and lines so that correct ones will be used.

Note - this is a consolidated form used for purposes of expediting the handling of all shipments from the supplier company's plants.

Additional Conditions of Carriage

Carrier (the word "carrier" being understood as including any person or corporation in possession of the property) has received from Shipper the property described on the face hereof in apparent good order which said carrier agrees to transport and deliver to consignee at his usual place of delivery if on carrier's own line or route; otherwise to deliver to another carrier on the route to said destination. It is mutually agreed that the transportation services hereunder are subject to all of the printed terms and conditions of any applicable motor carrier tariff which are essentially comparable to the provisions of the Uniform Straight Bill of Lading as generally used for rail shipments. "Contract" or "anywhere for-hire" services will be subject to the terms and conditions of the contact service order or other agreement executed or agreed to between the parties hereto in case of conflict with the foregoing or where not covered by the foregoing.

When carriage is by vehicle owned or operated by shipper or by a buyer, the terms "Bill of Lading," "Tariffs," and other words and provisions peculiarly applicable to common or contract carriers shall be disregarded. In any event, if delivery of the property described hereon is F.O.B. origin and made into a vehicle owned, leased, or operated by a buyer, this form shall constitute a delivery receipt for the property described hereon in good order, and the title to such property shall pass to the buyer at point of origin.

Truck No. 105	Trailer No. 45A	Port of Exit No. #1 Z
Seal No.	State Permit/LFCL No.	Origin

Subject to any provision of any applicable tariff which is essentially comparable to Section 7 of the Uniform Straight Bill of Lading, if this shipment is to be delivered to the consignee without recourse on the consignor, the consignor shall sign the following statement.	The carrier shall not make delivery of this shipment without payment of freight and all other lawful charges. Signature of Consignor _____	<input type="checkbox"/> Prepaid
		<input type="checkbox"/> Collect

This is to certify that the herein named materials are properly classified, described, package, marked, and labeled, and are in proper condition for transportation, according to the applicable regulations of the Department of Transportation. The carrier certifies that the cargo tank supplied for this shipment is a proper container for the transportation of this commodity as described by the shipper.

Received, subject to the tariffs or contract in effect on the date of the issue of this Bill of Lading and to the additional conditions as shown below.

Important - do not unload truck until sample of contents has been checked with stock specified on this order. Check all valves and lines so that correct ones will be used.

Note - this is a consolidated form used for purposes of expediting the handling of all shipments from the supplier company's plants.

Additional Conditions of Carriage

Carrier (the word "carrier" being understood as including any person or corporation in possession of the property) has received from Shipper the property described on the face hereof in apparent good order which said carrier agrees to transport and deliver to consignee at his usual place of delivery if on carrier's own line or route; otherwise to deliver to another carrier on the route to said destination. It is mutually agreed that the transportation services hereunder are subject to all of the printed terms and conditions of any applicable motor carrier tariff which are essentially comparable to the provisions of the Uniform Straight Bill of Lading as generally used for rail shipments. "Contract" or "anywhere for-hire" services will be subject to the terms and conditions of the contact service order or other agreement executed or agreed to between the parties hereto in case of conflict with the foregoing or where not covered by the foregoing.

When carriage is by vehicle owned or operated by shipper or by a buyer, the terms "Bill of Lading," "Tariffs," and other words and provisions peculiarly applicable to common or contract carriers shall be disregarded. In any event, if delivery of the property described hereon is F.O.B. origin and made into a vehicle owned, leased, or operated by a buyer, this form shall constitute a delivery receipt for the property described hereon in good order, and the title to such property shall pass to the buyer at point of origin.

Truck No. 87	Trailer No. 23A	Port of Exit No. 4
Seal No.	State Permit/LFCL No.	Origin

Subject to any provision of any applicable tariff which is essentially comparable to Section 7 of the Uniform Straight Bill of Lading, if this shipment is to be delivered to the consignee without recourse on the consignor, the consignor shall sign the following statement.

The carrier shall not make delivery of this shipment without payment of freight and all other lawful charges.

HIGHWAY TRANSPORTATION RECEIPT

PM

(LOADING TICKET)

ORIGINAL BILL OF LADING—NOT NEGOTIABLE

RECEIVED, THE PROPERTY DESCRIBED BELOW, IN APPARENT GOOD ORDER WHICH SAID TRANSPORTATION COMPANY (THE WORD "COMPANY" BEING UNDERSTOOD AS INCLUDING ANY PERSON OR CORPORATION IN POSSESSION OF THE PROPERTY) AGREES TO TRANSPORT AND DELIVER TO CONSIGNEE AT HIS USUAL PLACE OF DELIVERY (IF ON ITS OWN LINE OR ROUTE), OTHERWISE TO DELIVER TO ANOTHER CARRIER ON THE ROUTE TO SAID DESTINATION. IT IS MUTUALLY AGREED THAT THE TRANSPORTATION SERVICES HEREUNDER ARE SUBJECT TO ALL THE PRINTED TERMS AND CONDITIONS NOT PROHIBITED BY LAW, OF THE "TRANSPORTATION COMPANY'S" UNIFORM BILL OF LADING. "CONTRACT" OR "ANYWHERE-FOR-HIRE" SERVICES WILL BE SUBJECT TO THE TERMS AND CONDITIONS OF THE CONTRACT, SERVICE ORDER OR OTHER AGREEMENT EXECUTED OR AGREED TO BETWEEN PARTIES HERETO WHEN NOT IN CONTRAVENTION OF ANY EXISTING LAW. WHEN MOVEMENT IS IN A VEHICLE OPERATED BY SHIPPER, OR OWNER OF PRODUCT, THIS DOCUMENT SERVES ONLY AS A RECEIPT FOR PRODUCT LOADED.

STATE EXCISE TAX, IF ANY, ON MOTOR VEHICLE FUEL COVERED BY THIS LOADING TICKET HAS BEEN ASSUMED AND WILL BE PAID BY THE SHIPPER.

CARRIER CERTIFIES THAT THE CARGO TANK SUPPLIED FOR THIS SHIPMENT IS A PROPER CONTAINER FOR THE TRANSPORTATION OF THIS COMMODITY AND COMPLIES WITH THE DEPT. OF TRANSPORTATION SPECIFICATIONS AND REGULATIONS FOR THE TRANSPORTATION OF EXPLOSIVES AND OTHER DANGEROUS ARTICLES.

THIS IS TO CERTIFY THAT THE BELOW-NAMED MATERIALS ARE PROPERLY CLASSIFIED, DESCRIBED, PACKAGED, MARKED, AND LABELED, AND ARE IN PROPER CONDITION FOR TRANSPORTATION, ACCORDING TO THE APPLICABLE REGULATIONS OF THE DEPT. OF TRANSPORTATION.

NOTE: NET VOLUME HAS BEEN ADJUSTED TO 60° F.

Source Test Report NO_x and CO Testing on Seven Boilers at the Naval Base Ventura County

EXECUTIVE SUMMARY

Naval Base Ventura County (NBVC) retained URS Corporation (URS) to conduct testing on eight boilers located at the NBVC Point Mugu and NBVC Port Hueneme, California facilities. However, only seven of the eight boilers were tested during this event due to the mechanical failure of critical components which rendered the Building 2 boiler inoperable and thus precluded testing of this boiler as required. This testing was conducted according to the test plan sent to Mr. Lyle Olson, Ventura County Air Pollution Control District (VCAPCD) dated January 2, 2008. The purpose of this testing was to demonstrate compliance with VCAPCD Rules 74.15, 74.15.1, Title V permit 00997, and Title V Permit 1006. The permit conditions require oxides of nitrogen (NO_x) emissions to be less than 30 parts per million by volume (ppmv) and carbon monoxide (CO) emissions to be less than 400 ppmv, both corrected to 3% oxygen (O₂) on a dry basis for all the boilers tested with the exception of Wharves 3 and 4. Title V Permit 1006 requires oxides of nitrogen (NO_x) emissions at Wharves 3 and 4 to be less than 12 parts per million by volume (ppmv) and carbon monoxide (CO) emissions to be less than 400 ppmv, both corrected to 3% oxygen (O₂) on a dry basis. This document reports the test results of the testing conducted on January 22 through 24, 2008.

The data from all tests performed are included in Appendix A.

Table ES-1 summarizes the testing results.

Boiler	2.5 MMBTU Ajax, low nox, bldg 20	12/15/2008	N	Y	
Boiler	4.25 MMBTU Ajax, low nox, bldg 36	12/15/2008	N	Y	
Boiler	7.3 MMBTU Hurst, fgr, bldg 36	12/15/2008	N	N	
Boiler	3.0 MMBTU Hurst, fgr, bldg 351	12/17/2008	N	Y	FGR OK
Boiler	3.0 MMBTU Hurst, fgr, bldg 355	12/17/2008	N	Y	FGR OK
Test Cell	Portable test stand, bldg 758		N/A	N/A	Removed from the Service
Test Cell	Portable test stand, bldg 758	12/10/2008	N	N	West of (2)
Test Cell	Target testing op., bldg 393	12/18/2008	N	N	
Test Cell	Target testing op., bldg 557	12/18/2008	N	N	
Engine	100 BHP Ford, gas, LSG-423	12/16/2008	N	N	Sewer Cleaner -Behind Bldg 60
Engine	173 BHP Daimler/Chrysler AG diesel crane	12/18/2008	N	N	PH
Engine	115 BHP John Deere sweeper aux	12/16/2008	N	N	Elgin "Crosswind - Behind Bldg 60
Engine	80 BHP Perkins sweeper aux	12/16/2008	N	N	Swartze - Behind Bldg 60
Engine	80.5 BHP Mitsubishi diesel, sweeper aux.	12/16/2008	N	N	New Swartze - Behind Bldg 60
Engine	75 BHP J. Deere diesel, sweeper aux	12/18/2008	N	N	5721R aka 57-04777 - PH- Will be sent to DRMO
Engine	140 BHP J. Deere diesel, sweeper aux.		N/A	N/A	Removed from the Service
Engine	100 BHP Cummins diesel generator	12/16/2008	N	N	60-3B - Behind Bldg 60
Engine	100 BHP Cummins diesel generator	12/16/2008	N	N	60-4B - Behind Bldg 60
Engine	65 BHP Wisconsin gas, runway arresting gear	12/22/2008	N	Y	
Engine	65 BHP Wisconsin gas, runway arresting gear	12/22/2008	N	Y	
Engine	65 BHP Wisconsin gas, runway arresting gear	12/22/2008	N	Y	
Engine	65 BHP Wisconsin gas, runway arresting gear	12/22/2008	N	Y	
Engine	65 BHP Wisconsin gas, runway arresting gear	12/22/2008	N	Y	
Engine	65 BHP Wisconsin gas, runway arresting gear	12/22/2008	N	Y	
Engine	65 BHP Wisconsin gas, runway arresting gear	12/22/2008	N	Y	
Engine	65 BHP Wisconsin gas, runway arresting gear	12/22/2008	N	Y	
Standby Stationary Engine	166 BHP Perkins diesel generator, bldg 915-1	12/9/2008	N	N	

2008 NBVC Point Mugu Opacity Survey Result

Equipment Category	Description of Equipment in Permit Table (abbreviated)	Date of Equipment Inspection	Opacity Noted (Y/N)	Operating During Inspection (Y/N)	Comments
Standby Stationary Engine	166 BHP Perkins diesel generator, bldg 915-1	12/9/2008	N	N	
Emerg. Stationary Engine	300 BHP Caterpillar diesel generator, bldg 13	12/16/2008	N	N	
Emerg. Stationary Engine	112 BHP Hino diesel generator, bldg 14	12/16/2008	N	N	
Emerg. Stationary Engine	76 BHP Hino diesel generator, bldg 3	12/16/2008	N	N	
Emerg. Stationary Engine	1588 BHP Caterpillar diesel generator, bldg 3008	12/16/2008	N	N	
Emerg. Stationary Engine	1588 BHP Caterpillar diesel generator, bldg 3015	12/16/2008	N	N	
Emerg. Stationary Engine	218 BHP Hercules diesel generator, bldg 303	12/16/2008	N	N	
Emerg. Stationary Engine	160 BHP Ford diesel generator, bldg 308	12/16/2008	N	N	
Emerg. Stationary Engine	99 BHP Cummins diesel generator, bldg 322	12/16/2008	N	N	
Emerg. Stationary Engine	170 BHP Cummins diesel generator, bldg 355	12/16/2008	N	N	
Emerg. Stationary Engine	288 BHP Cummins diesel generator, bldg 359	12/16/2008	N	N	
Emerg. Stationary Engine	355 BHP Cummins diesel generator, bldg 369	12/16/2008	N	N	
Emerg. Stationary Engine	2168 BHP Caterpillar diesel generator, #1, bldg 53-2	12/16/2008	N	N	
Emerg. Stationary Engine	2168 BHP Caterpillar diesel generator, #2, bldg 53-3	12/16/2008	N	N	
Emerg. Stationary Engine	90 BHP Cummins diesel generator, bldg 58	12/16/2008	N	N	
Emerg. Stationary Engine	420 BHP Detroit diesel generator, bldg 64	12/16/2008	N	N

**NBVC Point Mugu Emergency Engines
2008 Emergency Hours Operation**

2008 Pint Mugu Backup Emergency Engines Emergency Hours of Operation

Engine Description	Location	Emergency Usage Period (HR)	Date of Emergency Usage	Reason for Emergency Usage
112 BHP Hino	14			
		77.8	8/1/2008	Grid Power Failure - Underground Feeder in that area went phase to phase and blew. This caused the power to fail during two back to back episodes.
1,588 BHP Caterpillar	3015			
		81.4	12/13/2007 - 12/21/2007 12/26/2007 - 1/6/2008	Grid Power Failure - 12-13-2007, through 12-21-2007 is when the first phase of the power outage took place. The power repairs appeared to have been corrected by 12-21-07, but on 12-26-2007 the power went down again due to a failed splice repair. The power was down again from 12-26-2007 through 1-6-2008.
		0.6	4/19/2008	Grid Power Failure
		7.3	7/7/2008	Grid Power Failure
