ANNUAL COMPLIANCE CERTIFICATION PERMIT ATTACHMENT FORM

Period Covered by Compliance Certification: 01 / 01 / 20 (MM/DD/YY) to 12 / 31 / 20 (MM/DD/YY)

<p>A. Attachment # or Permit Condition #: CARB GHG OIL GAS-11</p>	<p>D. Frequency of monitoring: Varies</p>
<p>B. Description: Vapor collection systems and vapor control devices shall comply with Section 95671. These requirements do not apply to existing vapor collection systems and vapor control devices that are required by VCAPCD Rule 71.1, Section B for storage tanks and Rule 71.1, Section C for produced gas. The GHG Regulation defines "fuel gas system" and the VCAPCD considers it to be on-site combustion of natural gas in engines, boilers, heater treaters, steam generators, turbines, microturbines, glycol units, etc. Some oilfield facilities may sell gas to a party other than Southern California Gas (such as a nearby agricultural source). The VCAPCD considers these 3rd party gas sales to be a "sales gas system" in the GHG Regulation.</p>	<p>E. Source test reference method, if applicable.
