**SUBJECT: VENTURA COUNTY APCD RULE 74.11 - CERTIFICATION OF
NATURAL-FIRED GAS WATER HEATERS**

Dear Mr. Delph:

Per your request, the water heaters listed in your letter dated June 26, 2013, are certified for sale and installation in Ventura County. The units are also shown on the attached table. This certification is pursuant to Ventura County Air Pollution Control District (APCD) Rule 74.11, Natural Gas-Fired Residential Water Heaters. The units are certified to oxides of nitrogen (NOx) emission limits of either not more than 10 nanograms per Joule (ng/J) for "residential" units or not more than 40 ng/J for mobile home units.

The Ventura County APCD does not endorse or warranty any specific product or manufacturer. Modification of the products listed above will void this certification.

If you have any questions regarding this matter, please contact me at 805/645-1437.

Sincerely,

Ken Hall
Air Quality Specialist
