Subject: Proposed Title V Federal Operating Permit Notification  
VCAPCD Permit No. 00157 – New-Indy Oxnard, LLC

Dear Mr. Rios:

The Ventura County Air Pollution Control District (VCAPCD) hereby provides notice of a preliminary decision to reissue a Title V federal operating permit (Part 70 permit) to the following company:

<u>Company and Facility Name</u>	<u>Application No.</u>
New-Indy Oxnard, LLC	00157-301

This reissuance is for the permit period that will end on March 31, 2024. Pursuant to Subsection A.1 of Rule 33.9, "Part 70 Permits - Compliance Provisions," an application shield was granted to this stationary source on September 10, 2018 based on the submittal of a timely and complete Part 70 permit reissuance application. Therefore, New-Indy Oxnard, LLC shall continue to comply with existing Part 70 Permit No. 00157 until the Part 70 permit is either reissued or denied. This provision does not allow the stationary source to operate in violation of any other applicable requirements.

This notice has been provided in accordance with Rule 33.7, "Part 70 Permits – Notification." Enclosed please find a copy of the public notice that will appear in the newspaper as required for this significant Part 70 permit action. The following link on the Ventura County APCD website provides access to the proposed Part 70 Permit. A copy of the reissuance permit application can be forwarded upon request.

[http://www.vcapcd.org/title\\_v.htm](http://www.vcapcd.org/title_v.htm)

Pursuant to Rule 33.7.B.5, the VCAPCD will address all written comments on the revised, proposed permit provided that they are germane to the applicable requirements implicated by this permit action. The VCAPCD will then revise the permit if necessary, and pursuant to Rule 33.7.C.3 will provide written notification of the final decision to grant the permit to EPA and any other party which submitted written comments during this comment period.

If EPA does not object to the proposed permit and the VCAPCD issues a final permit, pursuant to Rule 33.7.D, any person may petition the EPA within 60 days after the expiration of EPA's 45-day comment period. If EPA then objects to the issuance of the Part 70 permit as a result of a public petition, the VCAPCD must resolve the EPA objection.

If you have any questions or wish to discuss this matter in further detail, please call me at 805/645-1421 or by email at [kerby@vcapcd.org](mailto:kerby@vcapcd.org).

Sincerely,

Kerby E. Zozula, Manager  
Engineering Division
