

Oxnard Community Meeting

Community Air Protection Program – Assembly Bill (AB) 617

An effort to reduce exposure to air pollution in the communities most impacted

We welcome the Oxnard community in discussing opportunities to improve air pollution with an incentive program in the community. The Community Air Protection (CAP) Program, authorized by AB 617 and implemented by the California Air Resources Board in partnership with local air districts, provides funding for projects that reduce exposure to criteria air pollutants and toxic air contaminants in the communities most impacted by air pollution. Ventura County Air Pollution Control District (VCAPCD) representatives will share the air pollution reduction opportunities and seek community feedback.

Tuesday, June 11, 2019
6:30 PM – 8:00 PM

Oxnard Public Library
251 S. A Street, Oxnard

The meeting is open to the public and VCAPCD staff will be available to answer questions and record public comments.

For more information, please contact Tyler Harris at tyler@vcapcd.org or visit our website at <http://vcapcd.org/Community-Air-Protection.htm>

The Ventura County CAP Program is part of California Climate Investments, a statewide program that puts billions of Cap-and-Trade dollars to work reducing greenhouse gas emissions, strengthening the economy, and improving public health and the environment — particularly in disadvantaged communities.
