Air Monitoring Network Report Available for Review

Ventura County, CA (June 9, 2015) – Federal regulations require state and local agencies that conduct ambient air monitoring for regulatory purposes to submit an Annual Monitoring Network Report. The report must contain specific monitoring network information and be available for a 30-day public inspection period prior to submittal to the U.S. Environmental Protection Agency (U.S. EPA).

In years past, the Ventura County Air Pollution Control District (VCAPCD) prepared the report for Ventura County. This year, the required information for Ventura County is included in a report compiled by the California Air Resources Board (ARB). ARB compiled the Ventura County portion of the report with input from, and review by, the VCAPCD.

A link to the report is provided here:

<http://www.arb.ca.gov/aqd/amnr/amnr.htm>. A link to Ventura County's

Ambient Air Monitoring Network Report web page is provided here:

<http://www.vcapcd.org/AirMonitoringNetworkPlan.htm>.

If you have questions about the Ventura County portion of the report, contact Mallory Ham at mallory@vcapcd.org, or 805-662-6960.
