Subject: Notice of Final Determination of Compliance
Puente Power Project (15-AFC-01)

Dear Mr. Pittard:

Enclosed is the Ventura County Air Pollution Control District's (APCD) Final Determination of Compliance (FDOC) for the Puente Power Project (Ventura County APCD Application No. 00013-370). This project proposes the installation of a nominal 262 megawatt natural gas-fired combustion turbine as a replacement for existing electrical steam generating units at the Mandalay Generating Station (MGS) at 393 North Harbor Boulevard in Oxnard, CA.

This FDOC is being issued pursuant to Rule 26.9, "New Source Review – Power Plants". This project is expected to meet the requirements of Rule 26, "New Source Review", and all other applicable Ventura County APCD rules and regulations, including applicable state and federal requirements that the Ventura County APCD has the authority to implement and enforce. The FDOC includes conditions required to ensure compliance with these requirements.

If you have any questions, or wish to discuss this matter in further detail, please contact me at (805) 645-1421 or by email at kerby@vcapcd.org.

Sincerely,

Kerby E. Zozula, Manager
Engineering Division
