Monthly Report of the Ventura County Air Pollution Control District 

October 2013

Spreading the word

The APCD Public Information Division has been reaching Ventura County residents for over 24 years with its clean air message. During that time thousands of publications, materials, videos, and other clean air pieces have been available from the District. According to public information manager Barbara L. Page, “Things have changed a lot over the years. When the division first began, we were talking mainly about ozone and its health effects. Now, particulate matter, global climate change, alternative energy, federal and state air quality legislation, and clean air choices are just some of the topics we cover. And the way we distribute our information has changed as well. We still do publications, events and traditional public awareness campaigns using print and radio. But now we also concentrate heavily on our website and other electronic media like Twitter and YouTube. There’s so much to share with our residents about the air we breathe and we want use as many approaches as we can to reach our audience.”

Publications

These publications are currently available by request from the District, and, as noted, on the APCD website:

- 7 Days to Cleaner Air (Spanish)
- Agricultural Burning
- Air Quality A –Z
- Air Quality Complaints
- Air Quality Complaints (Spanish)
- Air Town student folder
- Breathtaking – the health effects of air pollution
- Destination: Clean Air (PDF available online)
- Emission Offsetting
- Notice of Violation
- Permits
- Rule Development
- Skykeeper Activity Book
- Skylines (Monthly newsletter available online)
- The Air Zone (PDF available online)
- The Ventura County Climate Change Almanac (PDF available online)
- Variances

In addition to publications, the District also has factsheets available on its website. Topics include: 50 simple ways to help reduce air pollution; Air Quality Complaints; Educator’s Guide to *Air-the Search for one clean breath*; Notice of

Violation; Permits; Rule Development; and Variances.

On the APCD website you can check out **Air Streams**. Air Streams contains original and vintage videos presented to enhance the viewers’ knowledge of air quality and environmental issues. Originally launched in December 2010, it features the air pollution control officer Mike Villegas, the Oxnard Harbor District, the local group Stewards of the

APCD Calendar

AIR POLLUTION CONTROL BOARD

Second Tuesday, 11:00 a.m.
Board Chambers
Administration Building
800 South Victoria Avenue
Ventura

Next meeting: November 12, 2013

APCD ADVISORY COMMITTEE

Fourth Tuesday, 7:30 p.m.
Large Conference Room
669 County Square Drive
Ventura

Next meeting: To Be Announced

CLEAN AIR FUND ADVISORY COMMITTEE

Anacapa Conference Room
669 County Square Drive,
2nd Floor, Ventura

Next meeting: To Be Announced

APCD HEARING BOARD

Mondays, 5:30 p.m., as needed
Board Chambers
Administration Building
800 South Victoria Avenue
Ventura

Next meeting: To Be Announced

SOUTH CENTRAL COAST BASINWIDE AIR POLLUTION CONTROL COUNCIL

Santa Barbara APCD
260 North San Antonio Road
Santa Barbara

For more information, call Mike Villegas at 645-1440.

Next meeting: October 16, 2013

APCD RULE WORKSHOPS

See Rule Update section.

Directory

General Information **645-1400**
Fax **645-1444**
Website **www.vcapcd.org**

Agricultural burning,
Smog forecast 654-2807
Complaints (7 a.m. – 5 p.m.,
Mon-Thurs) 645-1445
Complaints (recording) 654-2797
Monitoring Division 645-1410
Permit processing 645-1401
Permit renewal 645-1404
Public information 645-1415
Email address: info@vcapcd.org

Earth, and a Newbury Park resident that lives a “green lifestyle.” This October, the public information division is creating more Air Streams videos that will be posted this winter.

And don’t forget the film, *Air-the search for one clean breath*. This international high definition film has won awards and accolades since its premiere in 2008. It received the U.S. EPA’s Clean Air Excellence Award and the Mercury

Communications Gold Award of Excellence. You can view the entire film at airthefilm.org. There is also a downloadable Educator’s Guide to the film that contains nine classroom activities for middle and high school students.

On October 12, the division will be part of Ojai Day in downtown Ojai. This annual celebration has been one of the most popular events in Ojai since 1991 and features music, art and local groups.

The District will have a booth in the “green” section of Ojai Day.

Future directions

The Division’s new “Enter the Air Zone” campaign will begin this fall at locations throughout the county. More to come. For questions about any of the APCD’s public information efforts, contact Barbara L. Page at 645-1415 or at barbara@vcapcd.org.

AirLines

Board Highlights. At its September 10 meeting, the Air Pollution Control Board approved the following actions:

✓Funding of 47 new 2013 projects under the **Carl Moyer Memorial Air Quality Standards Attainment Program** that includes 89 pieces of equipment and have a total emission reduction of 42.7 tons per year of ozone precursors, 2.2 tons per year of diesel particulate matter, and 311 metric tons of carbon dioxide, a greenhouse gas. The following County businesses will receive grant funding: **Kenter Canyon Farms; San Miguel Produce; J & A Berry HiJi Brothers; Coultas Farms; Saticoy Berry Farms; Oceanview Produce; Nature’s Way, Ventura; Cambria Berry Farms; Solimar Farms; Reiter Brothers; Mike’s Farm Labor; Strata Holdings; Thornhill Mutual Water Company; Gioi Tram, Glenn Dexter; Timothy H. Currall; Pyramid Flowers; James-Lloyd Butler Family; El**

Dorado Berry Farms; Anna Montenegro; Swift Ranch; Laubacher Farms, Inc.; Venegas Farming; Santa Clara Farms; DSL Plus Farms; Mejia’s Nursery; C & F Flower Grower; Harbor View Farms; Chuy & Sons Labor; Ishibashi Farms; A & M Flower Growers; Placco, LLC, Eclipse Berry Farms; Mac Berry Farms; Gonzar Farms, Inc.; Loma Flowers; American Berry Farm; Luis Lozano; Illusiones Floral, Inc.; Padilla Farms; Armando Mora; Fresh Venture Farms, LLC; Deardorff Family Farms; James Gill Ranch, Inc.; Color View Floral; and Silent Springs, LLC. The grant funding amount totals \$3,075,451. Matching funds total \$192,529. For information, contact **Chris Frank** at **645-1409**.

✓Funding of up to \$7,208 to assist **Ventura County General Services Agency** with the installation of one dual (two charging ports) AC Level 2 Charging Station at its service building at the county government center under the **Electric Vehicle Charging Infrastructure**

Program. For more information, contact **Stan Cowen** at **645-1408**.

✓Cancellation of \$2,200 increase in grant funding for an existing Lower-Emission School Bus Retrofit project for electrical infrastructure involving **Ventura Unified School District** because of insufficient electrical infrastructure at Cabrillo Middle School to support a diesel particulate filter station. Also, cancelled the remaining APCD grant funding of \$258 for the retrofit of two existing buses at the Ventura Unified School District because the project was completed under budget.

✓**APCO Mike Villegas** presented a study session on Light-Duty Vehicle Technology Advancements from the **California Air Resources Board**. This is available to view on the District’s website.

✓ Adoption of the 2013-14 service rates and fees.

✓ **Cancellation of the October APCB meeting.**

Just in time for back to school. In the U.S., about 24 million children ride a

bus to school each day. The U.S. EPA, in collaboration with Scholastic, has created a new book in the popular "Magic School Bus" series for children. In *The Magic School Bus Get Cleaned Up*, Ms. Frizzle and her children explore the pollution emitted from their own diesel school bus and learn how to reduce emissions as they travel though the diesel engine.

Quantities are limited due to the popularity of the book. Individuals, schools and libraries may order a copy at no charge. Call **800-490-9198** or email nscep@bps-lmit.com. The publication number is **EPA420-K-07-001**. These new books will also be distributed at Ojai Day on October 12.

Hearing Board Vacancies

The Ventura County Air Pollution Control District is seeking individuals interested in serving on the APCD's Hearing Board. Applications are being accepted for nominations to the medical profession member position on the District's Hearing Board. Candidates for medical profession member must have specialized skills, training, or interests are in the fields of environmental medicine, community medicine, or occupational/toxicological medicine.

Applications are also being accepted for nominations to the Engineer member position on the APCD's Hearing Board. Candidates for the Engineer member position must be licensed in the state of California, and must be residents of Ventura County.

The Hearing Board conducts public hearings and is authorized to grant variances from District Rules, makes various determinations regarding permits, and arbitrates conflicts between the District and permitted sources. Meetings are held Monday evenings, as needed at 5:30 p.m. Hearing Board members may be called upon to conduct a conference call hearing with District staff and petitioners. Members are compensated for their time. Candidates for the Hearing Board must reside in Ventura County and should be willing to attend two two-day training classes conducted by the California Air Resources Board.

Contact Dan Searcy at 805/645-1494 or by email at dans@vcapcd.org.

FOCUS on climate change

The World Meteorological Organization, the United Nations System's authoritative voice on weather, climate & water, issues new report.

On July 3, the World Meteorological Organization (WMO) released a report titled, *The Global Climate 2001-2010, A Decade of Climate Extremes*. Its bottom line: the world experienced

unprecedented high-impact climate extremes during the 2001-2010 decade, which was the warmest since the start of modern measurements in 1850 and continued an extended period of pronounced global

warming. More national temperature records were reported broken than in any previous decade.

The report analyzed global and regional temperatures and precipitation, as well as

extreme events such as the heat waves in Europe and Russia, Hurricane Katrina in the United States of America, Tropical Cyclone Nargis in Myanmar, droughts in the Amazon Basin, Australia and East Africa and floods in Pakistan.

The WMO media release says the decade was the warmest for both hemispheres and for both land and ocean surface temperatures. The record warmth was accompanied by a rapid decline in Arctic sea ice, and accelerating loss of net mass from the Greenland and Antarctic ice sheets and from the world's glaciers. As

a result of this widespread melting and the thermal expansion of sea water, global mean sea levels rose about 3 millimeters (mm) per year, about double the observed 20th century trend of 1.6 mm per year. Global sea level averaged over the decade was about 20 cm higher than that of 1880, according to the report.

The report charted rising atmospheric concentrations of greenhouse gases. Global-average concentrations of carbon dioxide in the atmosphere rose to 389 parts per million in 2010 (an increase of 39% since the start of the industrial era in 1750), methane to 1808.0 parts per billion (158%) and nitrous oxide to 323.2 parts per billion (20%). "A decade is the minimum possible timeframe for meaningful assessments of climate change," said WMO Secretary-General Michel Jarraud. "WMO's report shows that global warming was significant from 1971 to

2010 and that the decadal rate of increase between 1991-2000 and 2001-2010 was unprecedented. Rising concentrations of heat-trapping greenhouse gases are changing our climate, with far reaching implications for our environment and our oceans, which are absorbing both carbon dioxide and heat." "Natural climate variability, caused in part by interactions between our atmosphere and oceans – as evidenced by El Niño and La Niña events - means that some years are cooler than others. On an annual basis, the global temperature curve is not a smooth one. On a long-term basis the underlying trend is clearly in an upward direction, more so in recent times" said Mr Jarraud.

Rule Development Update

Visit www.vcapcd.org/rules_division.htm

Air Pollution Control Board

Metalworking Fluids and Direct Contact Lubricants (Rule 74.31 – New) and Exemptions from Permit (Rule 23 – Revised) On November 12, 2013, the Air Pollution Control Board is tentatively scheduled to consider new Rule 74.31, Metalworking Fluids and Direct Contact Lubricants, to reduce Reactive Organic Compound (ROC) emissions from the use of metal working fluids and direct contact lubricants. On that same date, the Air Pollution Control Board is also tentatively scheduled to consider amendments to Rule 23, Exemptions from Permit, to exempt sources using Super Compliant Materials (50 g/1 ROC or less) from permit requirements. Metal forging operations will continue to require APCD permits. The meeting notice, draft rules, and staff report may be downloaded from the District's website at (http://www.vcapcd.org/rules_division.htm#7431). For additional information, contact **Stan Cowen** at **805/645-1408** or stan@vcapcd.org.

Advisory Committee

Sulfur Compounds (Rule 54 – Revised) and Permit Fees (Rule 42 – Revised) On September 24, 2013, the APCD Advisory Committee considered amendments to Rule 54, Sulfur Compounds, and Rule 42, Permit Fees. Staff is proposing to add the 2010 sulfur dioxide (SO₂) National Ambient Air Quality Standard of 75 ppb SO₂ to Rule 54 as a ground or sea level concentration limit, with a description of the design value and compliance demonstration options. In addition, staff is proposing to clarify the SO₂ combustion emission limit by adding requirements to calculate the exhaust concentration of SO₂ on a dry basis and correct for a percent oxygen content based on the emission source. Staff is also proposing to clarify the method of calculating the planned flaring excess emission fee in Rule 54 and Rule 42 for consistency. The meeting notice, draft rules, and staff report may be downloaded from the District's website at (http://www.vcapcd.org/rules_division.htm#54). For additional information, contact **Tyler Harris** at **805/645-1407** or tyler@vcapcd.org.

Compliance Dates

Large Water Heaters and Small Boilers (Rule 74.11.1 – Revised): Effective **January 1, 2013**, units for sale from over 400,000 BTUs/hr up to 1 million BTUs/hr must meet a NOx limit of 20 ppm. Effective January 1, 2014, all units for sale from 75,000 BTUs/hr to 400,000 BTUs/hr (except pool heaters) shall meet a NOx limit of 20 ppm. Pool heaters are still required to meet the existing NOx limit of 55 ppm. This rule only applies to natural gas-fired units. For additional information, contact **Stan Cowen** at **805/645-1408** or stan@vcapcd.org.

Boilers, Steam Generators, and Process Heaters (Rule 74.15.1 – Revised): Effective **January 1, 2013**, all new units (1 to 2 million BTUs/hr) must meet a NOx limit of 20 ppm. New units must be certified to the requirements of South Coast AQMD Rule 1146.2, Emissions of Oxides of Nitrogen from Large Water Heaters and Small Boilers and Process Heaters. Source testing must be performed at initial installation and every 4 years thereafter for boilers in this size range. Annual screening for NOx and CO emissions is required except when a source test of the unit is performed.

Requirements for screening notifications, test methods, and reports are described in a Compliance Assistance Advisory on the District's website at (http://www.vcapcd.org/Compl_AA.htm). For additional information, contact **Lyle Olson** at **805/645-1413** or lyle@vcapcd.org.

Each balance above represents one or more ERC Certificates. If there is a "Limitation" on a balance, no reactive organic compound or nitrogen oxide emission reduction credits in that balance may be used for emission offsets at a stationary source that has permitted emissions greater than 25 tons per year of that pollutant. (See Rule 26.4.D.3 for details).

A more detailed report is available on the forms page (under Downloads-Permits-ERC Report-Emission Reduction Credits) on the District website (www.vcapcd.org). If you have any questions, please contact Kerby E. Zozula, Engineering Division Manager, at 805/645-1421.
