Monthly Report of the Ventura County Air Pollution Control District 

OCTOBER 2008

A big thanks

Since 2008 is a landmark year for us - - our 40th birthday - it's also a good time to recognize those people, organizations, and community groups who have partnered with us over the years. We salute them and are grateful for their assistance in spreading our clean air message.

Since the early nineties, we have had numerous public information air quality awareness campaigns to inform residents about air quality. Many local, and not so local, groups and individuals have partnered with us with these awareness campaigns.

- Ace Hardware
- Adventures for Kids
- Air Tek Cleaning
- AT & T Wireless Services
- Coffee Bean & Tea Leaf
- Dr. Paul Block
- Curves International
- Dr. Imelda Deforest
- Gold Coast Broadcasting
- Jiffy Lube
- KHAY
- K-Mart Corporation
- Lassen's Natural Foods
- Lowes

- McDonalds Corporation
- Midas Auto Service
- Roadrunner Shuttle
- Santa Paula Glass
- Sherwin-Williams
- St. John's Regional Medical Center
- Dr. Antonio Ruelas
- Toys "R" Us
- Union 76 Station, Rose Ave., Oxnard
- U.S. Environmental Protection Agency
- Ventura County Fair
- Ventura County Star
- Ventura County Medical Association
- Vons
- Bard Mansion, NCBC, Port Hueneme
- Mr. Ed Begley, Jr.
- California State University Channel Islands
- Camarillo Premium Outlet Mall
- Channel Islands National Park
- Chevron USA
- Gull Wing's Children Museum
- Mr. Leonard Nimoy
- Pacific View Mall
- Oxnard College Science Career Expo
- Media 360
- Simi Valley Senior Center
- Southern California
- Edison
- Southern California Gas Company
- Ventura County Superintendent of Schools
- Ventura County Transportation Commission

The District has also produced many educational programs, including the Sky High curriculum in 1995 and our award-winning Air World kiosk in 1999. Staff has also participated at many outreach events. The following organizations and individuals helped us getting our message into schools and venues throughout our county.

- American Lung Association
- Amgen, Inc.
- Automobile Club of Southern California

We also salute the organizations who made the Ventura County Clean Air Fund a reality. This fund, the first of its kind in the nation, was created by the sale of emission credits from Imation Corporation to Procter & Gamble Paper Products. Since 1993, it

APCD Calendar

AIR POLLUTION CONTROL BOARD

No meeting in October 2008

November 11, 2008

Second Tuesday, 11:00 a.m.
Board Chambers
Administration Building
800 South Victoria Avenue
Ventura

APCD ADVISORY COMMITTEE

September 23, 2008

Fourth Tuesday, 7:30 p.m.
Large Conference Room
669 County Square Drive
Ventura

CLEAN AIR FUND ADVISORY COMMITTEE

As needed
Large Conference Room
669 County Square Drive
Ventura

APCD HEARING BOARD

Mondays, 5:30 p.m., as needed
Board Chambers
Administration Building
800 South Victoria Avenue
Ventura

SOUTH CENTRAL COAST BASINWIDE AIR POLLUTION CONTROL COUNCIL

October 15, 2008

Wednesday, 10:00 a.m.
Santa Barbara APCD
260 North San Antonio Road
Santa Barbara

For more information, call Mike Villegas at 805/645-1440.

APCD RULE WORKSHOPS

See Rule Update section.

AIR POLLUTION CONTROL BOARD

Kathy Long, District 3, **Chair**
Brian Brennan, San Buenaventura, **Vice-Chair**
Steve Bennett, District 1
Linda Parks, District 2
Peter Foy, District 4
John K. Flynn, District 5
Jonathan Sharkey, Pt. Hueneme
Thomas Holden, Oxnard
Mike Morgan, Camarillo
Paul Miller, Simi Valley

VENTURA COUNTY

AIR POLLUTION CONTROL DISTRICT
669 County Square Drive, 2nd Floor
Ventura, CA 93003

AIR POLLUTION CONTROL OFFICER

DIRECTORY

General information **645-1400**
Fax **645-1444**
Website **www.vcapcd.org**

Agricultural burning,
 smog forecast 654-2807
Complaints (7 a.m.-5 p.m.,
 Mon-Thurs) 645-1445
Complaints (recording) 654-2797
Monitoring Division 645-1410
Permit processing 645-1417
Permit renewal 645-1404
Public information 645-1415
Smoking Vehicle
 Hotline 800/559-SMOG
Email address: info@vcapcd.org

has funded 48 projects beyond the scope of our air quality regulations. Ventura County skies have benefited greatly from this partnership.

- Imation Camarillo (formally 3M Corporation)
- Procter & Gamble
- The Ventura County Community Foundation

Over the years, the APCD lawnmower trade-in program has reduced emissions from gasoline mowers in the county. The following companies and organizations have assisted us with that effort.

- Country Home Products
- Home Depot
- Ventura County Home & Garden Show

And a final thanks to some special County businesses and organizations who have contributed in-kind contributions to District programs.

- Electracraft
- Elena Trevino Design
- Happenings Magazine
- Oxnard High School
- VCEDA
- Ventura Printing

Airlines

Film preview at conference. The District's new film, *Air – the search for one clean breath* was previewed for 1,500 southland high school students at the **California Air Pollution Control Officers' The Future is Green** conference and expo at the Long Beach Convention Center on September 15 and 16. The film was also previewed at a theatre showing for the **Mid-Ohio Regional Planning Commission** in Columbus on August 16. Two hundred guests attended.

on climate change

Check out the Government Center Hall of Administration for an exhibit on global climate change & Glacier National Park.

In the new APCD film, AIR – THE SEARCH FOR ONE CLEAN BREATH, viewers are taken to Montana's Glacier National Park for an update on the effects of global warming on the glaciers there. Locally, an art work on display at the Ventura County Government Center focuses on the Park and the evidence that glaciers there are receding. In an exhibit sponsored by the Ventura County Arts Council, one of the artists incorporates cut-outs from a recent APCD publication. David Goldstein, who works for the County Public Works Agency. The centerpiece of his work is a photo he recently took at Glacier National Park. The photo shows a vast expanse of glacial ice melting into a pool. Surrounding the photo are clippings about climate change from the 2007 Clean Air Today Global Climate Change issue, produced by the District.

You can view the exhibit from September 25 to October 21 in Hall of Administration, at 800 Victoria Avenue in Ventura. And ballots are also available for viewers to select a "People's Choice" award winner.

Each balance above represents one or more ERC Certificates. If there is a “Limitation” on a balance, no reactive organic compound or nitrogen oxide emission reduction credits in that balance may be used for emission offsets at a stationary source that has permitted emissions greater than 25 tons per year of that pollutant. (See Rule 26.4.D.3 for details).

A more detailed report is available on the forms page (under Forms-Permits-ERC Report) on the District website (www.vcapcd.org). If you have any questions, please contact Kerby E. Zozula of the Engineering Division at 805/645-1421.

Rule Development Update

Visit www.vcapcd.org/rules_division.htm

Advisory Committee

Motor Vehicle and Mobile Equipment Coating Operations (Rule 74.18- revised): On September 23, 2008, the Advisory Committee will consider proposed amendments to Rule 74.18. The proposal is based on a Suggested Control Measure (SCM) adopted by the California Air Resources Board on October 20, 2005.

As a non-attainment area for both federal and state ozone air quality standards, Ventura County is required to adopt all feasible measures, such as the SCM, to reduce reactive organic compound emissions. The draft staff report and draft amended rule are available on the District's website. For additional information, contact **Stan Cowen** at **805/645-1408** or stan@vcapcd.org.

Public Consultation Meeting

Emissions Banking for Agricultural Pump Engines (Rule 26.4.1 - new): On August 12, 2008, District staff held a public meeting to discuss the development of a new rule that will establish a procedure for banking surplus agricultural pump engine emission reductions. These engines are currently exempt from the requirement to hold a Permit to Operate.

Emission banking will be allowed only when fuel use and hours of operation data is available and may require a restrictive covenant to ensure that banked emissions are permanently reduced. Also under consideration is a requirement for confirmation that the land serviced by a subject pump will remain in agricultural production for the foreseeable future. The proposal expands on the requirements of Rule 26.4, Emissions Banking, which is part of Rule 26, New Source Review. The EPA has stated that agricultural pump engine emissions reductions will not be recognized unless Rule 26.4.1 (or a similar proposal) is adopted.

Initial information appears on the District's website. For additional information, contact **Don Price** at **805/645-1407** or don@vcapcd.org or **Kerby Zozula** at **805/645-1421** or kerby@vcapcd.org.

Recent Board Actions

New Source Performance Standards, and National Emission Standards for Hazardous Air Pollutants (Rule 72 and Rule 73 - revised). On

September 9, 2008, the Air Pollution Control Board adopted amended Rules 72 and 73. The amendments update the District's incorporation by reference of federal standards. For additional information, contact **Don Price** at **805/645-1407** or don@vcapcd.org.

Notice to Comply (Rule 230 - revised). On September 9, 2008, the Air Pollution Control Board adopted amended Rule 230. The revised rule no longer includes references to state Health and Safety Code that sunset after January 1, 2006. For additional information, contact **Don Price** at **805/645-1407** or don@vcapcd.org.

Fugitive Dust (Rule 55 - New): On June 10, 2008, in a hearing continued from May 13, 2008, the Air Pollution Control Board adopted new Rule 55, which regulates fugitive dust emissions from construction operations, bulk material handling operations, off-field agricultural operations and track-out onto paved roadways. For additional information, contact **Stan Cowen** at **805/645-1408** or stan@vcapcd.org.

Permit Fees (Rule 42 - Revised): On April 8, 2008, the Air Pollution Control Board adopted revisions to Rule 42. The revisions include an 8 percent increase in permit renewal fee rates, effective July 1, 2008. For permit holders paying the minimum fee, this revision will result in a fee increase of no more than \$38.00 per year.

District operations are funded by state and federal grants, automobile registration fees, and fees charged to sources of air pollution. The APCD receives no property tax revenue or general fund revenue. The fee increase is necessary to offset rising expenses and to maintain APCD reserve funds at a level of four to six months of operating expenses. For additional information contact **Don Price** at **805/645-1407** or don@vcapcd.org.

Soil Decontamination Operations (Rule 74.29, Rule 44, and Rule 23 - Revised): On April 8, 2008, the Board adopted revisions to Rule 74.29. The revisions expand the rule to include requirements for the excavation, transportation, and handling of contaminated soil. These changes are required because, under the provisions of Health and Safety Code section 40914(b)(2), staff is required to demonstrate that the District's plan to attain the California ambient ozone standard provides for expeditious implementation of "every feasible

measure" to reduce ozone precursor emissions (including reactive organic compounds, or ROC). In addition, rule language was clarified and definitions were added and changed.

Due to the deletion of an exemption from Rule 74.29, Rule 23.F.23 was revised and Rule 44.B.4 was deleted. The final rules and final staff report appear on the District's website. For additional information, contact **Don Price** at **805/645-1407** or don@vcapcd.org.

Surface Coating of Metal Parts and Products (Rule 74.12 – Revised): On April 8, 2008, the Board adopted revisions to Rule 74.12. The revisions include a lower ROC limit for general air-dry one-component coatings (2.3 lb/gal) and a new multi-component coating category at 2.8 lb/gal. Also, a special category for lab furniture coatings was deleted. In addition, a requirement to use low-emission cleanup solvents for spray gun and general purpose cleanup was adopted. ROC content is limited to no more than 25 grams per liter (g/l), or 0.21 lb/gal. The effective date for these revisions is 90 days after adoption by the Air Pollution Control Board, or July 8, 2008.

The revisions will reduce actual ROC emissions by approximately 19 percent, or 6.64 tons per year (tpy). About 36 percent of the emission reduction (2.40 tpy) results from the change in coating requirements. The remaining 64 percent (4.24 tpy) results from the proposed 25 g/l threshold for cleaning solvents.

The final rule and final staff report appear on the District's website noted above. For additional information, contact **Don Price** at **805/645-1407** or don@vcapcd.org.

Compliance Dates

July 8, 2008

Surface Coating of Metal Parts and Products (Rule 74.12 – Revised): Revisions to Rule 74.12 become effective 90 days after adoption, or July 8, 2008. The revisions include a lower ROC limit for general air-dry one-component coatings (2.3 lb/gal) and a new multi-component coating category at 2.8 lb/gal. In addition, a requirement to use cleanup solvents with an ROC content of no more than 25 grams per liter (g/l), or 0.21 lb/gal, becomes effective. For additional information, contact **Don Price** at **805/645-1407** or don@vcapcd.org.

March 1, 2008

Registration of Agricultural Engines (Rule 250): The California Air Resources Board (ARB) has finalized new regulations for diesel engines used in agricultural operations. In general, these regulations apply to nearly all diesel engines used to power irrigation pumps; however, they will not apply to diesel engines used to power farm equipment such as trucks and tractors. The new regulations have both administrative requirements and emission control requirements. An ARB fact sheet is available to provide additional information and details on these new requirements; go to <http://www.arb.ca.gov/diesel/ag/agengine.htm>.

To implement the state agricultural diesel engine regulations, the District adopted Rule 250, "Registration of Agricultural Engines" on September 11, 2007. The rule establishes a diesel engine registration program with a deadline of March 1, 2008. The registration program is not a permitting program, but requires application forms and fees similar to a permitting program. The fees are significantly less than permitting fees and are specified in Rule 48. Both rules appear on the District's website noted above.

For questions on the registration program, please contact **Kerby Zozula** at **805/645-1421** or kerby@vcapcd.org. Grant money may be available from the District to replace older diesel engines with newer, compliant diesel engines, natural gas engines or electric motors. For information on District grant programs, please contact **Chris Frank** at **805/645-1409** or chrisf@vcapcd.org.

Ozone Report

JULY 2008

The California 1 Hour standard was exceeded on 4 days at Simi Valley and 1 day at Thousand Oaks. The Federal 8 Hour standard was exceeded on 4 days at Simi Valley, 3 days at Ojai and Piru, and 1 day at Thousand Oaks. The California 8 Hour standard was exceeded on 9 days at Simi Valley, 7 days at Ojai, 4 days at Piru, and 1 day at Thousand Oaks. The maximum 1 hour average was .113 at Simi Valley; the maximum 8 hour average was .094 at Simi Valley.
