NOTICE IS HEREBY GIVEN that a public hearing will be held before the Air Pollution Control Board of Ventura County to consider adoption of amendments to Rule 71.3, Transfer of Reactive Organic Compound Liquids; Rule 74.15, Boilers, Steam Generators, and Process Heaters; and Rule 74.23, Stationary Gas Turbines.

STAFF IS PROPOSING amendments to Rules 71.3, 74.15, and 74.23 in response to United States Environmental Protection Agency's (USEPA) comments received on November 16, 2023. The USEPA identified deficiencies in Rules 71.3, 74.15, and 74.23 in its review of the Ventura County portion of the California State Implementation Plan (SIP). INFORMATION REGARDING THE PROPOSED RULE AMENDMENTS, including the analysis required by Health and Safety Code Section 40727.2, is available for review by any interested party at the Air Pollution Control District office located at 4567 Telephone Road 2nd Floor, Ventura, California, 93003 during normal business hours (Monday through Friday, 8 am to 5 pm excluding holidays). They are also available on the district website at www.vcapcd.org. Written comments may be addressed to Danny McQuillan at the District Office or by email: danny@vcapcd.org, (805) 303-3678, and should be received no later than September 9, 2024.

AS A RESULT of the public hearing, the Board (1) may adopt the rule amendments as proposed by staff, or (2) may not adopt the rule amendments. Staff recommends the Board adopt the proposed revisions.
