Carl Moyer Program Grant Application – Year 19 – 2017

Marine Vessel Application – Page 1

Company Name (must match Tax ID information):		Federal Tax ID Number or Social Security Number (also submit IRS Form W-9):		
Applicant Name:				
Mailing Address:				
Phone number:		Email:		Fax:
Person with contract-signing authority (if different from above):				
Boat Name:		Coast Guard, IMO, or Lloyds Number: CA Registration (CF) Number:		
Boat Builder:		Year Built:	Wet Exhaust? (Yes or No)	
Annual overnight port stays. Specify harbor, slip number and % of total. (sum of %'s must total 100%)	Ventura Cnty: Harbor Name & Slip Number: _____	Santa Barbara Harbor Name & Slip Number: _____	SCAQMD: Harbor Name & Slip Number: _____	Other Harbor(s): _____ _____
	% of yearly overnight port stays: _____	% of yearly overnight port stays: _____	% of yearly overnight port stays: _____	% of yearly overnight port stays: _____
Type of business (commercial fishing, sport fishing, excursions, work boat, other (specify):				
Percent of annual operation in CA waters: _____%			Percent of operation out-of state: _____%	

I certify that all information provided in the application and its attachments is true and correct.

Print name and title:

Sign and date here:

Note: All applications must include the following:
 1) Application Statement 2) Disclosure Statement 3) Declaration of Compliance
 4) Copy of ARB's Harbor Craft Report 5) IRS Form W-9

Specify Desired Grant Amount: _____ (up to 85% of eligible costs). A lower percentage can improve your chances of receiving a grant.

Specify Desired Grant Term: _____ (up to 10 years). A longer term can improve your chances of receiving a grant. The grant contract will require you to operate the equipment in Ventura County and report annually for the number of years you specify.

Marine Vessel Application - Page 2

Documentation of Historic Use and Repower Costs

Eligibility and grant amount is based, in part, on local fuel purchases and/or historical hours of local operation. Attach the following documentation covering May 2014 to present:

- Attach copies of dated boat log pages or maintenance or repair documents showing engine hour meter readings. Attach a copy of one document dated between May 2014 and May 2015, and one dated approximately May 2016.
- Enter the current hour-meter reading for each engine to be replaced: (Date: _____)
Propulsion #1 _____ Propulsion #2 _____ Auxiliary #1 _____ Auxiliary #2 _____
- If engine hour-meter readings can not be documented, attach a summary of fuel purchases for the boat since May 2014. Each line in the summary should report a dated receipt you can produce upon request that shows the name and county of the fuel dock, date of purchase, and gallons. Also report total gallons purchased in each county. Fuel purchased in LA, Santa Barbara, and Ventura Counties is considered "local." Do not send copies of actual fuel receipts at this time.

Itemize the costs of the repower as follows and attach price quotes:

- Propulsion Engine(s) _____ \$ _____
- Auxiliary Engine(s) _____ \$ _____
- Parts necessary to modify cooling systems; fuel and exhaust systems; wiring panel and harness; power take-offs; propulsion control systems; gauges and alarms; and radiator and ventilation, that are integral to the functioning of funded engines. \$ _____
- Parts needed to extend, cut, or modify frames or to accommodate the new engine, as well as paint or coating to protect those specific areas that were cut or modified. \$ _____
- Tax and transport for eligible parts. \$ _____
- Labor for installation of or modification to eligible parts. \$ _____

The following costs are not eligible except with case-by-case basis ARB approval. ARB will judge eligibility by reviewing documentation submitted by the applicant proving that the costs are not part of the typical vessel overhaul, repair, upkeep or maintenance and are a necessary part of the repower:

- (A) Marine transmission(s).
- (B) Rudders or propellers.
- (C) Steering system.
- (D) Sea trials and dry docking.
- (E) Paint, coatings, or hull work not directly related to the engine repower.
- (F) Tax and transport for ineligible parts or costs.
- (G) Labor for installation of or modification to parts ineligible for funding.
- (H) Any parts or labor typically included as part of the vessel or engine overhaul, maintenance, repair, or upkeep.

Attach itemized list and documentation for ARB review and approval: \$ _____

The total cost to repower this boat: \$ _____.
