Note: All applications must include the following (check boxes to signify they are attached):

- Application Statement
- Disclosure Statement
- Declaration of Compliance

Off Road Mobile Equipment Repower Application – Page 2

Type of equipment being repowered (farm tractor, construction, other (specify):
Year, Make and Model of equipment:
Equipment Serial Number:

Old Engine to be Replaced:

Engine Year, Make, and Model	HP	Old Engine Serial Number	EPA Tier and Family Number	Annual hours of operation or gallons of fuel consumed*

Attach documentation of hours of use or fuel consumed for the previous two years.

One of the following:

- Copies of dated maintenance or repair documents showing engine hour-meter readings. Attach one document dated between May 2014 and May 2015, and one dated around May 2016.
- Copy of original signed and dated hour-meter log with readings collected a minimum of once per year from an installed and fully functioning hour meter.
- Historical fuel usage documentation specific to the equipment. Fuel documentation must include fuel logs, purchase receipts, or ledger entries.

OR, two of the following:

- Revenue and usage records that identify operational, standby, and down hours for the equipment
- Employee timesheets linked to specific equipment use
- Preventative maintenance records tied to specific hours of equipment use
- Repair work orders specific to the equipment
- Six months of tracking normal equipment usage with a functional, tamper proof hour meter with prior district approval
- Other documentation (for review and approval by the California Air Resources Board)

Current hour meter reading: _____ **Date of reading:** _____

Replacement Engine:

Engine Year, Make, and Model	HP	EPA Tier Certification	EPA Family Number	Engine Cost (\$)	Installation Cost (\$)

Attach itemized price quote (equipment and labor).

Total grant request:

Maximum Allowable (85% of eligible costs) Check box <input type="checkbox"/>	Other(Specify Amount) \$
---	-----------------------------

You may improve your chances of receiving a grant by requesting less than 85%. You may also specify a cost-effectiveness target or a specific dollar amount.

Off Road Mobile Equipment Repower Application – Page 3

All repowered equipment must be retrofitted with an ARB-verified diesel emission control system (VDECS)

VDECS Make, and Model	ARB Executive Order Number	ARB- Verified NOx Reduction %	ARB- Verified PM Reduction %	VDECS Cost \$	VDECS Installation Cost \$	VDECS Maintenance Cost (optional) \$

The California Air Resources Board requires retrofits (also known as VDECS or diesel particulate filters) to be installed on all funded equipment unless the applicant signs a waiver to "opt out" of this requirement and is eligible to opt out. If available for your new tractor, the VDECS may be required and 100% of its cost can be funded by this program. To opt out, sign below to acknowledge that you understand future regulations could require you to have retrofits installed at your own cost. If you want a retrofit now, do not sign below and attach a price quote with details.

Waiver - I choose to opt out of the retrofit requirement.
