

Ventura County Air Pollution Control District 2019 Combined Incentive Program Grant Application Agricultural Pump Diesel Repower – Page 1

Company Name (must match tax ID number):	Federal Tax ID Number or Social Security Number (also submit IRS Form W-9):
Contact Name:	
Mailing Address:	
Phone number:	Email:
Person with contract-signing authority (also, sign and date at bottom of page):	
Location of existing pump engine (address or GPS coordinates):	
Circle type of business: equipment rental, row crops, orchard crops, or other (specify)	
Percent of total operation in Ventura County for this equipment:	%
Percent of total operation in California for this equipment:	%

Please consider applying for grant to install an electric motor instead of a diesel engine.

All applications must include the following documents (please check boxes to signify they are attached):

- Application Statement
- Disclosure Statement
- Declaration of Compliance
- If the applicant obtains financing to assist in the purchase of replacement equipment, full documentation of financing must be provided.

I certify that all information, attachments, and documentation submitted with this application is authentic and correct.

Applicant Signature: _____ Date:_____.

- Specify Desired Grant Amount: _____(up to 70% of eligible costs). You may improve your chances of receiving a grant by requesting less than 70%. You may also specify a cost-effectiveness target or a specific dollar amount.
- Specify Desired Grant Term: _____(up to 10 years). A longer term can improve your chances of receiving a grant. The grant contract will require you to report hours of use annually and operate and maintain the equipment in Ventura County for the number of years you specify.

Agricultural Pump Diesel Repower Application - Page 2

Submit Page 2 and required documentation for each engine to be scrapped. Check boxes below and attach copies of the documentation to this checklist. Keep originals - documentation cannot be returned.

Applicant Name & Company: _____

Old Engine to be Replaced:

Engine Year, Make, and Model	Engine Serial Number	HP (engine rating)	EPA Cert. (tier and/or family)	Annual hours of operation or annual gallons of fuel consumed*

***Attach the following documentation to substantiate claim:**

For engines with functioning hour meters, attach:

- Two years of logs documenting the hours of operation.

For engines without functioning hour meters, or if no records were kept, attach:

- A signed statement explaining that no records were kept and estimate the number of hours each pump operated during the past two years and how many hours each pump is projected to operate in the future. You must document how the estimates were made and show calculations.¹

New Replacement Engine:

Engine Year, Make, and Model	HP (engine rating)	EPA Family Number (must be Tier 4 Final)	Cost (\$) **

****Attach itemized price quote from diesel engine supplier to substantiate claim.**

- Itemized price quote attached.

Planned physical location of new pump engine (address or GPS coordinates) if different from existing:

¹ If the new engine is underutilized during the grant term, the grant agreement requires the grantee to refund a pro-rata portion the grant funds to the APCD unless the Executive Officer approves a waiver based on unforeseen conditions beyond the grantee's control.
