

2019 VCAPCD Combined Incentive Program Grant Application General Infrastructure – Page 1

If you are applying for funding for an alternate fueling station or an electric charging station for vehicles, please use the Charing or Alt-Fueling Station Infrastructure Application.

Any infrastructure project, such as transportation refrigeration units, truck stop electrification, or shore-side electrification projects, can use this form and will be considered on a case-by-case basis.

Company Name (must match Tax ID number):	Federal Tax ID Number or Social Security Number (also submit IRS Form W-9):
Contact Name:	
Mailing Address:	
Phone number:	Email:
Person with contract-signing authority (also, sign and date at bottom of page):	

Briefly describe type of project being proposed:	
Is this a publicly accessible project?	<input type="checkbox"/> Yes <input type="checkbox"/> No
Will this project have a solar or wind power systems? ¹	<input type="checkbox"/> Yes <input type="checkbox"/> No
Project address (if different from business address). Enter "various" and explain if more than one.	

All applications must include the following (please check boxes to signify they are attached):

- Application Statement for Infrastructure Applications
- Disclosure Statement
- Compliance Statement
- Page 2 Checklist and associated required documentation

I certify that all information, attachments, and documentation submitted with this application is authentic and correct.

Applicant Signature: _____ Date: _____.

- Specify Desired Grant Amount: _____ (50 – 75%, project dependent²). You may improve your chances of receiving a grant by requesting less than the maximum for the project category.
- Specify Desired Grant Term: _____ (3 – 15 years). A longer term can improve your chances of receiving a grant. The grant contract will require you to report annual usage, keep infrastructure operational, and maintain the infrastructure in Ventura County for the number of years you specify.

¹ Projects must have at least 50% of energy generated from solar or wind sources to qualify as having a solar/wind power system.

² Up to 60% for publicly accessible projects, 65% for project with solar/wind power systems, and 75% for publicly accessible projects with solar/wind power systems. Any other projects can be funded up to 50%.

Page 2 - Infrastructure Project Description and Documentation

Applicant Name & Company _____

1. Project Description:

Please provide a detailed description of the proposed infrastructure project. If known, provide or attach information regarding the commercially available equipment to be used in this project and any data available to support the proposed need and projected usage of the project.

2. Additional Required Application Attachments:

- An aerial map of the proposed project location.**
(i.e. satellite view from an internet-based map or city/county map)
- Proof that the applicant can obtain all required land use permits from agencies needed to install/operate infrastructure.**
- Documentation demonstrating that the land on which the project will be located is either owned by the applicant or controlled by the applicant through a long-term lease, easement, or other legal arrangement for the duration of the project life.**
For applicants who do not own the land where the proposed project will be built, an executed lease agreement or letters of commitment lasting for the duration of the project life must be signed by the property owner(s) or authorized representative(s) can be attached to satisfy this criterion.
- Proof that power or fuel is being provided to the site of the proposed project.**
(e.g. application to, payment to, or contract with the local utility company)
- A copy of warranty information for any major components manufactured and supplied with a manufacturer's warranty.**

In addition, if this is a shore-side electrification project, please attach:

- A copy of the Initial Terminal Plan per Section (g) of ARB's Shore Power Regulation (Title 17 California Code regs, section 93118.3).**
